Valid Test GH-300 Tips - GH-300 Exam Overviews

GitHub Copilot (GH-300) certification exams are a great way to analyze and evaluate the skills of a candidate effectively. Big companies are always on the lookout for capable candidates. You need to pass the GitHub Copilot (GH-300) certification exam to become a certified professional. This task is considerably tough for unprepared candidates however with the right GH-300 prep material there remains no chance of failure.

Microsoft GH-300 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> How GitHub Copilot Works and Handles Data: Designed for Machine Learning Engineers and Data Privacy Specialists, this section covers the data lifecycle and processing behind Copilot's code suggestions. It explains how context is gathered, prompts constructed, responses generated, and post-processed through proxy services. Candidates understand Copilot's data policies, handling of inputs, and limitations such as context window size and data age influencing suggestion relevance.
Topic 2	<ul style="list-style-type: none"> Domain 4: Prompt Crafting and Prompt Engineering This section measures skills of Software Developers and AI Interaction Designers in effectively crafting prompts to optimize Copilot's output. It reviews foundational concepts such as prompt components, the role of language in prompting, zero-shot vs. few-shot prompting, and how chat history influences responses. Best practices and engineering principles for prompt design and training methods are also covered.

Topic 3	<ul style="list-style-type: none"> Developer Use Cases for AI: Targeting Software Engineers and Technical Leads, this domain elaborates on how AI improves developer productivity across common tasks like learning new languages, translation, documentation, debugging, data science, and refactoring. It discusses Copilot's support in software development lifecycle management and highlights its limitations. Use of the productivity API to track Copilot's impact is also included.
Topic 4	<ul style="list-style-type: none"> GitHub Copilot Plans and Feature: This domain targets Product Managers and DevOps Engineers and focuses on understanding the various GitHub Copilot subscription plans like Individual, Business, and Enterprise, including distinctions and management features. It covers how Copilot is integrated into IDEs, different triggering methods for code suggestions, organizational policy management, subscription administration via API, and effective use of Copilot Chat and Knowledge Bases. Candidates also learn about CLI usage and configuration.
Topic 5	<ul style="list-style-type: none"> Domain 6: Testing with GitHub Copilot: This section measures abilities of QA Engineers and Test Automation Specialists to use Copilot for test generation, including unit and integration tests. It explains how Copilot can identify edge cases and assist in writing assertions. The domain also covers different Copilot subscription SKUs, privacy considerations, organizational code suggestion settings, and configuration files related to Copilot.
Topic 6	<ul style="list-style-type: none"> Privacy Fundamentals and Context Exclusions: This domain focuses on Security Engineers and Compliance Officers and addresses improving code quality with Copilot's test suggestions and security optimizations. It covers identification of security vulnerabilities, performance enhancements, and privacy features like content exclusions at repository and organization levels with explanation of their limitations. Candidates learn about safeguarding mechanisms such as duplication detection, contractual protections, security checks, and troubleshooting guide for common Copilot issues including context exclusions and suggestion gaps.

Microsoft GitHub Copilot Sample Questions (Q21-Q26):

NEW QUESTION # 21

What types of content can GitHub Copilot Knowledge Base answer questions about? (Each correct answer presents part of the solution. Choose three.)

- A. Compiled binaries
- B. Design patterns
- C. Code snippets
- D. Screenshots
- E. Documentation

Answer: B,C,E

Explanation:

"GitHub Copilot Knowledge Bases allow you to ask questions about your organization's documentation, design patterns, and code snippets." This proves that Copilot Knowledge Base can work with code snippets, documentation, and design patterns, but not binaries or screenshots.

References: GitHub Copilot Enterprise Knowledge Base documentation.

NEW QUESTION # 22

Which GitHub Copilot pricing plans include features that exclude your GitHub Copilot data like usage, prompts, and suggestions from default training GitHub Copilot? (Choose two correct answers.)

- A. GitHub Copilot Codespace
- B. GitHub Copilot Business
- C. GitHub Copilot Individual
- D. GitHub Copilot Enterprise

Answer: B,D

Explanation:

"For Copilot Business and Copilot Enterprise, user data such as code suggestions, prompts, and completions are excluded from training GitHub Copilot's models." This confirms that only Business and Enterprise plans provide this exclusion feature.

References: GitHub Copilot data usage and privacy documentation.

NEW QUESTION # 23

What is a key consideration when relying on GitHub Copilot Chat's explanations of code functionality and proposed improvements?

- **A. Reviewing and validating the generated output for accuracy and completeness.**
- B. The explanations are primarily derived from user-provided documentation.
- C. GitHub Copilot Chat uses a static database for generating explanations.
- D. The explanations are dynamically updated based on user feedback.

Answer: A

Explanation:

While GitHub Copilot Chat can provide helpful explanations and suggestions, it's crucial to review and validate the generated output. Copilot's suggestions are based on its training data, and they may not always be perfectly accurate or complete. Human judgment is essential to ensure the quality and correctness of the code.

Reference: GitHub Copilot best practices and usage guidelines.

NEW QUESTION # 24

Where can you validate if GitHub Copilot is not returning suggestions because of content exclusions?

- A. The GitHub Copilot errors panel in your IDE
- B. The code suggestions window will display a warning message
- **C. The GitHub Copilot icon in the status bar of the editor will display a message**
- D. The GitHub Copilot logs on GitHub.com under your user settings

Answer: C

Explanation:

Exact extracts:

* "When a file is affected by a content exclusion setting, GitHub Copilot will not suggest code completion in that file..." References: GitHub Copilot official troubleshooting documentation on content exclusions.

NEW QUESTION # 25

How can GitHub Copilot facilitate a smoother learning experience when diving into a new programming language? (Each correct answer presents part of the solution. Choose two.)

- A. GitHub Copilot can provide contextualized code suggestions and answer sources from an organization's documentation.
- **B. GitHub Copilot can convert comments into code to grasp the syntax and nuances of a new programming language.**
- C. GitHub Copilot's /understand command will help GitHub Copilot to understand code written in a targeted programming language.
- **D. GitHub Copilot Chat can provide guidance and support for common coding tasks and challenges in the targeted programming language.**

Answer: B,D

Explanation:

GitHub Copilot helps with learning new languages by providing guidance on common tasks and by converting comments into code, allowing developers to see syntax in action.

NEW QUESTION # 26
