

2026 Perfect 1z0-1080-25–100% Free Reliable Braindumps Questions | Test 1z0-1080-25 Testking

DOWNLOAD the newest Pass4sureCert 1z0-1080-25 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1g5QeGwXmqEKmhjYSSPcIIJ8YracJQGyD>

It is impossible to pass 1z0-1080-25 exam without efforts and time, but our Pass4sureCert team will try our best to reduce your burden when you are preparing for 1z0-1080-25 exam. The normal model test and understandable answer analysis will make you secretly master the exam skills to pass 1z0-1080-25 exam. In order to reduce more stress for you, we promise you if you fail the exam, what you need to do is to send your scanned unqualified transcripts to our email box. After confirmation, we will immediately refund all the money that you purchased the 1z0-1080-25 Exam Materials. Pass4sureCert is worthy your trust.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 2	<ul style="list-style-type: none"> Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 3	<ul style="list-style-type: none"> Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 4	<ul style="list-style-type: none"> Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.
Topic 5	<ul style="list-style-type: none"> Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 6	<ul style="list-style-type: none"> Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 7	<ul style="list-style-type: none"> Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 8	<ul style="list-style-type: none"> Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 9	<ul style="list-style-type: none"> This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.

Topic 10	<ul style="list-style-type: none"> Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 11	<ul style="list-style-type: none"> Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 12	<ul style="list-style-type: none"> Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 13	<ul style="list-style-type: none"> Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 14	<ul style="list-style-type: none"> Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 15	<ul style="list-style-type: none"> Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 16	<ul style="list-style-type: none"> Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 17	<ul style="list-style-type: none"> Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.

If you are worried about your exam, and want to pass the exam just one time, we can do that for you. 1z0-1080-25 exam materials are compiled by experienced experts, and they are quite familiar with the exam center, and therefore the quality can be guaranteed. In addition, you can receive the downloading link and password within ten minutes, so that you can begin your learning immediately. We provide you with free update for one year and the update version for 1z0-1080-25 Exam Torrent will be sent to your email automatically.

Oracle Planning 2025 Implementation Professional Sample Questions (Q73-Q78):

NEW QUESTION # 73

With Machine Learning, which type of prediction would you define to predict revenue using several input variables such as price, promotions, industry market size, and climate?

- **A. Multivariate Prediction**
- B. Source Prediction
- C. Forecast Prediction
- D. Dimension Prediction

Answer: A

Explanation:

In Oracle Planning 2024's Machine Learning capabilities, particularly with the "Bring Your Own ML" feature, predictions can be defined based on the type of analysis required. To predict revenue using multiple input variables such as price, promotions, industry market size, and climate, the appropriate prediction type is:

* A. Dimension Prediction: Incorrect. This type is not a standard term in Oracle's ML framework for Planning; it suggests predicting across dimensions, which isn't specific to multi-variable revenue prediction.

* B. Source Prediction: Incorrect. This is not a defined prediction type in Oracle Planning's ML documentation; it might imply source data analysis, but it's not applicable here.

* C. Forecast Prediction: Incorrect. While forecasting involves predicting future values, "Forecast Prediction" is not a specific ML type in Oracle, and it doesn't emphasize the use of multiple variables.

* D. Multivariate Prediction: Correct. Multivariate prediction involves using multiple input variables (e.g., price, promotions, market size, climate) to predict an outcome (e.g., revenue). Oracle's ML integration supports importing PMML models that handle multivariate analysis, aligning with this scenario.

The Oracle documentation confirms that Multivariate Prediction is the type suited for complex predictions with several input variables, making D the correct answer.

NEW QUESTION # 74

Before users can start using Workforce, Workforce features need to be enabled. Based on your selections, dimensions, drivers, forms, and accounts are populated. In most cases, you can come back later and incrementally enable additional features. Which of the following is an exception when enabling Workforce?

- A. If you want to consolidate Workforce reports, you must use a custom template and push data to Strategic Modeling.
- **B. If you want to use Employee Demographics, you must select it the first time you enable features.**
- C. If you want to map multiple Projects with Workforce, you must import Resource Classes in projects.
- D. If you import asset details into Workforce, you must track the details of an asset the Asset Details dimension.

Answer: B

NEW QUESTION # 75

Which option describes Intelligent Performance Management (IPM) Insights?

- **A. Analyzes past data and predicted data, helping you find patterns in data**
- B. Displays high-level aggregated information for quick consumptions at a glance
- C. Enables users to keep their work private (from the other non-administrators) as they develop their plans.
- D. Checks when conditions are met in forms, and generates messages when data violates specified condition

Answer: A

NEW QUESTION # 76

Which three tasks can you perform on the Dimensions page to manage dimensions in a Custom Planning application?

- **A. Set the order of precedence.**
- **B. Set the Evaluation Order.**
- **C. Delete dimensions.**
- D. Clear dimension members.
- E. Select the dimension density.

Answer: A,B,C

Explanation:

In Oracle Planning 2024, the Dimensions page in a Custom Planning application allows administrators to manage dimensions. The three tasks you can perform are:

* A. Set the order of precedence: Correct. This task adjusts the display order of dimensions in forms and reports, enhancing usability, and is manageable on the Dimensions page.

* B. Delete dimensions: Correct. Administrators can delete custom dimensions from the application on the Dimensions page, provided they are not in use (e.g., no data or dependencies).

* C. Clear dimension members: Incorrect. Clearing members (e.g., removing all members from a dimension) is not a task performed on the Dimensions page; it's typically done via metadata import with the "Clear Members" option or manual member deletion.

- * D. Select the dimension density: Incorrect. Dimension density (sparse/dense) is set during cube creation or in Cube Designer, not adjustable on the Dimensions page post-creation.
- * E. Set the Evaluation Order: Correct. This task defines the order in which dimensions are evaluated for calculations (e.g., resolving member formulas), configurable on the Dimensions page for custom applications. The Oracle documentation confirms that A, B, and E are tasks supported on the Dimensions page for Custom Planning applications, making them the correct answers.

NEW QUESTION # 77

You enabled Projects and within Projects you enabled the Program dimension so that you can group projects together into a program. Which is a post configuration task for Projects?

- A. Synchronize defaults by pushing updated data to the input forms by running the Synchronize Default business rule.
- **B. Map projects to programs for analysis purposes.**
- C. Review the assumptions under Investments and Intangibles at the No Entity level and members under the Total Entity level.
- D. Modify account type and variance reporting options for members in programs.

Answer: B

NEW QUESTION # 78

.....

For candidates, one of the most important things for you is to know the latest information of the exam. 1z0-1080-25 Training Materials of us will meet your needs. And our system will send the latest version to you automatically, so that you can know the recent information. We have free update for one year, that is to say, you can get free update version for 365 days after purchasing. In addition, we will pass guarantee and money back guarantee.
