Acquia Certified Site Builder - Drupal 8 certification exam focuses on various aspects of Drupal 8 site building, including site architecture, site building, theming, and configuration management.

Acquia Certified Site Builder - Drupal 8 Sample Questions (Q17-Q22):

NEW QUESTION # 17

On a site you manage there is a contact form that works well for the Retail Sales unit, but the Commercial Sales manager doesn't want to receive submissions that are about retail products.

How can you solve this problem in Drupal?

- A. Use an add-on module like Webform, since Core doesn't offer this feature
- **B. Add "Retail Sales" and "Business Sales" categories to the contact form, and set up a Recipients list for each category**
- C. Since there is only one Contact form, create a Content type with fields to collect the information Commercial Sales needs, and set permissions to allow anonymous users to create content
- D. Add a new contact form for Commercial Sales inquiries, and update the Recipients list for each form to send submissions to the right people.

Answer: B

NEW QUESTION # 18

The content editor assigned to approve comments on the site wants to see all the unapproved comments sorted by the node on which they are posted, but can't do this on the Comments page. What is the simplest way to solve this problem?

- **A. Have the content editor review comments by visiting the node instead of using the Comments page**
- B. Create an Export view, so the content editor can review comments in a spreadsheet
- C. Create a View of unapproved comments and set the sort order to "Entity ID "
- D. Edit the Comments View; and update the table settings to make the Entity ID field sortable

Answer: A

NEW QUESTION # 19

One of your site users has reached out to you with concerns about inaccurate information they saw while reading one of your blog posts. On further investigation, it turns out the same information appears in the sidebar of every page on the site.

How should you make your corrections? Choose 2 answers

- A. Click the blog post's "Manage layout" link, find the field containing the inaccurate information, and make changes there
- **B. Navigate to the Block Layout admin page's custom block library, find the custom block that contains the information in question, and make changes to the content in the block editor**
- C. Click the blog post's "Edit" link, and make changes to the content in the editor form, repeat this process for all pages on the site
- D. Hover over the content until a pencil icon appears, click the icon and choose "Quick edit" so that you can modify the content in place.

Answer: B

NEW QUESTION # 20

You are having trouble using a certain contributed module. You have read the module's documentation and ensured it is configured correctly.

How should you find help? Choose 2 answers

- **A. Email the module's maintainer and ask for help**
- B. Create a comment of type "support request" on the module's project page
- C. Ask questions in the #drupal-support channel on IRC or in the #support channel on Drupal Slack group
- **D. Search for answers and ask questions in the module's issue queue on drupal.org**

Answer: A,D

NEW QUESTION # 21

The marketing department wants to drive social engagement by collecting users' social profile links every time they comment on a blog post. You've been asked to make sure that this only happens on blog post comments; comments on other content types should not collect this information. How can you make this possible?

- A. In the blog post content type's "Manage form display" section, go to the settings for the "Comment" field and select "collect social profile information."
- B. Add custom fields for collecting social profile links to the default comment type. When configuring each field's visibility settings, go to "Content types" and make sure only the blog post content type is selected.
- C. Create a custom comment type with the appropriate custom fields for collecting social profile links. Add a Comments field to the blog post content type, making sure it uses your new custom comment type.
- D. Custom comment types per content type are not supported in Drupal 8

Answer: C

NEW QUESTION # 22

.....
