

New Valid UiPath-ABAAv1 Braindumps | Reliable UiPath UiPath-ABAAv1: UiPath Automation Business Analyst Associate Exam (2023.10) 100% Pass

P.S. Free 2026 UiPath UiPath-ABAAv1 dumps are available on Google Drive shared by TestSimulate:
https://drive.google.com/open?id=1pY6WkSowB9r_BHEfQH8i-OkqQtoKYuJ1

We can say that the UiPath UiPath-ABAAv1 practice questions are the top-notch UiPath Automation Business Analyst Associate Exam (2023.10) (UiPath-ABAAv1) dumps that will provide you with everything that you must need for instant UiPath-ABAAv1 exam preparation. Take the right decision regarding your quick UiPath Automation Business Analyst Associate Exam (2023.10) (UiPath-ABAAv1) exam questions preparation and download the real, valid, and updated UiPath UiPath-ABAAv1 exam dumps and start this journey.

Our UiPath-ABAAv1 practice questions are specialized in providing our customers with the most reliable and accurate exam guide and help them pass their exams by achieve their satisfied scores. With our UiPath-ABAAv1 study materials, your exam will be a piece of cake. We have a lasting and sustainable cooperation with customers who are willing to purchase our actual exam. We try our best to renovate and update our UiPath-ABAAv1 learning guide in order to help you fill the knowledge gap during your learning process, thus increasing your confidence and success rate.

Flexible UiPath-ABAAv1 Testing Engine, Updated UiPath-ABAAv1 Test Cram

Prior to your decision on which UiPath-ABAAv1 exam questions to buy, please inform us of your email address on the UiPath-ABAAv1 study guide so that we can make sure that you can have a try on the free demos of our UiPath-ABAAv1 practice materials. We hope that the UiPath-ABAAv1 learning braindumps you purchased are the best for you. And you can free download all of the three versions to have a fully understanding and feeling.

UiPath Automation Business Analyst Associate Exam (2023.10) Sample

Questions (Q56-Q61):

NEW QUESTION # 56

Which three roles are typically involved in the Process Analysis stage?

- A. Business Analyst, Solution Architect, Project Manager
- B. Client SME, Project Manager, UiPath Sales Team
- C. Project Manager, Automation Developer, Infrastructure Engineer
- D. Automation Developer, Client Team, Solution Architect

Answer: A

Explanation:

The Process Analysis stage involves three primary roles from the Implementation Team:

- * Business Analyst
- * Solution Architect
- * Project Manager

The Business Analyst focuses on capturing the As-Is process and identifying business rules. The Solution Architect evaluates the process for technical feasibility and prepares for future automation design. The Project Manager ensures the process is analyzed on schedule, facilitates stakeholder coordination, and manages dependencies.

This trio works collaboratively with the Client Team to create the Process Definition Document (PDD), which defines the automation scope and lays the foundation for all subsequent stages.

NEW QUESTION # 57

Which three roles from the Implementation Team participate in the Kickoff stage?

- A. Project Manager, Business Analyst, Automation Developer
- B. Automation Developer, Project Manager, UAT Tester
- C. Project Manager, Solution Architect, Infrastructure Engineer
- D. Business Analyst, Solution Architect, Client SME

Answer: C

Explanation:

The three Implementation Team roles that participate in the Kickoff stage are:

- * Project Manager
- * Solution Architect
- * Infrastructure Engineer

In this stage, the Project Manager ensures that responsibilities and timelines are clear, the Solution Architect begins understanding the technical landscape, and the Infrastructure Engineer initiates discussions about access, environments, and setup requirements.

Together, they define the project plan, infrastructure needs, high-level scope, and stakeholder involvement.

Their early involvement ensures that any blockers (especially around access and infrastructure) are addressed from the start, minimizing risks and delays in later stages.

NEW QUESTION # 58

Which document/app is used to record access required to build the automation and run it in UAT and production?

- A. Application Tracker
- B. Process Definition Document
- C. UAT Test Log
- D. Access Control Matrix

Answer: A

Explanation:

The Application Tracker is the document used to record all access requirements needed for the automation project. It includes the details of what access is needed for developers, robots, and testers during development, UAT, and production stages.

Access is one of the most common causes of project delays. Hence, the Application Tracker ensures clear documentation and tracking of which systems need access provisioning, which roles need it, and what level of access is required. It helps prevent last-

minute surprises where developers or bots are blocked from interacting with key systems.

By maintaining this centralized record, project managers and infrastructure engineers can coordinate effectively with client IT teams to avoid delays, improve security compliance, and ensure timely availability of required access credentials or accounts.

NEW QUESTION # 59

Which of the following roles is primarily responsible for defining automation architecture and technical strategy?

- **A. Solution Architect**
- B. Business Analyst
- C. Infrastructure Engineer
- D. Project Manager

Answer: A

Explanation:

The Solution Architect is the primary role responsible for defining the automation architecture and technical strategy in a UiPath automation project. This includes choosing the right components (e.g., Studio, Orchestrator, attended vs. unattended bots), designing reusable modules, and ensuring scalability and maintainability.

They act as the technical leader, providing guidance to the development team and ensuring that the architecture adheres to best practices. The Solution Architect is also involved in every major stage - from Business Case Validation and Solution Design to UAT and Deployment - to maintain consistency and resolve any technical challenges.

Their expertise ensures that the automation is technically sound, aligns with infrastructure constraints, and integrates seamlessly into the client's existing ecosystem. They also play a key role in identifying technical risks and proposing solutions early in the project.

NEW QUESTION # 60

What is the primary focus of the "Business Case and Technical Validation" stage?

- A. Creating documentation for project closure
- **B. Evaluating business value, complexity, and feasibility of automation**
- C. Analyzing the As-Is process
- D. Building the automation and testing it

Answer: B

Explanation:

The Business Case and Technical Validation stage focuses on evaluating the business value, complexity, and feasibility of the proposed automation candidates. It is an essential checkpoint before any development begins, ensuring that the chosen processes are both valuable and technically viable.

In this stage, the Automation Business Analyst assesses the potential ROI, cost-benefit analysis, and strategic alignment with business goals. Meanwhile, the Solution Architect evaluates the technical feasibility, identifying access needs, integration points, and potential risks.

By assessing these factors upfront, this stage helps prioritize processes that offer the highest value and are achievable within the project's constraints. It also ensures stakeholder alignment on why a process is being automated and how it will deliver measurable benefits.

NEW QUESTION # 61

.....

Get the latest UiPath-ABAAv1 actual exam questions for UiPath-ABAAv1 Exam. You can practice the questions on practice software in simulated real UiPath-ABAAv1 exam scenario or you can use simple PDF format to go through all the real UiPath-ABAAv1 exam questions. Our products are better than all the cheap UiPath-ABAAv1 Exam braindumps you can find elsewhere, try free demo. You can pass your actual UiPath-ABAAv1 Exam in first attempt. Our UiPath-ABAAv1 exam material is good to pass the exam within a week. TestSimulate is considered as the top preparation material seller for UiPath-ABAAv1 exam dumps, and inevitable to carry you the finest knowledge on UiPath-ABAAv1 exam certification syllabus contents.
