Test PECB NIS-2-Directive-Lead-Implementer Practice, NIS-2-Directive-Lead-Implementer Valid Exam Duration

If you have time to know more about our NIS-2-Directive-Lead-Implementer study materials, you can compare our study materials with the annual real questions of the exam. In addition, we will try our best to improve our hit rates of the NIS-2-Directive-Lead-Implementer exam questions. You will not wait for long to witness our great progress. It is worth fighting for your promising future with the help of our NIS-2-Directive-Lead-Implementer learning guide. As you can see that our NIS-2-Directive-Lead-Implementer training braindumps are the best seller in the market.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q14-Q19):

NEW QUESTION # 14

Scenario 8: FoodSafe Corporation is a well-known food manufacturing company in Vienna, Austria, which specializes in producing diverse products, from savory snacks to artisanal desserts. As the company operates in regulatory environment subject to this NIS 2 Directive, FoodSafe Corporation has employed a variety of techniques for cybersecurity testing to safeguard the integrity and security of its food production processes.

To conduct an effective vulnerability assessment process, FoodSafe Corporation utilizes a vulnerability assessment tool to discover vulnerabilities on network hosts such as servers and workstations. Additionally, FoodSafe Corporation has made a deliberate effort to define clear testing objectives and obtain top management approval during the discovery phase. This structured approach ensures that vulnerability assessments are conducted with clear objectives and that the management team is actively engaged and supports the assessment process, reinforcing the company's commitment to cybersecurity excellence.

In alignment with the NIS 2 Directive, FoodSafe Corporation has incorporated audits into its core activities, starting with an internal assessment followed by an additional audit conducted by its partners. To ensure the effectiveness of these audits, the company meticulously identified operational sectors, procedures, and policies. However, FoodSafe Corporation did not utilize an organized audit timetable as part of its internal compliance audit process. While FoodSafe's Corporation organizational chart does not clearly indicate the audit team's position, the internal audit process is well-structured. Auditors familiarize themselves with established policies and procedures to gain a comprehensive understanding of their workflow. They engage in discussions with employees further to enhance their insights, ensuring no critical details are overlooked.

Subsequently, FoodSafe Corporation's auditors generate a comprehensive report of findings, serving as the foundation for necessary changes and improvements within the company. Auditors also follow up on action plans in response to nonconformities and improvement opportunities.

The company recently expanded its offerings by adding new products and services, which had an impact on its cybersecurity program. This required the cybersecurity team to adapt and ensure that these additions were integrated securely into their existing framework. FoodSafe Corporation commitment to enhancing its monitoring and measurement processes to ensure product quality and operational efficiency. In doing so, the company carefully considers its target audience and selects suitable methods for reporting monitoring and measurement results. This includes incorporating additional graphical elements and labeling of endpoints in their reports to provide a clearer and more intuitive representation of data, ultimately facilitating better decision-making within the organization.

Based on scenario 8, did FoodSafe Corporation define the discovery phase of penetration testing according to NIST SP 800-115?

- A. No, in the discovery phase the testing is initiated and a vulnerability analysis is conducted
- B. No, the discovery phase is the process of identifying any possible attack by attempting to exploit vulnerabilities
- C. Yes, the discovery phase is correctly defined

Answer: C

NEW QUESTION # 15

Scenario 3: Founded in 2001, SafePost is a prominent postal and courier company headquartered in Brussels, Belgium. Over the years, it has become a key player in the logistics and courier in the region. With more than 500 employees, the company prides itself on its efficient and reliable services, catering to individual and corporate clients. SafePost has recognized the importance of cybersecurity in an increasingly digital world and has taken significant steps to align its operations with regulatory directives, such as the NIS 2 Directive.

SafePost recognized the importance of thoroughly analyzing market forces and opportunities to inform its cybersecurity strategy. Hence, it selected an approach that enabled the analysis of market forces and opportunities in the four following areas: political, economic, social, and technological. The results of the analysis helped SafePost in anticipating emerging threats and aligning its security measures with the evolving landscape of the postal and courier industry.

To comply with the NIS 2 Directive requirements, SafePost has implemented comprehensive cybersecurity measures and procedures, which have been documented and communicated in training sessions. However, these procedures are used only on individual initiatives and have still not been implemented throughout the company. Furthermore, SafePost's risk management team has developed and approved several cybersecurity risk management measures to help the company minimize potential risks, protect customer data, and ensure business continuity.

Additionally, SafePost has developed a cybersecurity policy that contains guidelines and procedures for safeguarding digital assets, protecting sensitive data, and defining the roles and responsibilities of employees in maintaining security. This policy will help the company by providing a structured framework for identifying and mitigating cybersecurity risks, ensuring compliance with regulations, and fostering a culture of security awareness among employees, ultimately enhancing overall cybersecurity posture and reducing the likelihood of cyber incidents.

As SafePost continues to navigate the dynamic market forces and opportunities, it remains committed to upholding the highest standards of cybersecurity to safeguard the interests of its customers and maintain its position as a trusted leader in the postal and courier industry.

Based on scenario 3, what type of policy has SafePost established for protecting digital assets and maintaining security?

- A. Topic-specific policy
- B. High-level general policy
- **C. High-level topic-specific policy**

Answer: C

NEW QUESTION # 16

According to Article 7 of the NIS 2 Directive, what is one of the policies that Member States are required to adopt?

- A. Disaster recovery planning policy
- **B. Supply chain cybersecurity policy**
- C. Physical access control policy

Answer: B

NEW QUESTION # 17

According to Article 35 of the NIS 2 Directive, what must competent authorities do if they discover that an essential entity has violated regulations related to data protection?

- A. They must first discuss with the essential entity to understand the reason behind the violation
- B. They must immediately impose an administrative fine
- **C. They must promptly inform the relevant supervisory authorities**

Answer: C

NEW QUESTION # 18

Which of the following entities are included on the scope of the NIS 2 Directive?

- A. Public administration entities whose activities are predominantly carried out in national security
- B. Diplomatic and consular missions of Member States in third countries
- **C. Entities engaged in nuclear power plant electricity production**

Answer: C

NEW QUESTION # 19

.....

Believe in yourself, choosing the NIS-2-Directive-Lead-Implementer study guide is the wisest decision. So far, the NIS-2-Directive-Lead-Implementer practice materials have almost covered all the official test of useful NIS-2-Directive-Lead-Implementer exam materials, before our products on the Internet, all the NIS-2-Directive-Lead-Implementer study materials are subject to rigorous expert review, so you do not have to worry about quality problems of our latest NIS-2-Directive-Lead-Implementer Exam Torrent, focus on the review pass the NIS-2-Directive-Lead-Implementer qualification exam. I believe that through these careful preparation, you will be able to pass the exam.
