We will immediately refund if the buyer provide failure test proof just like failure score scan or screenshots. If you have any questions about our CASPO-001 Preparation quiz, please contact us by online service or email, we will reply as soon as possible.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q53-Q58):

NEW QUESTION # 53

When is a Sprint finished? (Choose the best answer)

- A. When the work remaining is zero
- **B. When the time-boxed duration is met**
- C. When the Definition of Done is met
- D. When the Product Owner accepts the Increment

Answer: B

Explanation:

A Sprint is a fixed-length, time-boxed event that ends when its duration expires, regardless of work completion. The Scrum Guide states: "Sprints are the heartbeat of Scrum, where ideas are turned into value.

They are fixed length events of one month or less to create consistency." The end is determined by the time-box, not by acceptance, quality standards, or task completion.

* A: Product Owner acceptance occurs at Sprint Review, but doesn't define Sprint end.

* B: The Definition of "Done" applies to the Increment, not the Sprint's duration.

* C: Correct-the time-box dictates the end.

NEW QUESTION # 54

What are two typical activities for a Product Owner in a Sprint? (Choose the best two answers)

- A. Attend every Daily Scrum to answer functional questions on the discussed Sprint Backlog items.
- B. Create financial reporting upon the spent hours reported by the Developers.
- **C. Collaborate with stakeholders, user communities, and product managers.**
- D. Update the work plan for the Developers on a daily basis.
- **E. Work with the Developers on Product Backlog refinement.**

Answer: C,E

Explanation:

The Product Owner's role during a Sprint centers on maximizing value through Product Backlog management and stakeholder engagement, as outlined in the Scrum Guide.

* C: Refinement is a key activity: "The Product Owner may do the above work [Product Backlog management], or may delegate the responsibility to others. Regardless, the Product Owner remains accountable." Collaborating with Developers ensures items are clear and "Ready."

* E: Stakeholder collaboration is critical: "The Product Owner is also accountable for effective Product Backlog management, which includes... representing the needs of many stakeholders in the Product Backlog."

* A: Attending every Daily Scrum isn't typical; it's the Developers' event, and the Product Owner attends only if needed.

* B: The Developers manage their work plan (Sprint Backlog); the Product Owner doesn't update it.

NEW QUESTION # 55

When is the Sprint Backlog created? (Choose the best answer)

- A. During the Sprint
- **B. Sprint Planning**
- C. Backlog refinement
- D. In advance of Sprint Planning

Answer: B

Explanation:

The Sprint Backlog is created during Sprint Planning as the Developers select items and plan delivery. The Scrum Guide states: "Sprint Planning initiates the Sprint by laying out the work to be performed for the Sprint.

This resulting plan is created by the collaborative work of the entire Scrum Team."

* A: Pre-planning creation isn't supported; it's a Sprint-specific plan.

- * B:It starts in planning, though it evolves during the Sprint.
- * C:Refinement prepares the Product Backlog, not the Sprint Backlog.

NEW QUESTION # 56

Who updates work remaining during the Sprint? (Choose the best answer)

- **A. Developers**
- B. Product Owner
- C. Senior Executives
- D. Scrum Master

Answer: A

Explanation:

The Developers own the Sprint Backlog and update it as work progresses. The Scrum Guide states: "The Sprint Backlog is a plan by and for the Developers... As new work is required, the Developers add it to the Sprint Backlog. As work is performed or completed, the estimated remaining work is updated."

* A:The Scrum Master facilitates, not updates.

* B:Correct-the Developers manage it.

NEW QUESTION # 57

During a Sprint Retrospective, for what is the Scrum Master responsible? (Choose the best answer)

- A. Prioritizing the resulting action items.
- B. Summarizing and reporting the discussions to management.
- C. Acting as a scribe to capture the Developers' answers.
- **D. Participating as a Scrum Team member and facilitating as requested or needed.**

Answer: D

Explanation:

The Scrum Guide describes the Sprint Retrospective as an event where the Scrum Team inspects itself and plans improvements, with the Scrum Master playing a dual role: "The Scrum Master participates as a peer team member in the Sprint Retrospective... and ensures that the event takes place and is positive and productive." Option C captures this-participating as a team member and facilitating when needed. Option A (scribe) is too narrow and not required. Option B (prioritizing) is a team decision, not the Scrum Master's alone. Option D (reporting to management) violates Scrum's team autonomy. Thus, C is correct.

NEW QUESTION # 58

.....

The GAQM CASPO-001 certification will further demonstrate your expertise in your profession and remove any room for ambiguity on the hiring committee's part. People need to increase their level by getting the GAQM CASPO-001 Certification.
