Even if you fail to pass the exam, as long as you are willing to continue to use our JN0-105 test answers, we will still provide you with the benefits of free updates within a year.

## Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q58-Q63):

### NEW QUESTION # 58

You are asked to view the real-time usage statistics for the busiest interfaces on a device running Junos OS. Which command will achieve this task?

- A. monitor interface traffic
- B. monitor traffic
- C. monitor traffic absolute-sequence
- D. show interfaces extensive

**Answer: A**

Explanation:

To view real-time usage statistics for the busiest interfaces on a device running Junos OS, the correct command is B, "monitor interface traffic." This command provides a dynamic, real-time view of the traffic flowing through the interfaces, allowing administrators to quickly identify and monitor the busiest interfaces on the device.

### NEW QUESTION # 59

How many login classes are assignable to a user account?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: C**

Explanation:

<https://www.juniper.net/documentation/us/en/software/junos/user-access-evo/user-access/topics/topic-map/junos-os-login-class.html#:~:text=You%20can%20define%20any%20number,to%20an%20individual%20user%20account.>

In Junos OS, each user account can be assigned only one login class. Login classes in Junos OS define the permissions for users, controlling what they can access and modify within the system. This setup helps in maintaining a clear and secure access control mechanism.

Reference:

Junos OS Documentation on User Accounts and Login Classes.

### NEW QUESTION # 60

Which command modifier would you use to see all possible completions for a specific command?

- A. detail
- B. extensive
- C. ?
- D. |

**Answer: C**

Explanation:

In Junos OS, the ? command modifier is used to display all possible completions for a specific command. This helps users understand the available options and syntax for a command they are trying to use.

### NEW QUESTION # 61

You have logged on to a Junos device and are at the operational mode prompt. Which two commands are used at this prompt? (Choose two.)

- A. show interface ge-0/0/0
- B. set interface ge-0/0/0 unit 0 family inet
- C. request system shutdown

- D. run show interface terse

**Answer: A**

Explanation:

At the operational mode prompt on a Junos device, you can use various commands to view the device's status and request system operations. The `show interface ge-0/0/0` command is used to display information about a specific interface, while the `request system shutdown` command is used to properly shut down the device. The `set` command is used in configuration mode, not operational mode, and the `run` command is used to execute operational mode commands from configuration mode.

## NEW QUESTION # 62

Which statement is correct when multiple users are configuring a Junos device using the `configure private` command?

- A. A commit will not succeed until there is only a single user in configuration mode.
- **B. Each user gets their own candidate configuration.**
- C. A commit by any user will commit changes made by all active users.
- D. Each user shares the same candidate configuration.

**Answer: B**

Explanation:

When multiple users are configuring a Junos device using the `"configure private"` command, each user gets their own candidate configuration (C). This allows for isolated configuration sessions, where changes made by one user do not impact or interfere with the changes made by another user in their private session.

## NEW QUESTION # 63

.....

As the quick development of the world economy and intense competition in the international, the world labor market presents many new trends: company's demand for the excellent people is growing. As is known to us, the JN0-105 certification is one mainly mark of the excellent. If you don't have enough ability, it is very possible for you to be washed out.
