

Accurate Exam Dumps HPE7-J02 Zip Supply you Complete Latest Exam Testking for HPE7-J02: Advanced HPE Storage Integrator Solutions Written Exam to Prepare casually

The HP HPE7-J02 pdf questions learning material provided to the customers from PassReview is in three different formats. The first format is PDF format which is printable and portable. It means it can be accessed from tablets, laptops, and smartphones to prepare for the Advanced HPE Storage Integrator Solutions Written Exam (HPE7-J02) exam. The HP HPE7-J02 PDF format can be used offline, and candidates can even prepare for it in the classroom or library by printing questions or on their smart devices.

Without bothering to stick to any formality, our HPE7-J02 learning quiz can be obtained within five minutes. No need to line up or queue up to get our practice materials. No harangue is included within HPE7-J02 training materials and every page is written by our proficient experts with dedication. Our website experts simplify complex concepts and add examples, simulations, and diagrams to explain anything that might be difficult to understand. so even ordinary examiners can master all the learning problems without difficulty. In addition, HPE7-J02 candidates can benefit themselves by using our test engine and get a lot of test questions like exercises and answers.

Free PDF 2025 HP Trustable Exam Dumps HPE7-J02 Zip

Many candidates ask us if your HPE7-J02 original questions are really valid, if our exam file is really edited based on first-hand information & professional experts and if your HPE7-J02 original questions are really 100% pass-rate. Maybe you have a bad purchase experience before. I want to know that if you chose providers attentively before. Hereby, I can assure you that please rest assured all we guaranteed will be achieved. We are a legal authorized company which provides valid HPE7-J02 Original Questions more than 6 years and help thousands of candidates clear exams and obtain certification every year.

HP HPE7-J02 Exam Syllabus Topics:

Topic	Details
Topic 1	Remote Support Configuration: This small but important section tests the ability of System Administrators to configure HPE solutions for remote support, ensuring proactive monitoring and timely resolution of technical issues.
Topic 2	HPE Storage Portfolio and Strategy: This domain measures the knowledge of Solution Advisors in positioning HPE's Storage portfolio within enterprise infrastructure. Candidates must understand HPE Storage hardware, procurement options, available tools, and the overarching storage strategy, including its relevance to enterprise-scale solutions.

Topic 3	Storage Access and Data Protection: This part of the exam tests the expertise of Infrastructure Engineers in configuring storage access, provisioning capacity, and applying replication policies. It also covers disaster recovery validation and role-based access control to secure storage operations.
Topic 4	Storage Transport in Multi-Site Solutions: This section evaluates the skills of Storage Architects in describing and applying transport technologies within multi-site solutions. It involves distinguishing between SAN topologies, analyzing transport components, and recommending advanced data protection methods to ensure reliability across enterprise environments.
Topic 5	Planning and Validating Storage Solutions: This section assesses the role of Storage Consultants in evaluating complex, multi-vendor environments. Candidates will demonstrate their ability to plan, size, and validate storage solutions tailored for enterprise workloads, ensuring proposals meet customer requirements effectively.
Topic 6	Competitive Positioning of HPE Storage: This part of the exam focuses on the ability of Trusted Advisors to identify competitive opportunities for HPE Storage solutions. It requires articulating HPE's strengths in comparison to multi-vendor environments, customer needs, and market trends, helping customers make informed technology choices.

HP Advanced HPE Storage Integrator Solutions Written Exam Sample Questions (Q15-Q20):

NEW QUESTION # 15

Which statement is true regarding HPE's SAP HANA solutions?

- A. About 40% of HANA infrastructure runs on HPE.
- B. HPE supplies custom HANA licenses exclusive for HPE appliances.
- C. Customers can reduce licensing costs with Alletra MP Block.
- D. 77% of customers prefer SAP HANA solutions on HPE.

Answer: A

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

HPE is one of the leading infrastructure providers for SAP HANA, with ~40% of global SAP HANA deployments running on HPE platforms (ProLiant, Alletra, Nimble/Primera for storage). This is an official HPE statistic repeatedly cited in white papers and customer references.

Distractors:

A: SAP HANA licensing is provided directly by SAP, not custom-issued by HPE.

B: Licensing costs are tied to SAP metrics (memory size), not Alletra storage type.

