H19-619_V1.0 exam consists of multiple-choice questions and simulations, which are designed to test the candidate's practical knowledge.

Huawei HCSP-Presales-Government Public Services V1.0 Sample Questions (Q351-Q356):

NEW QUESTION # 351

Which are the main business scenarios of One-Network Collaboration(####)?

- A. Trusted office
- B. Government services
- C. Administrative meetings
- D. Government communications (###)

Answer: A,C,D

Explanation:

One-Network Collaboration mainly covers government communications, administrative meetings, and trusted/secure office collaboration. Government services belong to One-Network Handling.

NEW QUESTION # 352

Smart water conservancy is built under the principle of "demand-driven, application-first, digital empowerment, capacity##", accelerating construction of a "Four-Pre" system with forecasting, early warning, rehearsal and "pre-collection (##)".

- A. Flase
- B. True

Answer: B

Explanation:

Policy requires demand-driven, application-oriented, digitally empowered smart water conservancy, building a "Four-Pre" system (forecasting, early warning, rehearsal, plan). The text mentions "##", but it essentially refers to this Four-Pre structure.

NEW QUESTION # 353

Which reporting channels are supported by One-Network Unified Management for multi-channel event reporting?

- A. Intelligent discovery
- B. Manual discovery
- C. Passive discovery
- D. Active discovery

Answer: A,B

Explanation:

Official guidance defines two main reporting channels: manual discovery (grid inspections, citizen hotline, etc.) and intelligent discovery (IoT sensing, video AI, etc.). "Active" and "passive" discovery are conceptual behaviours rather than standardized reporting-channel categories.

NEW QUESTION # 354

China is currently exploring a comprehensive emergency management model. The Ministry of Emergency Management integrated 13 emergency-related functions across departments, combining prevention and rescue, marking a shift towards an "all-disaster, whole-process, all-domain" emergency management model.

- A. False
- B. True

Answer: B

Explanation:

The State Council's institutional reform established the Ministry of Emergency Management, integrating multiple previously scattered functions, and explicitly aiming at an all-hazard, whole-process emergency management system.

NEW QUESTION # 355

Which of the following is not a typical "Exemption-and-Enjoyment (#####)" application?

- A. Distribution of enterprise-benefit subsidies
- B. **Issuance of Hong Kong/Macao Travel Permits**
- C. Distribution of subsidies for disabled/elderly persons
- D. Distribution of grants under talent policies

Answer: B

Explanation:

"Exemption-and-Enjoyment" means citizens or enterprises automatically receive benefits based on data sharing and matching, without active application or manual approval (e.g., subsidies for disabled/elderly people, talent incentives, enterprise subsidies). Travel permits to Hong Kong/Macao require application and manual review, so they are not "exemption-and-enjoyment" scenarios.

NEW QUESTION # 356
