## Salesforce Certified CPQ Specialist Sample Questions (Q162-Q167):

### NEW QUESTION # 162

Universal Containers would like a specific background color for the column heading of the line item table in the output document. Where should the Admin input the correct hex code to meet this display requirement?

- A. In the Template Content source editor in place of the previous hex color code.
- B. In the Group Shading Color field on the Quote Template record.
- **C. In the Shading Color field on the Quote Template record.**
- D. In the Summary Shading Color field on the Line Column records.

**Answer: C**

### NEW QUESTION # 163

Universal Containers (UC) has categorized its Products into three Product Families. When rendering a document, UC wants to separate the Products into different Line Item tables by Product Family.

How should the admin meet the requirement in the most efficient manner?

- A. Create a Template Section for each Product Family, and set up the appropriate filtering within each section using the Conditional Print field.
- B. Create a Template Section for each Product Family, and set up the appropriate filtering within each section using the Filter field.
- **C. Create a single Template Section, and use the Group Field functionality to ensure appropriate grouping by Product Family.**
- D. Create a single Template Section, and use the LineSortField special field to ensure appropriate grouping by Product Family.

**Answer: C**

### NEW QUESTION # 164

An admin has set the Group ReW on one of the Quote templates. On output documents on Quote A, Quote Lines appear to be grouped incorrectly.

What are two explanations for this grouping?

Choose 2 answers

- **A. Template Section with Template Content of Line Items type has a value in Group Field.**
- **B. There are Quote Line Groups related to Quote A.**
- C. Modified By field on the user