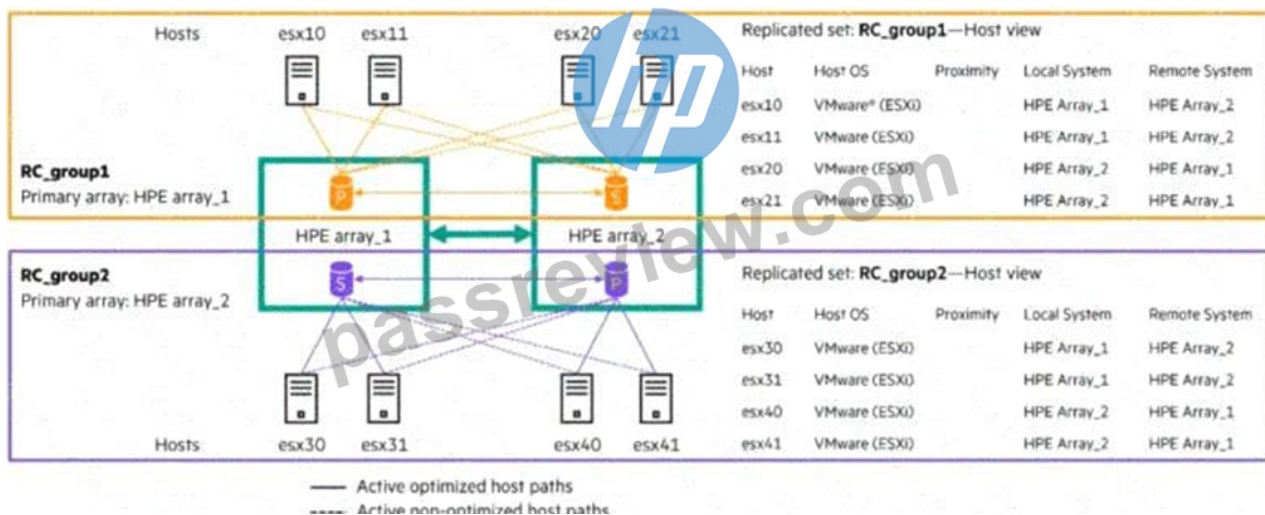

C: "77% prefer" is a marketing exaggeration and not the accurate documented figure.

Key Concept: HPE's strong positioning in SAP HANA infrastructure market share.

Reference: HPE SAP HANA Solutions Overview, HPE Global SAP HANA Customer Reference Sheet.

NEW QUESTION # 16

Review the diagram showing an Active Peer Persistence deployment across two arrays.

Question: Which Host Proximity Parameter should be configured for ESX31 to ensure localized access?

- A. Exclusive
- B. All
- C. Secondary
- D. Primary

Answer: C

NEW QUESTION # 17

An HPE Alletra 6030 with 138TB flash kit needs a storage expansion. The BOM lists only a 46TB Expansion Shelf, including price. What should you take into account?

- A. The expansion shelf needs to include the 24G SAS cables.
- B. Both Controllers need 100Gb OCP adapters for the expansion shelf connection.
- C. QSFP+ DAC cables are required if NVMe media is used.
- D. Total supported capacity will be exceeded with the proposed configuration.

Answer: A

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

Alletra 6000 expansion shelves connect via 24G SAS back-end connectivity. The BOM must include the required SAS cables to properly attach the shelf. If only the shelf is listed, it's incomplete - SAS connectivity accessories must be added.

Distractors:

B: The supported max capacity is higher than 138TB + 46TB, so it won't exceed limits.

C: Expansion shelves don't use OCP adapters; they rely on SAS backend ports.

D: QSFP+ DACs are used for front-end networking (iSCSI/FC), not SAS shelf expansion.

Key Concept: Alletra 6000 expansions require 24G SAS cables included in the BOM.

Reference: HPE Alletra 6000 Hardware Installation Guide.

NEW QUESTION # 18

You need to evaluate a customer virtual server environment to size an HPE Block storage solution according to the metrics seen on the system over a period of time. The environment consists of Lenovo servers and Pure Storage as the storage vendor for a Microsoft Hyper-V cluster managed by Microsoft SCVMM.

Which HPE tools can you utilize to gather the usage metrics of this setup?

- A. Use the HPE InfoSight Primary Storage sizing tool to calculate the competitive performance metrics.
- B. Export the Microsoft System Center Virtual Machine Manager database for NinjaProtected analysis.
- C. Import the HPE CloudPhysics.vhdx collector to the Hyper-V cluster to gather the analytics.
- D. Install the SAFcollector agents into the environment and use SAFanalyze to import the agent output.

Answer: C

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

HPE CloudPhysics provides comprehensive environment assessment and competitive sizing for virtualized environments (VMware, Hyper-V, etc.). The CloudPhysics collector (available as a .vdx for Hyper-V) is deployed into the cluster to gather metrics on CPU, memory, storage IOPS/latency, and utilization trends.

These analytics feed into the sizing of HPE storage solutions.

Distractors:

B: InfoSight sizing tools work with HPE systems, not competitive 3rd-party storage like Pure.

C: SAF is a manual assessment requiring email submission and is not the correct modern method for this case.

D: NinjaProtected applies to backup analysis, not production Hyper-V cluster sizing.

Key Concept: CloudPhysics.vdx collector for Hyper-V sizing with 3rd-party infrastructure.

Reference: HPE CloudPhysics Assessment Guide.

NEW QUESTION # 19

Which statement is correct when enabling port trunking (FC ISL / Ethernet link aggregation)?

- **A. Ports need to belong to the same port group of the switch.**
- B. The port speed of the trunk ports can be different based on the used switches in the ISL group.
- C. For optimal performance, no more than 100 meters of cable length difference is acceptable.
- D. Port Trunking is supported by default on every B-Series FC switch.

Answer: A

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

In B-Series (Brocade) SAN switches, trunking requires that all ports in a trunk group belong to the same port group (same ASIC) and run at the same speed. This ensures frame ordering and load balancing across ISLs.

Distractors:

A: Incorrect - cable length differences must be minimal, but not stated in meters like this.

C: Incorrect - speeds must match across all trunked ports.

D: Trunking requires a license on some Brocade models; not always enabled by default.

Key Concept: Port trunking requires same port group and same speed.

Reference: HPE B-Series SAN Switch Trunking Best Practices.

NEW QUESTION # 20

.....

It is widely accepted that where there is a will, there is a way; so to speak, a man who has a settled purpose will surely succeed. To obtain the HPE7-J02 certificate is a wonderful and rapid way to advance your position in your career. In order to reach this goal of passing the HPE7-J02 exam, you need more external assistance to help yourself. We have engaged in this career for more than ten years and with our HPE7-J02 Exam Questions, you will not only get aid to gain your dreaming HPE7-J02 certification, but also you can enjoy the first-class service online.
