EDGE-Expert Exam Collection Pdf | Vce EDGE-Expert Torrent

What's more, part of that BraindumpsPass EDGE-Expert dumps now are free: https://drive.google.com/open?id=1_QeKCU_2RPXVZm5sMsPgxY36TOwAXq7_

Now on the Internet, a lot of online learning platform management is not standard, some web information may include some viruses, cause far-reaching influence to pay end users and adverse effect. If you purchase our EDGE-Expert test torrent this issue is impossible. We hire experienced staff to handle this issue perfectly. We are sure that our products and payment process are surely safe and anti-virus. If you have any question about downloading and using our EDGE-Expert Study Tool, we have professional staff to remotely handle for you immediately, let users to use the Excellence in Design for Greater Efficiencies (EDGE Expert) Exam guide torrent in a safe environment, bring more comfortable experience for the user.

We provide free PDF demo of our EDGE-Expert practice questions download before purchasing our complete version. After purchasing we provide one year free updates and one year customer service on our EDGE-Expert learning materials. Also we promise "Pass Guaranteed" with our EDGE-Expert training braindump. Our aim is to make our pass rate high up to 100% and the ratio of customer satisfaction is also 100%. If you are looking for valid EDGE-Expert preparation materials, don't hesitate, go ahead to choose us.

>> EDGE-Expert Exam Collection Pdf <<

Vce EDGE-Expert Torrent | EDGE-Expert Latest Cram Materials

We have the EDGE-Expert bootcamp , it aims at helping you increase the pass rate , the pass rate of our company is 98%, we can ensure that you can pass the exam by using the EDGE-Expert bootcamp. We have knowledge point as well as the answers to help you finish the traiing materials, if you like, it also has the offline version, so that you can continue the study at anytime

EDGE Excellence in Design for Greater Efficiencies (EDGE Expert) Exam Sample Questions (Q42-Q47):

NEW QUESTION # 42
What are the benefits of using a pool cover that are recognized in EDGE?

- A. Reduce chemical consumption and that of cleaning products
- B. Require less maintenance and work from employees
- C. Reduce both water and energy demand
- D. Increase solar control and comfort

Answer: C

Explanation:
Pool covers are a water and energy efficiency measure in EDGE, particularly relevant for hotels with swimming pools. The EDGE User Guide outlines their benefits: "Pool covers reduce water demand by minimizing evaporation and energy demand by reducing the need for heating, as they retain heat in the pool.
In EDGE, the use of pool covers is recognized for its dual impact on reducing both water and energy consumption" (EDGE User Guide, Section 5.3: Additional Water Efficiency Measures). Option B, reduce both water and energy demand, directly aligns with this description. Option A (increase solar control and comfort) is incorrect, as pool covers are not recognized in EDGE for solar control or occupant comfort but for resource savings. Option C (require less maintenance and work from employees) and Option D (reduce chemical consumption and that of cleaning products) are potential secondary benefits but are not quantified or recognized in EDGE calculations, as confirmed by: "EDGE focuses on measurable water and energy savings from pool covers, not on maintenance or chemical use reductions" (EDGE Methodology Report Version 2.0, Section 4.3: Water Efficiency Calculations). Thus, Option B is the correct answer.
Reference: EDGE User Guide Version 2.1, Section 5.3: Additional Water Efficiency Measures; EDGE Methodology Report Version 2.0, Section 4.3: Water Efficiency Calculations.

NEW QUESTION # 43
The COP of the water-cooled chiller is 6, and the cooling thermal load is 3516 W. What is the power rating of the chiller?

- A. 21096 W
- B. 586 W
- C. 3510 W
- D. 3522 W

Answer: B

Explanation:
The Coefficient of Performance (COP) is used in EDGE to calculate the electrical power input required for a given thermal output of a chiller. The EDGE Methodology Report defines COP as: "COP is the ratio of thermal output to electrical input, expressed as COP = Thermal Output / Electrical Input. To find the electrical input (power rating), rearrange the formula: Electrical Input = Thermal Output / COP" (EDGE Methodology Report Version 2.0, Section 5.1: Energy Efficiency Metrics). Given the COP of the water-cooled chiller as 6 and the cooling thermal load (thermal output) as 3516 W, the power rating is calculated as follows: Electrical Input = 3516 W / 6 = 586 W. Option A, 586 W, matches this calculation. Option B (3510 W) is incorrect, as it is slightly less than the thermal output, implying an unrealistic COP near 1. Option C (3522 W) is slightly above the thermal output, also incorrect. Option D (21096 W) is the result of multiplying the thermal output by the COP (3516 × 6), which is the inverse of the correct calculation. The EDGE User Guide confirms: "For a chiller with a COP of 6, the electrical input is one-sixth of the thermal output, ensuring energy efficiency is accurately assessed" (EDGE User Guide, Section 4.2: Energy Efficiency Measures). Thus, the power rating is
586 W (Option A).
Reference:EDGE Methodology Report Version 2.0, Section 5.1: Energy Efficiency Metrics; EDGE User Guide Version 2.1, Section 4.2: Energy Efficiency Measures.

NEW QUESTION # 44
Which of the following protocols should be followed when the project city is not listed in the EDGE App?

- A. Select any city in the same climate zone around the world and use that to certify the project.
- B. Choose the closest city to the project location and edit the climate data if necessary.
- C. Choose the capital city to the project location and edit the climate data if necessary.
- D. Write to EDGE Certifier to request the city to be included and wait for the application to be updated.

