NEW QUESTION # 30
You are reviewing the Created vs. Resolved Issues Report for the last fourteen days in your project. The report is shown.

This chart shows the number of issues **created** vs. the number of issues **resolved** in the last **14** days.

Created issues are represented by the top line, which is red and has dots for the data points on each day.
Resolved issues are represented by the bottom line, which is green and has dots for the data points on each day.
Which conclusion can definitely be drawn from the report?

- A. 10 issues were created in the project on June 21.
- B. There were unresolved issues in your project on June 29.
- C. The team did not work on any issues from June 26 to June 29.
- D. There was a total of only 5 unresolved issues in the project on June 20.

Answer: B

Explanation:
On June 29, the red line (created issues) is significantly above the green line (resolved issues), indicating that more issues were created than resolved, meaning some issues remain unresolved as of that date.
