CASPO-001 Reliable Exam Tutorial | CASPO-001 Practice Test Online

CASPO-001 Exam Questions of TestBraindump are ideal for the students who are willing to prepare for the exam in a short time. The Certified Agile Scrum Product Owner (CASPO) (CASPO-001) professionals have worked hard on making this product one of the most successful and user-friendly. This Certified Agile Scrum Product Owner (CASPO) (CASPO-001) exam prep material came into existence after talking to many GAQM professionals and getting their positive feedback. The TestBraindump guarantees the customers that if they fail to pass the Certified Agile Scrum Product Owner (CASPO) (CASPO-001) exam despite all their efforts they can claim a refund according to some terms and conditions.

GAQM CASPO-001 (Certified Agile Scrum Product Owner (CASPO)) exam is a certification program designed for individuals who want to become proficient in the Agile Scrum methodology. CASPO-001 exam is designed to test the candidate's knowledge and skills in Agile Scrum product ownership, which includes skills in product visioning, product backlog management, and product delivery. Certified Agile Scrum Product Owner (CASPO) certification is ideal for individuals who aspire to become product owners, product managers, and project managers.

GAQM Certified Agile Scrum Product Owner (CASPO-001) is a globally recognized certification that validates the skillset of individuals who excel in the Agile Scrum methodology. Agile Scrum is an iterative approach to project management, characterized by frequent product releases and continuous communication between the team and the stakeholders. The CASPO-001 Certification Exam evaluates the proficiency of aspiring Agile Scrum Product Owners in leading cross-functional teams, identifying and prioritizing business value, and ensuring the delivery of high-quality products.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q81-Q86):

NEW QUESTION # 81
Holding a Sprint 0 is the most effective way to: (Choose the best answer)

- A. There is no Sprint 0 in Scrum
- B. Create a complete Product Backlog
- C. Work on team development
- D. Define a reference architecture

Answer: A

Explanation:
"Sprint 0" is a concept from pre-Scrum practices and isn't part of the official framework. TheScrum Guide mandates that Sprints deliver value: "A Sprint is a time-box of one month or less during which a 'Done', usable, and potentially releasable product Increment is created." A preparatory "Sprint 0" for architecture, team building, or backlog creation contradicts this by not producing an Increment.
* A, B, C:These may occur outside Sprints, but not as a "Sprint 0."

NEW QUESTION # 82
Which of the following are roles on a Scrum Team? (Choose the best three answers)

- A. Product Owner
- B. Users
- C. Developers
- D. Customers
- E. Scrum Master

Answer: A,C,E

Explanation:
TheScrum Guidedefines the Scrum Team as consisting of three roles: "The Scrum Team consists of one Scrum Master, one Product Owner, and Developers." Option A (Developers) is the group responsible for building the Increment. Option D (Product Owner) manages the Product Backlog and value delivery. Option E (Scrum Master) facilitates Scrum adoption and team effectiveness. Options B (Users) and C (Customers) are external stakeholders, not Scrum Team roles-they interact with the product but aren't part of the team.
Thus, A, D, and E are the correct roles.

NEW QUESTION # 83

When is a Sprint finished? (Choose the best answer)

- A. When the Definition of Done is met
- B. When the time-boxed duration is met
- C. When the work remaining is zero
- D. When the Product Owner accepts the Increment

Answer: B

Explanation:
A Sprint is a fixed-length, time-boxed event that ends when its duration expires, regardless of work completion. TheScrum Guidestates: "Sprints are the heartbeat of Scrum, where ideas are turned into value.
They are fixed length events of one month or less to create consistency." The end is determined by the time- box, not by acceptance, quality standards, or task completion.
* A:Product Owner acceptance occurs at Sprint Review, but doesn't define Sprint end.
* B:The Definition of "Done" applies to the Increment, not the Sprint's duration.
* C:Correct-the time-box dictates the end.

NEW QUESTION # 84
What is typical work for a Product Owner in a Sprint? (Choose the best two answers)

- A. Collaborate with stakeholders, user communities, and product managers.
- B. Create financial reporting upon the spent hours reported by the Developers.
- C. Attend every Daily Scrum to answer functional questions on the discussed Sprint Backlog items.
- D. Update the work plan for the Developers on a daily basis.
- E. Work with the Developers on Product Backlog refinement.

Answer: A,E

Explanation:
TheScrum Guideoutlines the Product Owner's responsibilities as maximizing value through Product Backlog management, which includes:
* C:"Developing and explicitly communicating the Product Goal" and refining the Product Backlog with Developers to ensure clarity and readiness.

NEW QUESTION # 85
Who updates work remaining during the Sprint? (Choose the best answer)

- A. Product Owner
- B. Developers
- C. Scrum Master
- D. Senior Executives

Answer: B

Explanation:
The Developers own the Sprint Backlog and update it as work progresses. TheScrum Guidestates: "The Sprint Backlog is a plan by and for the Developers... As new work is required, the Developers add it to the Sprint Backlog. As work is performed or completed, the estimated remaining work is updated."
* A:The Scrum Master facilitates, not updates.
* B:Correct-the Developers manage it.

NEW QUESTION # 86
