We also pass guarantee and money back guarantee for you fail to pass the exam by using the I27001F exam dumps, or you can replace other 2 valid exam dumps, at the same time, you can also get the free update for I27001F Training Materials. In addition, we use the international recognition third party for payment, therefore your money safety id guaranteed. We support online payment with credit card.

## **CertiProf Certified ISO/IEC 27001:2022 Foundation Sample Questions (Q23-Q28):**

### **NEW QUESTION # 23**

According to ISO/IEC 27001:2022, is it necessary to formulate an information security risk treatment plan?

- A. It is only an observation to keep in mind when auditing the management system
- **B. It is a requirement to be fulfilled**
- C. It is a recommendation, but not a requirement
- D. None of the above

**Answer: B**

Explanation:

ISO/IEC 27001:2022 requires the organization to define and apply an information security risk treatment process and to prepare a risk treatment plan. This is a mandatory requirement within clause 6 on planning.

The purpose of the plan is to define how identified information security risks will be treated, which controls will be selected, and how the treatment decisions will be implemented. Therefore, it is not optional guidance or an audit note, but a formal requirement. For that reason, option B is correct.

---

### **NEW QUESTION # 24**

Within the ISMS, ensuring the integration of information security management system requirements into the organization's processes is a responsibility of:

- A. The IT Security Manager
- B. The Operations Manager
- C. The quality management representative
- **D. Top management**

**Answer: D**

Explanation:

ISO/IEC 27001:2022 assigns leadership and accountability for the ISMS to top management. One of the specific responsibilities of top management is to ensure that the ISMS requirements are integrated into the organization's processes. This demonstrates that information security is not treated as an isolated activity, but as part of the overall governance and operation of the organization. Therefore, option D is correct.

---

### **NEW QUESTION # 25**

What does ISO/IEC 27001:2022 require in order for top management to demonstrate leadership and commitment with respect to the Information Security Management System?

- A. Hiring a consultancy to determine the best way to do it
- B. Nothing is required
- **C. Ensuring that the information security policy and information security objectives are established and are compatible with the strategic direction of the organization**
- D. Appointing a volunteer to be responsible for the Information Security Management System

**Answer: C**

### **NEW QUESTION # 26**

Management review must include consideration of:

- A. The status of actions from previous management reviews
- **B. All of the above**
- C. Changes in external and internal issues that are relevant to the ISMS
- D. Opportunities for continual improvement

**Answer: B**

Explanation:

ISO/IEC 27001:2022 specifies the inputs to management review. These include changes in external and internal issues relevant to the ISMS, feedback on performance including nonconformities and corrective actions, follow-up actions from previous reviews, and opportunities for continual improvement. Since all of the listed elements are valid management review inputs, the correct answer is D.

---

### NEW QUESTION # 27

During the operation of the ISMS, what is a requirement for information security objectives?

- **A. Ensure that the objectives are consistent with the information security policy**
- B. Maintain documented information about the objectives
- C. Establish objectives for relevant functions and levels
- D. Develop improvement plans using ISO/IEC 27002 to achieve the information security objectives

**Answer: A**

Explanation:

ISO/IEC 27001:2022 requires information security objectives to be established at relevant functions and levels, to be consistent with the information security policy, to be measurable if practicable, and to be monitored, communicated, and updated as appropriate. It also requires documented information on the objectives. Among the answer choices, option C is the best single answer because it expresses one of the core mandatory characteristics of the objectives. Even though options B and D are also requirements, the question asks for one answer only, and option C is the most fundamental wording in the set.

---

### NEW QUESTION # 28

.....

BootcampPDF is a wonderful study platform that contains our hearty wish for you to pass the exam by our I27001F exam materials. So our responsible behaviors are our instinct aim and tenet. By devoting in this area so many years, we are omnipotent to solve the problems about the I27001F learning questions with stalwart confidence. we can claim that only studying our I27001F study guide for 20 to 30 hours, then you will pass the exam for sure.
