Pass Guaranteed 2026 UiPath First-grade UiPath-TAEPv1: UiPath Test Automation Engineer Professional v1.0 Pass Test Guide

This is a printable UiPath-TAEPv1 PDF dumps file. The UiPath-TAEPv1 PDF dumps enables you to study without any device, as it is a portable and easily shareable format, thus you can study UiPath-TAEPv1 dumps on your preferred smart device such as your smartphone or in hard copy format. Once downloaded from the website, you can easily study from the UiPath UiPath-TAEPv1 Exam Questions compiled by our highly experienced professionals as directed by the UiPath exam syllabus.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	• UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 2	• CI • CD Implementation: This section of the exam measures the skills of RPA Developers and introduces the concepts of Continuous Integration and Continuous Delivery (CI • CD). It covers how to implement pipelines and perform tasks using the UiPath Command Line Interface (CLI) for streamlined and automated deployments of test workflows and processes.
Topic 3	• UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.
Topic 4	• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.

Topic 5	• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.
Topic 6	• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.

Latest UiPath-TAEPv1 Exam Review & UiPath-TAEPv1 Sample Questions

If you are not aware of your problem, please take a good look at the friends around you! Now getting an international UiPath-TAEPv1 certificate has become a trend. If you do not hurry to seize the opportunity, you will be far behind others! Now the time cost is so high, choosing UiPath-TAEPv1 Exam Prep will be your most efficient choice. You can pass the UiPath-TAEPv1 exam in the shortest possible time to improve your strength.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q75-Q80):

NEW QUESTION # 75
When creating a new test set in UiPath Orchestrator, what is the purpose of using a wildcard symbol (*) for the project version?

- A. A validation error will be displayed after clicking on the Next button.
- B. The first project version starting with 1.0. will be used.
- C. Any project version starting with 1.0. will be used.
- D. The latest project version starting with 1.0. will be used.

Answer: D

Explanation:
In UiPath Orchestrator, using a wildcard symbol (*) in the project version (e.g., 1.0.*) means that the latest available version that starts with 1.0. will be used when the test set is executed. This helps ensure the most recent compatible package is always selected.

NEW QUESTION # 76
According to best practices, how should the renaming, moving, or deleting of test cases in the project be handled?

- A. Do not rename move or delete the test cases outside of Studio.
- B. Test cases can be renamed, moved or deleted outside of Studio.
- C. Test cases should be renamed or moved outside of Studio and then re-imported.
- D. The renaming, moving or deleting of test cases can be handled either inside or outside Studio, there is no preferred way.

Answer: A

Explanation:
According to best practices, test cases should not be renamed, moved, or deleted outside of UiPath Studio. Making such changes externally can lead to discrepancies in the project structure and potentially break links or references within the testing framework. Performing these actions within Studio ensures that all changes are properly tracked and synchronized across the test suite.

NEW QUESTION # 77
What is the output format of the UiPath.Testing.Activites.TestData.Address activity?

- A. Dictionary (String, String) with the fields: Country PostalCode, StreetNumber, StreetName, City, State
- B. Dictionary (String, Object) with the fields: Country, PostalCode, StreetNumber, State
- C. Dictionary (String, String) with the fields: Country, PostalCode, StreetNumber, State
- D. Dictionary (String, Object) with the fields: Country, PostalCode, StreetNumber, StreetName, City, State

Answer: A

Explanation:
The output format of the UiPath.Testing.Activities.TestData.Address activity is a Dictionary<String, String> containing the fields: Country, PostalCode, StreetNumber, StreetName, City, and State. This structured data is useful for generating realistic test addresses.

NEW QUESTION # 78
What is a limitation when re-executing test case executions for data-driven test cases?

- A. Data-driven test case executions cannot be re-executed.
- B. There is no limitation when re-executing data-driven test case executions.
- C. Only one test case execution can be re-executed at a time.
- D. Multiple data-driven test case executions can be re-executed at once.

Answer: C

Explanation:
A limitation when re-executing data-driven test case executions is that only one test case execution can be re-executed at a time. This is due to the unique data sets tied to each execution, which require individual handling.

NEW QUESTION # 79
According to best practices how can reusability be increased between individual test projects?

- A. Try to reuse workflows as much as possible between projects.
- B. Code reusability should not be a consideration when creating test projects.
- C. Try to use the project code base entirely independent of others.
- D. Try to use libraries and object repository, whenever possible.

Answer: D

Explanation:
According to best practices, reusability between individual test projects can be increased by using libraries and the Object Repository. These allow shared components and UI descriptors to be centrally maintained and reused across multiple projects, enhancing consistency and efficiency.

NEW QUESTION # 80
......

The UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) questions are in use by many customers currently, and they are preparing for their best future daily. Even the students who used it in the past to prepare for the UiPath Certification Exam have rated our practice questions as one of the best. You will receive updates till 365 days after your purchase, and there is a 24/7 support system that assists you whenever you are stuck in any problem or issues.
