Therefore, you have the option to use Acquia Certified Site Builder - Drupal 8 (Acquia-Certified-Site-Builder-D8) PDF questions anywhere and anytime. TestValid Acquia Certified Site Builder - Drupal 8 (Acquia-Certified-Site-Builder-D8) dumps are designed according to the Acquia Acquia-Certified-Site-Builder-D8 Certification Exam standard and have hundreds of questions similar to the actual Acquia Certified Site Builder - Drupal 8 (Acquia-Certified-Site-Builder-D8) exam. TestValid Acquia Certified Site Builder - Drupal 8 (Acquia-Certified-Site-Builder-D8) web-based practice exam software also works without installation.

Acquia Certified Site Builder - Drupal 8 Sample Questions (Q41-Q46):

NEW QUESTION # 41

You are pitching for development of a Drupal based website to your new customer. You want to emphasize how flexible Drupal is. Which THREE points would support your case? Choose 3 answers

- A. Drupal allows you to directly rename database columns from the UI.
- **B. Drupal has configurable content types and field types for modeling content.**
- **C. Drupal allows you to build pages containing lists of content using UI.**
- D. Drupal.org has an online store where you can purchase modules and themes.
- **E. Drupal allows you to create customized and branded site designs.**

Answer: B,C,E

NEW QUESTION # 42

You are creating a page listing products for sale. You've been asked to make sure that each product in the list includes an image, a title, and a price. When the user clicks the title or picture, she will be taken to a detail page showing a full description of the product. How can you make sure that the listing page only contains the fields noted, without removing the description field from the detail page?

Choose 2 answers

- A. Use custom display settings for the "Teaser" view mode and configure it to display only the image, title, and price fields. Use the Views module to create a list of all products, displaying each row as content using the "Teaser" view mode.
- B. Create a second content type called "Product Overview", which only contains the image, title, and price fields. Use the Views module to create a list of all of these Product Overview nodes, but link their titles to their corresponding Product nodes.
- C. Use the Views module to create a list of all products. Configure the view to hide the description field by adding a custom CSS class to its wrapper.
- **D. Use the Views module to create a list of all products, and make sure it displays each product row as fields. Add the image, title, and price fields to the view's field list.**

Answer: D

NEW QUESTION # 43

In the process of building your website, you installed several Drupal modules to try out, but did not end up using them. Should you uninstall these unused modules?

- A. It is optional. The number of installed modules has no impact whatsoever on site performance.
- **B. No. Site performance improves when more modules are installed.**
- C. No. Uninstalling the modules will cause a "white screen of death" (WSOD) since the modules were once enabled.
- D. Yes. The more modules are installed, the "heavier" the site is. This could cause performance problems on the site.

Answer: B

NEW QUESTION # 44

A Drupal corporate website allows editors to self-register with additional administrator approval. However, Robots are creating a lot of user accounts and administrators are not able to keep up with the approval process. How can we eliminate fake user registration?

- A. Hide user login by disabling the login block and/or move the login page.
- B. Configure new user accounts to "require email verification when a visitor creates an account."
- **C. Change who can register accounts to "Administrators only"**
- D. Enable the Drupal core captcha field on the user registration form.

Answer: C

NEW QUESTION # 45

Your site review team reports that the new Product pages look good, but takes a long time to load. What are two possible causes? Choose 2 answers

- Answer: C,D**
