Microsoft Dynamics 365: Finance and Operations Apps Developer Sample Questions (Q197-Q202):

NEW QUESTION # 197

A company is using a Dynamics 365 finance and operations app.

The accounting department requests two custom fields named CusStatus and CusDiscount for the header of the sales invoice SSRS report. The custom fields are in the SalesTable table.

You create a duplicate of the report design and add the two new fields to a temporary table by using the following extension:

You need to populate the new fields by using Chain of Command (CoQ)

Solution: Declare the SalesTable table on line 06 and insert a new line after line 06 to declare the SalesInvoiceHeaderFooterTmp table
