

# Useful Exam API-1184 Flashcards - Only in DumpsReview

## BODY OF KNOWLEDGE API 1184 Pipeline Facility Construction Inspector Certification Exam

August 2022, December 2022, and April 2023

API 1184 Pipeline Facility Construction Inspector must have a broad knowledge base relating to construction of new onshore transmission pipeline facility construction. This knowledge base, at a minimum, includes such topics as inspector responsibilities, general pipeline facilities construction inspection, inspector responsibilities, personnel and general facilities safety, environmental and pollution control. The API 1184 Pipeline Facility Construction Inspector Certification Exam is designed to determine if applicants have such knowledge.

Candidates will have three hours to complete the 120-question exam. The exam will be administered on a computer and contain 110 scored questions and 10 unscored pretest questions.

Exam questions may be:

- multiple-choice-single-response (MCSR): candidates are expected to choose the single best answer from the options provided
- multiple-choice-multiple-response (MCMR): candidates are expected to choose all correct answers
- drag and drop: candidates are expected to choose all correct answers
- matching: candidates are expected to match the options in the left column with their corresponding pair in the right column

This exam is closed book and candidates *may not* use personal reference materials during the exam. API will *not* provide reference materials during the test. Th applicant will use information covered by the reference materials listed in the Publication Effectivity Sheet and Body of Knowledge for exam questions.

The pass point for this exam will be determined by an equating process. For more information regarding this process, please see the [Exam Scoring](#) section of the ICP website.
