## CIPS Managing Ethical Procurement and Supply (L5M5) Sample Questions (Q35-Q40):

### NEW QUESTION # 35

Which of the following standard operating procedures do procurement professionals use to prevent fraud within a company?

- A. Allowing a single employee to handle all procurement transactions without oversight
- B. Bypassing formal bidding processes for convenience in purchasing decisions
- C. Implementing a whistleblower hotline to report suspicious activities anonymously
- D. Using verbal agreements for procurement contracts to expedite the process

**Answer: C**

Explanation:

Choice B- A whistleblower hotline allows employees to report suspected fraudulent activities or unethical behavior anonymously, fostering a culture of transparency and accountability. This tool can help organizations identify and address fraud early, reducing the risk of financial loss.

Incorrect answer:

Choice A- Allowing one person to manage all procurement transactions without oversight significantly increases the risk of fraud.

Implementing checks and balances, such as requiring multiple approvals or reviews, is essential for accountability and transparency in procurement processes.

Choice C- Relying on verbal agreements increases the risk of misunderstandings and fraud, as there is no formal documentation to refer to. Written contracts are essential for establishing clear terms and protecting both parties, which helps mitigate fraud risks.

Choice D- This option is incorrect. Bypassing formal bidding processes undermines transparency and competitiveness, increasing the risk of fraud and corruption. Adhering to formal procurement processes ensures fairness, accountability, and proper documentation, reducing the likelihood of fraudulent activities.

### NEW QUESTION # 36

The Modern Slavery Act (2015) ensures supply chains are free from forced and child labour. Which of the following is a limitation of the Act?

- A. There are no repercussions for non-compliance
- B. It is optional to comply with

- C. It only applies to companies with a large turnover
- D. It doesn't apply if supply chains are outside the UK

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The Modern Slavery Act (2015) requires companies with a turnover above £36 million to publish a slavery and human trafficking statement. The L5M5 study guide (p.45) highlights this as a limitation because it excludes smaller businesses, even though they may also operate complex supply chains. The Act applies regardless of where supply chains are located (so A is incorrect), and compliance is mandatory (C is incorrect). Non-compliance can lead to civil proceedings (so D is incorrect). Procurement professionals must be aware of this threshold and ensure compliance in larger organisations.

### NEW QUESTION # 37

XYZ Corporation has been acquired by a global company that plans to centralize all sourcing activities and standardize processes. Which factor could help XYZ Corporation gain a competitive advantage through this centralization?

- A. Ability to use more favorable legislation in different countries and avoid local legal obligations
- B. Improved benchmarking shared data to provide ability to agree prices with global competitors
- C. Efficiency gains that lead to increased productivity and lower prices
- D. Increased due diligence activity resulting in lower governance of suppliers

**Answer: B**

Explanation:

Choice B- Improved benchmarking and shared data can help a company agree on prices with global competitors and gain a competitive advantage. Option B is the correct answer.

Incorrect answer:

Choice A- Legal obligations have to be maintained from wherever the company is operating. Avoiding or adhering to legislations is not a competitive advantage.

Choice C- Competitive advantage can best be described as what sets an organization apart. Increased efficiency is the result of competitive advantage but not a competitive advantage itself.

Choice D- Increased due diligence activity resulting in lower governance of suppliers is not a competitive advantage for XYZ Corporation.

### NEW QUESTION # 38

Red Flag Inc. introduces a new ESG policy and is considering low-cost country sourcing. They need to evaluate suppliers. Which activities should they carry out? Select THREE

- A. Ensure the supplier has ISO9001 and SA8000 certifications
- B. Introduce stringent performance management practices
- C. Conduct regular risk assessments to identify risks that may impact ESG performance
- D. Select a supplier in their own country, as all low-cost suppliers risk using slave labour
- E. Align KPIs to the ESG policy

**Answer: B,C,E**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

Effective supplier evaluation must align with ESG policies. The L5M5 study guide (p.80) highlights that procurement should establish performance management frameworks (A), ensure that KPIs reflect ESG objectives (B), and carry out regular risk assessments (D). While certifications such as ISO9001 and SA8000 (C) are valuable, requiring them universally may exclude smaller, ethical suppliers unable to afford certification costs. Option E is unethical and discriminatory, as not all low-cost country suppliers use forced labour. A balanced, risk-based approach ensures ethical compliance while supporting sustainability goals.
