Newest EMEA-Advanced-Support Exam Dumps Free and Updated EMEA-Advanced-Support Exam Fee & Perfect Fortinet EMEA Advanced Support Exam Exam Questions

PDFDumps is a website which can give much convenience and meet the needs and achieve dreams for many people participating EMEA-Advanced-Support Certification exams. If you are still worrying about passing some Fortinet certification exams, please choose PDFDumps to help you. PDFDumps can make you feel at ease, because we have a lot of Fortinet certification exam related training materials with high quality, coverage of the outline and pertinence, too, which will bring you a lot of help. You won't regret to choose PDFDumps, it can help you build your dream career.

Fortinet EMEA Advanced Support Exam Sample Questions (Q20-Q25):

NEW QUESTION # 20

What happens when a FortiGate detects a SYN flood attack?

- A. It applies rate limiting to SYN packets
- B. It redirects traffic to a backup gateway
- C. It drops all incoming packets

- D. It enables proxy-based inspection

Answer: A

Explanation:

When FortiGate detects a SYN flood attack, it applies rate limiting to SYN packets via a DoS policy, dropping excessive packets to mitigate the attack. It does not drop all packets (A), enable proxy inspection (B), or redirect traffic (D). Exact extract: "FortiGate mitigates SYN flood attacks using DoS policies, which apply rate limiting to SYN packets to prevent overwhelming the system."

NEW QUESTION # 21

Which statement is true about IPsec VPNs and SSL VPNs?

- A. Both SSL VPNs and IPsec VPNs are standard protocols
- B. Either a SSL VPN or an IPsec VPN can be established between an end-user workstation and a FortiGate device
- **C. All of the above**
- D. SSL VPN creates a HTTPS connection. IPsec does not

Answer: C

Explanation:

Both SSL VPN and IPsec VPN are standard protocols supported by FortiGate devices for secure remote access. SSL VPN typically uses HTTPS (TCP port 443) for encrypted communication, while IPsec uses protocols like IKE and ESP. Both can be configured between an end-user workstation (e.g., via FortiClient) and a FortiGate device, supporting various authentication methods. All options are correct, making D the correct answer. Exact extract: "SSL VPN technology uses the standard SSL/TLS protocol to provide a secure connection to the FortiGate unit. The FortiGate SSL VPN can be configured to use HTTPS..." and "IPsec VPNs use standardized protocols like IKE and ESP to create secure tunnels... FortiClient supports both IPsec and SSL VPN connections to FortiGate devices for remote access."

NEW QUESTION # 22

Which of the following is a network monitoring protocol?

- A. Telnet
- B. SSH
- **C. SNMP**
- D. RDP

Answer: C

Explanation:

SNMP (Simple Network Management Protocol) is specifically designed for monitoring and managing network devices, allowing administrators to query device status, performance metrics, and configure alerts for issues. It operates by using agents on devices that report to a central manager. In contrast, RDP is for remote desktop access, Telnet for unsecure remote command-line access, and SSH for secure remote access. SNMP is the standard protocol for network monitoring in Fortinet products like FortiGate, FortiSwitch, etc. Exact extract: SNMP enables administrators to monitor how devices are performing and make changes to network devices so that data moves through the network more efficiently. Simple Network Management Protocol (SNMP) enables you to monitor hardware on your network. The FortiSwitch SNMP implementation is read- only. Monitoring FortiAP with SNMP. You can enable SNMP directly on FortiAP by implementing a SNMPD daemon/subagent on the FortiAP side. The Simple Network Management Protocol (SNMP) allows you to monitor hardware on your network. You can configure the hardware, such as the FortiProxy SNMP agent.

NEW QUESTION # 23

Which protocol is used by FortiGate to synchronize session tables in an HA cluster?

- A. BGP
- **B. FGCP**
- C. OSPF
- D. VRRP

Answer: B

Explanation:

The FortiGate Cluster Protocol (FGCP) is used to synchronize session tables, configuration, and state information between HA cluster members to ensure seamless failover. VRRP (B) is for router redundancy, OSPF (C) and BGP (D) are routing protocols, not used for HA synchronization. Exact extract: "FGCP synchronizes session tables, configurations, and state information between FortiGate HA cluster members to ensure continuity during failover."

NEW QUESTION # 24

What happens when a router receives a packet for forwarding with a TTL value of 1?

- **A. The TTL is decreased to 0, the packet is dropped and an ICMP message is sent to the transmitting IP**
- B. It increments it and passes it on to the next router
- C. The packet is only forwarded through the router to a locally attached network
- D. It decreases the value to 0 and then forwards it

Answer: A

Explanation:

When a router, such as a FortiGate, receives a packet with a TTL (Time to Live) of 1, it decrements the TTL to 0, drops the packet, and sends an ICMP Time Exceeded message to the source IP. This prevents infinite loops in routing. Option A is incorrect as TTL is decremented, not incremented; B and D are incorrect as the packet is not forwarded when TTL reaches 0. Exact extract: "When a packet's TTL reaches 1, the router decrements it to 0, drops the packet, and sends an ICMP Time Exceeded message to the source IP address to prevent routing loops."

NEW QUESTION # 25

.....

It is known to us that the EMEA-Advanced-Support exam braindumps have dominated the leading position in the global market with the decades of painstaking efforts of our experts and professors. There are many special functions about study materials to help a lot of people to reduce the heavy burdens when they are preparing for the exams. For example, the EMEA-Advanced-Support study practice question from our company can help all customers to make full use of their sporadic time. Just like the old saying goes, time is our product by a good at using sporadic time person, will make achievements. If you can learn to make full use of your sporadic time to preparing for your EMEA-Advanced-Support Exam, you will find that it will be very easy for you to achieve your goal on the exam. Using our study materials, your sporadic time will not be wasted, on the contrary, you will spend your all sporadic time on preparing for your EMEA-Advanced-Support exam.
