Free update for 365 days is available if you buy SC-401 exam braindumps from us. That is to say, in the following year, you can get the latest information about the SC-401 exam dumps timely. And the update version will be sent to your email automatically. In addition, the SC-401 Exam Braindumps are compiled by experienced experts who are quite familiar with the dynamics about the exam center, therefore the quality and accuracy of the SC-401 exam braindumps can be guaranteed.

Microsoft SC-401 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.
Topic 2	<ul style="list-style-type: none">• Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.
Topic 3	<ul style="list-style-type: none">• Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.
Topic 4	<ul style="list-style-type: none">• Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.

New SC-401 Exam Price & SC-401 Latest Material

God is fair, and everyone is not perfect. As we all know, the competition in the IT industry is fierce. So everyone wants to get the IT certification to enhance their value. I think so, too. But it is too difficult for me. Fortunately, I found ValidVCE's Microsoft SC-401 exam training materials on the Internet. With it, I would not need to worry about my exam. ValidVCE's Microsoft SC-401 Exam Training materials are really good. It is wide coverage, and targeted. If you are also one of the members in the IT industry, quickly add the ValidVCE's Microsoft SC-401 exam training materials to your shoppingcart please. Do not hesitate, do not hovering. ValidVCE's Microsoft SC-401 exam training materials are the best companion with your success.

Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q199-Q204):

NEW QUESTION # 199

Hotspot Question

You have a Microsoft 365 E5 subscription.

You need to ensure that users are prevented from uploading sensitive data to ChatGPT and Google Gemini. The solution must meet the following requirements:

- Prevent credit card numbers from being pasted into ChatGPT and Gemini.
- Prevent documents that contain classified data from being uploaded to ChatGPT and Gemini.

Which Microsoft Purview solution should you use for each requirement? To answer, select the appropriate options in the answer

NOTE: Each correct selection is worth one point.

Answer Area

Credit card numbers: ▼

- Communication Compliance
- Data Loss Prevention
- Information Barriers
- Insider Risk Management

Documents: ▼

- Communication Compliance
- Data Loss Prevention
- Information Barriers
- Insider Risk Management

Answer:

Explanation:

Answer Area Microsoft

Credit card numbers: ▼

- Communication Compliance
- Data Loss Prevention
- Information Barriers
- Insider Risk Management

Documents: ▼

- Communication Compliance
- Data Loss Prevention
- Information Barriers
- Insider Risk Management

Explanation:

Box 1: Data Loss Prevention

Prevent credit card numbers from being pasted into ChatGPT and Gemini.

Microsoft Purview data security and compliance protections for generative AI apps The Data Loss Prevention Policy (DLP) serves as a safeguard against sensitive data being copied, pasted, or uploaded into external AI platforms.

Windows computers that are onboarded to Microsoft Purview can be configured for Endpoint data loss prevention (DLP) policies that warn or block users from sharing sensitive information with third-party generative AI sites that are accessed via a browser. For example, a user is prevented from pasting credit card numbers into ChatGPT, or they see a warning that they can override.

Box 2: Data Loss Prevention

Prevent documents that contain classified data from being uploaded to ChatGPT and Gemini.

Data Loss Prevention (DLP) Policy: Preventing Sensitive Data from Being Shared The Data Loss Prevention Policy (DLP) serves as a safeguard against sensitive data being copied, pasted, or uploaded into external AI platforms. This policy ensures that any confidential, personal, or proprietary information is blocked from being transferred to unauthorized AI websites like ChatGPT or Google Gemini.

NEW QUESTION # 200

You have a Microsoft 365 E5 subscription that contains two users named User1 and User2. On January 1, you create the sensitivity label shown in the following table.

Setting	Value
Name	Label1
Assign permissions now or let users decide?	Assign permissions now
User access to content expires	After 21 days
Assign permissions to specific users and groups	Co-Author: User1 and User2

On January 2, you publish Label1 to User1.

On January 3, User1 creates a Microsoft Word document named Doc1 and applies Label1 to the document.

