And you may find out that they are accordingly coresponding to our three versions of the Process-Automation learning braindumps. Once you click on them, then you can experience them at once.

Salesforce Process Automation Accredited Professional Sample Questions (Q132-Q137):

NEW QUESTION # 132
From the following scenarios, what is the most critical thing that should be avoided within a loop, if possible, when working with flows?

- A. Nesting another loop.
- B. Displaying data to the user.
- C. Assigning new values to variables.
- D. Executing actions like creating or updating records.

Answer: D

NEW QUESTION # 133
Which three main categories con Flow elements be broken down into?

- A. Screen, logic, and actions.
- B. Variables, choices, and stages.
- C. Guided visual processes, behind the scenes automation, and approval automations.
- D. Logic, actions, and connectors.

Answer: A

Explanation:
Flow elements in Salesforce can be broadly categorized into three main types: Screen, Logic, and Actions. Screen elements are used to create user interfaces for collecting input or displaying information. Logic elements, such as decisions, loops, and assignments, define the flow's logic and control how the flow progresses. Actions elements are used to execute operations, such as creating, updating, or deleting records.Reference: Salesforce Help - Flow Element Reference

NEW QUESTION # 134
An Administrator needs to notify the CEO via email requesting sign-off anytime an opportunity's discount reaches higher than 40% leave comments. Which tool should the Administrator use to accomplish this?

- A. Approvals
- B. Flow Builder
- C. Apex Trigger
- D. Process Builder

Answer: D

Explanation:
To notify the CEO via email for an Opportunity's discount exceeding 40%, Process Builder is the most suitable tool. Process Builder allows for the creation of automated processes that can perform actions based on specific criteria, such as sending an email alert. In this scenario, the Process Builder can be configured to trigger when an Opportunity record's discount field reaches above 40%, and then an immediate action can be set up to send an email notification to the CEO. This method is efficient and does not require coding, making it accessible for administrators.Reference: Salesforce Help Documentation on Process Builder.

NEW QUESTION # 135

Ursa Major (UMS) is evaluating Salesforce for automating its mutual business processes. What should UMS keep in mind?

- A. Salesforce automation tools can not update records for which OWD is Public.
- B. Salesforce automation tools are not supported in Salesforce Lightning.
- C. Salesforce automation tools are currently not supported in Microsoft internet Explorer.
- D. Salesforce automation tools are not available in Salesforce Developer edition

Answer: C

Explanation:
Salesforce has officially announced the end of support for Microsoft Internet Explorer in Salesforce Lightning Experience and Salesforce Classic. Users should be aware that Salesforce automation tools and other features may not function as expected in Internet Explorer, and it is recommended to use supported browsers like Google Chrome, Mozilla Firefox, Safari, or Microsoft Edge for optimal performance and compatibility.Reference: Salesforce Help - Supported Browsers for Salesforce

NEW QUESTION # 136
What should you avoid inside a loop?

- A. Nesting another loop.
- B. Executing actions, such as creating or updating records.
- C. Displaying data to the user.
- D. Assigning new values to variables.

Answer: B

NEW QUESTION # 137
......
