Pass Guaranteed 2026 HP HPE0-V25: Trustable Latest HPE Hybrid Cloud Solutions Version

Nowadays, everyone lives so busy every day, and we believe that you are no exception. If you want to save your time, it will be the best choice for you to buy our HPE0-V25 study torrent. Because the greatest advantage of our study materials is the high effectiveness. As a powerful tool for a lot of workers to walk forward a higher self-improvement, Itcertmaster continue to pursue our passion for advanced performance and human-centric technology. We aimed to help some candidates who have trouble in pass their HPE0-V25 Exam and only need few hours can grasp all content of the exam. In recent years, our test torrent has been well received and have reached 99% pass rate with all our dedication.

HPE Hybrid Cloud Solutions Sample Questions (Q10-Q15):

NEW QUESTION # 10

You connect to the Compute Ops Management (CoM) through the GreenLake Cloud Platform dashboard. The server you want to manage is missing. Where should the server be added so it appears in the CoM?

- A. GreenLake Cloud Platform - Onboard Devices
- B. GreenLake Cloud Platform - Manage Subscriptions
- C. Compute Ops Management - Servers
- D. Compute Ops Management - Server Groups

Answer: A

Explanation:

Understanding the Scenario:

You are accessing Compute Ops Management (CoM) through the GreenLake Cloud Platform dashboard.

A specific server is not appearing in the CoM, indicating it needs to be added.

Steps to Add the Server:

A: Compute Ops Management - Server Groups: This option manages existing groups of servers but does not handle the initial onboarding.

B: GreenLake Cloud Platform - Onboard Devices: This is the process to add new devices (servers) to the GreenLake Cloud Platform, ensuring they appear in the CoM.

C: Compute Ops Management - Servers: Used to manage servers already onboarded to the platform.

D: GreenLake Cloud Platform - Manage Subscriptions: Related to managing service subscriptions rather than onboarding devices.

Why B is the Correct answer:

Onboarding Process: The server needs to be onboarded to the GreenLake Cloud Platform for it to be visible and manageable in the Compute Ops Management interface.

Correct Procedure: Onboarding devices is the initial step required to integrate new hardware into the platform's management tools.

NEW QUESTION # 11

When designing new server environments, you need to determine the maximum equipment wattage and thermal requirements at the unit (chassis) and rack level.

Which HPE tool should be used?

- A. HPE OneView
- **B. HPE Power Advisor**
- C. HPE Infosight
- D. HPE Smart Storage Administrator

Answer: B

Explanation:

This is a tool that helps you estimate power consumption and thermal output for HPE servers, storage, and networking products.

You can use it to design new server environments or validate existing ones by selecting the products and configurations you want and generating a detailed report that shows the power and cooling requirements at the unit and rack level.

NEW QUESTION # 12

Your customer has a new SAN storage array, and they are concerned that data corruption might occur when servers using different operating systems access the same data.

You need to ensure that only designated host servers have access to their own logical drives.

Which SAN technique should be used?

- **A. Selective Storage Presentation**
- B. IEEE Structured Addresses
- C. Multipath load balancing
- D. Inter-Switch traffic delivery

Answer: A

Explanation:

Selective Storage Presentation (SSP): This SAN technique ensures that only designated host servers can access specific logical drives, thereby preventing data corruption that could occur when servers using different operating systems access the same data. SSP provides a way to control which servers can see and access particular storage volumes.

NEW QUESTION # 14

Are HPE SimpliVity solutions designed for small-scale deployments?

- A. Yes
- **B. No**

Answer: B

Explanation:

HPE SimpliVity is an HCI (Hyperconverged Infrastructure) solution that combines compute, storage, and networking resources into a single platform. It is designed for mid-sized to large-scale deployments and provides features like deduplication, compression, and backup and disaster recovery capabilities.

NEW QUESTION # 15

.....

We have three versions of HPE0-V25 practice questions for you to choose: PDF version, Soft version and APP version. PDF version of HPE0-V25 training materials is legible to read and remember, and support printing request, so you can have a print and practice in papers. Software version of HPE0-V25 practice materials supports simulation test system, and give times of setup has no restriction. Remember this version support Windows system users only. App online version of HPE0-V25 Exam Questions is suitable to all kinds of equipment or digital devices and supportive to offline exercise on the condition that you practice it without mobile data.