On January 4, User2 edits Doc1.

On January 15, you increase the content expiry period for Label1 to 28 days. When will access to Doc1 expire for User2?

- A. January 31
- B. January 25
- C. January 23
- D. January 24

Answer: D

NEW QUESTION # 201

You need to meet the technical requirements for the Site1 documents.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Create a sensitivity label.	
Wait 24 hours and then turn on the policy.	
Create a sensitive info type.	
Create a retention label.	
Create an auto-labeling policy.	

Answer:

Explanation:

Actions	Answer Area
Create a sensitivity label.	Create a sensitive info type.
Wait 24 hours and then turn on the policy.	Create a retention label.
Create a sensitive info type.	Create an auto-labeling policy.
Create a retention label.	
Create an auto-labeling policy.	

Explanation:

A screenshot of a questionnaire AI-generated content may be incorrect.

The goal is to automatically label documents in Site1 that contain credit card numbers. To achieve this, we need a sensitivity label with an auto-labeling policy based on a sensitive info type that detects credit card numbers.

Step 1: Create a Sensitive Info Type

A sensitive info type is needed to detect credit card numbers in documents.

Microsoft Purview includes built-in sensitive info types for credit card numbers, but we can also create a custom one if necessary.

Step 2: Create a Sensitivity Label

A sensitivity label is required to classify and protect documents containing sensitive information.

This label can apply encryption, watermarking, or access controls to credit card data.

Step 3: Create an Auto-Labeling Policy

An auto-labeling policy ensures that the sensitivity label is applied automatically when credit card numbers are detected in Site1.
This policy is configured to scan files and automatically apply the correct sensitivity label.

NEW QUESTION # 202

You have a data loss prevention (DLP) policy configured for endpoints as shown in the following exhibit.

From a computer named Computer1, a user can sometimes upload files to cloud services and sometimes cannot. Other users experience the same issue.

What are two possible causes of the issue? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. The Access by restricted apps action is set to Audit only.
- B. There are file path exclusions in the Microsoft 365 Endpoint data loss prevention (Endpoint DLP) settings.
- C. The Copy to clipboard action is set to Audit only.
- D. The unallowed browsers in the Microsoft 365 Endpoint data loss prevention (Endpoint DLP) settings are NOT configured.
- E. The computers are NOT onboarded to Microsoft Purview.

Answer: B,D

Explanation:

The issue where users sometimes can upload files to cloud services and sometimes cannot suggests inconsistent enforcement of Endpoint DLP policies. This can be caused by the unallowed browsers in the Microsoft 365 Endpoint DLP settings are NOT configured. Also, there are file path exclusions in the Microsoft 365 Endpoint DLP settings.

Endpoint DLP can block uploads only when using unallowed browsers. If unallowed browsers are not configured, users might be able to bypass restrictions by switching to a different browser. This could explain why uploads sometimes work and sometimes don't, depending on which browser is used.

File path exclusions allow certain files or folders to be exempt from DLP restrictions. If a specific file location is excluded, files stored there won't trigger DLP policies, leading to inconsistent behavior. This could result in some uploads being blocked while others are allowed.

NEW QUESTION # 203

Hotspot Question

You have Microsoft 365 E5 tenant that has a domain name of 86s40q.onmicrosoft.com.

The tenant contains the users shown in the following table.

You have a published sensitivity label.

The Access control settings for the sensitivity label are configured as shown in the exhibit. (Click the Exhibit tab.)

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 204

.....

Actual Microsoft SC-401 exam questions in our PDF format are ideal for restrictions-free quick preparation for the test. Microsoft SC-401 Real exam questions which are available for download in PDF format can be printed and studied in a hard copy format. Our Administering Information Security in Microsoft 365 (SC-401) PDF file of updated exam questions is compatible with smartphones, laptops, and tablets. Therefore, you can use this Administering Information Security in Microsoft 365 PDF to prepare for the test without limits of time and place.