Answer: B

Explanation:
The EDGE App relies on location-specific climate data to calculate resource savings, but not all cities are listed. The EDGE User Guide provides guidance for such cases: "If the project city is not listed in the EDGE App, the user should choose the closest city to the project location that is available in the database. If necessary, the user can edit the climate data (e.g., temperature, humidity) to better reflect the project's actual conditions, ensuring accurate calculations" (EDGE User Guide, Section 2.2: Project Setup). Option B, choose the closest city and edit the climate data if necessary, directly matches this protocol. Option A (write to EDGE Certifier and wait) is incorrect, as this is not a required step: "Users are not required to request new cities; they can proceed by selecting the closest city" (EDGE User Guide, Section 2.2: Project Setup). Option C(select any city in the same climate zone globally) is too broad and inaccurate: "Choosing a city from a different region, even in the same climate zone, may lead to incorrect assumptions about local practices and climate" (EDGE Methodology Report Version 2.0, Section 3.2: Climate Data Inputs). Option D (choose the capital city) is also incorrect unless it is the closest: "The capital city should only be selected if it is the nearest available option in the database" (EDGE User Guide, Section 2.2: Project Setup). Thus, the correct protocol is to choose the closest city and edit climate data (Option B).
Reference:EDGE User Guide Version 2.1, Section 2.2: Project Setup; EDGE Methodology Report Version 2.0, Section 3.2: Climate Data Inputs.

NEW QUESTION # 45
In the EDGE software, the Base Case selection of external wall materials in hotels relies on information derived from:

- A. Local building material suppliers who subscribe to EDGE certification for their materials, or are nationally accredited by the local standards authority.
- B. Typical building practices as well as national building performance codes, where they are in existence.
- C. Hotel developers' corporate standard specifications, or materials which have been accredited by the hotel industry.
- D. Global building practices as well as international building performance codes, where they are in existence.

Answer: B

Explanation:
The EDGE software uses a Base Case to establish a benchmark for resource consumption, tailored to local conditions. The EDGE Methodology Report explains how the Base Case is constructed: "The Base Case for external wall materials in hotels is determined using data from market surveys of typical building practices in the project's country, supplemented by national building performance codes where available. This ensures the baseline reflects local construction norms and regulatory standards" (EDGE Methodology Report Version 2.0, Section 3.1: Base Case Determination). Option A matches this description by referencing typical building practices and national codes. Option B incorrectly refers to global practices and international codes, which EDGE does not use, as the software prioritizes local context. Option C, focusing on corporate specifications, is not part of the Base Case methodology, as the Base Case is standardized, not project-specific. Option D, involving local suppliers or accreditation, is irrelevant to how EDGE determines the Base Case, which relies on broader market data rather than supplier-specificinformation.
Reference:EDGE Methodology Report Version 2.0, Section 3.1: Base Case Determination; EDGE User Guide Version 2.1, Section 2.3: Using the EDGE App.

NEW QUESTION # 46
For which of the following is EDGE Advanced certification available?

- A. New constructions
- B. Parks and landscape projects
- C. Infrastructure constructions
- D. Green lease agreements

Answer: A

Explanation:
The EDGE Standard defines specific project types eligible for certification levels, including EDGE Advanced, which requires at least 40% energy savings. The EDGE Certification Protocol specifies: "EDGE Advanced certification is available for new constructions that achieve a minimum of 40% energy savings compared to the base case, applicable to building typologies such as homes, hotels, offices, hospitals, retail, and schools" (EDGE Certification Protocol, Section 2.3: Certification Levels). Option A, new constructions, aligns with this scope, as EDGE focuses on new buildings across supported typologies. Option B, green lease agreements, is not a building type and is outside EDGE's certification framework. Option C, infrastructure constructions, and Option D, parks and landscape projects, are also not covered under EDGE typologies, as confirmed by the EDGE User Guide: "EDGE certification applies to new buildings and major renovations of specific typologies, excluding infrastructure or landscape-only projects" (EDGE User Guide, Section 1.2:
Scope of EDGE Certification). Thus, only new constructions qualify for EDGE Advanced certification.
Reference:EDGE Certification Protocol, Section 2.3: Certification Levels; EDGE User Guide Version 2.1, Section 1.2: Scope of EDGE Certification.

NEW QUESTION # 47
......

Forget your daydream! Forget living in cloud-cuckoo-land! Just be down-to-earth to prepare for an IT certification. EDGE EDGE-Expert latest exam sample questions on our website are free to download for your reference. If you still want to find a valid dump, our website will be your beginning. Our EDGE EDGE-Expert Latest Exam sample questions are a small part of our real products. If you think the free version is excellent, you can purchase our complete version.

Vce EDGE-Expert Torrent: https://www.braindumpspass.com/EDGE/EDGE-Expert-practice-exam-dumps.html

EDGE EDGE-Expert Exam Collection Pdf Free demo before making a decision, Looking for a simple and quick way to crack the EDGE-Expert test, EDGE EDGE-Expert Exam Collection Pdf Therefore you can study in anytime and at anyplace, EDGE EDGE-Expert Exam Collection Pdf First, the practical and fashion content, That is to say, you can download EDGE-Expert exam study material and start to prepare for the exam only a few minutes after payment, EDGE EDGE-Expert Exam Collection Pdf High pass-rate products help us win good reputation and high satisfaction.

Compound Criteria and the Logical Operators, Over the years, EDGE-Expert mobile devices have improved tremendously, and the Windows Mobile operating system has evolved as well.

Free demo before making a decision, Looking for a simple and quick way to crack the EDGE-Expert test, Therefore you can study in anytime and at anyplace, First, the practical and fashion content.
