## Salesforce Certified Experience Cloud Consultant Sample Questions (Q18-Q23):

### NEW QUESTION # 18

Universal Containers' (UC) Salesforce org uses SAML 550 with a third-party identity provider for internal user authentication. UC now wants to extend this capability for Experience Cloud site users as well.

What should the UC administrator ensure in order to successfully implement SAML 550 for the Experience Cloud site?

- A. Create a Visualforce page that receives and validates the SAML assertion.
- B. Create a Connected App with custom attributes before configuring SAML settings.

- C. Use the site login URL as an endpoint where SAML assertion is made.
- D. Register the Experience Cloud site as an Identity Provider in SAML settings.

**Answer: C**

Explanation:

To implement SAML 550 for the Experience Cloud site, the UC administrator should use the site login URL as an endpoint where SAML assertion is made. SAML 550 is a protocol that allows users to authenticate with a third-party identity provider and access Salesforce resources without entering their Salesforce credentials.

The site login URL is the URL that users use to access the Experience Cloud site. By using the site login URL as an endpoint, the UC administrator can configure SAML settings to redirect users to the identity provider for authentication and then back to the Experience Cloud site.

### NEW QUESTION # 19

DreamHouse Realty (DR) plans to invite individuals from several new companies to its Broker Portal and would like to differentiate the user experience for each company.

Which three options should the DR system administrator use to personalize the look and feel of the portal for each new brokerage?

Choose 3 answers

- A. Page Variations
- B. Branding Sets
- C. Partner User Roles
- D. Audience Targeting
- E. Audience Sets

**Answer: A,B,D**

Explanation:

Branding sets allow the administrator to define the colors, fonts, logos, and images for different parts of the site, such as the header, footer, and body. Page variations allow the administrator to create different versions of a page with different layouts, components, and content. Audience targeting allows the administrator to create audiences based on user attributes, such as profile or company name, and display different branding sets or page variations to different audiences within the same site.

### NEW QUESTION # 20

The Universal Containers Experience Cloud admin needs to move a site from one production org to another production org that it is not directly connected to.

What is the recommended choice for moving the site from one org to the other?

- A. Deployment via Change Set
- B. Publication via Experience Builder
- C. Lightning Bolt Export and Installation
- D. Deployment via Metadata API

**Answer: C**

Explanation:

To move a site from one production org to another production org that is not directly connected, UC should use Lightning Bolt Export and Installation. Lightning Bolt is a feature that allows UC to export a site as a package that contains the site template, theme, pages, components, and content. UC can then install the package in another org using the AppExchange or a URL link.

### NEW QUESTION # 21

DreamHouse Realty (DR) recently created a site for potential buyers. DR has a rich knowledge base organized in data categories and now plans to make those Knowledge articles available to site users.

Which two steps does DR need to take in order to ensure that new articles show up in the site on an ongoing basis without manual intervention?

Choose 2 answers

- A. Map articles to Content Topics.

- B. Enable "Automate Topic Assignment" setting.
- C. Enable "Share on Sites" setting.
- D. Map topics to data categories.

**Answer: C,D**

Explanation:

To make Knowledge articles available to site users, you need to map topics to data categories and enable the "Share on Sites" setting. Topics are labels that you can assign to articles to make them easier to find and organize. Data categories are away of classifying articles based on a predefined hierarchy. You can map topics to data categories, so that when you assign a topic to an article, it automatically inherits the data category visibility settings. The "Share on Sites" setting allows you to share articles with public users on your site.

### NEW QUESTION # 22

As a pilot, Ursa Major Solar's customers from California were assigned to a page variation for the Home page so that the layout looks slightly different than for customers from other states. The page variation uses a Rich Content Editor component assigned solely to Platinum customers.

Who will be able to view the Rich Content Editor component?

- A. All customers from California
- B. All Platinum customers from California
- C. All Platinum customers
- D. All customers

**Answer: B**

Explanation:

The Rich Content Editor component will be visible to all Platinum customers from California. This is because UMS has assigned the component solely to Platinum customers using Audience Targeting, which is a feature that allows UMS to display different content to different audiences based on criteria such as profile, location, domain, or user. UMS has also assigned the page variation for the Home page to customers from California using Page Variations, which is a feature that allows UMS to create different versions of a page and assign them to different audiences based on criteria such as record type, field value, or ownership.
