Download updated GH-100 exam questions today and start preparation.

Microsoft GH-100 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Manage GitHub Actions: This section of the exam measures skills of DevOps Engineers and emphasizes managing workflows, reusable actions, and distribution strategies within the enterprise. It explains configuring organization-level policies, managing self-hosted and GitHub-hosted runners, controlling access through IP allow lists, handling encrypted secrets, and integrating third-party vaults for workflow security.
Topic 2	<ul style="list-style-type: none">Manage access and permissions based on membership: This section of the exam measures skills of DevOps Engineers and reviews how to manage organizations, teams, and repository permissions. It includes default permission settings, team synchronization through AD, scripting across multiple organizations, and aligning enterprise policies with trust requirements. It also contrasts roles such as organization members, owners, collaborators, and billing managers.
Topic 3	<ul style="list-style-type: none">Support GitHub Enterprise for users and key stakeholders: This section of the exam measures skills of GitHub Enterprise Administrators and covers supporting users, identifying issues that can be resolved internally versus those needing GitHub Support, and generating support bundles and diagnostics. It also involves recognizing underutilized features, managing workflows like branching and pull requests, understanding CICD strategies, recommending tooling, and extending capabilities through APIs or Marketplace apps.

Topic 4	<ul style="list-style-type: none"> • Describe how GitHub is deployed, distributed, and licensed: This section of the exam measures skills of GitHub Enterprise Administrators and highlights the deployment models of GitHub Enterprise Server, Enterprise Cloud, and GitHub AE. It covers licensing structures, billing for seat licenses and metered services, support options, and monitoring license usage across users and machine accounts.

2026 GH-100 Dumps Reviews Free PDF | High Pass-Rate GH-100 Exam Braindumps: GitHub Administration

With all GH-100 practice materials being brisk in the international market, our GH-100 practice materials are quite catches with top-ranking quality. But we do not stop the pace of making advancement by following the questions closely according to exam. So our experts make new update as supplementary updates. During your transitional phrase to the ultimate aim, our GH-100 practice materials as well as these updates are referential. Those materials can secede you from tremendous materials with least time and quickest pace based on your own drive and practice to win. Those updates will be sent to you accordingly for one year freely.

Microsoft GitHub Administration Sample Questions (Q19-Q24):

NEW QUESTION # 19

Which of the following is true about outside collaborators in a GitHub organization?

- A. They inherit organization-wide policies, such as SSO requirements.
- B. They appear in the organization's internal member list.
- C. They have access to all private repositories by default.
- D. They are granted explicit access to specific repositories.

Answer: D

Explanation:

Outside collaborators aren't organization members; instead, they're granted explicit access - at read, write, or admin level - to only the repositories you choose.

NEW QUESTION # 20

Which events from the audit log are exposed by the GraphQL API? Each answer presents a complete solution. (Choose three.)

- A. changes to permissions of a GitHub App
- B. pushes to repositories
- C. changes in permissions
- D. promoting users to administrators
- E. cloning of repositories

Answer: A,C,D

Explanation:

The GraphQL Audit Log API surfaces entries whenever repository or organization permissions are changed ("Changes permissions").

It records when users are elevated to administrative roles ("Promotes users to admin").

It logs alterations to a GitHub App's granted permissions ("Changes permissions of a GitHub App").

NEW QUESTION # 21

How is CodeQL different from other static analysis tools?

- A. It runs analysis only after a security breach.
- B. It allows querying of code semantics using a database-like language.
- C. It removes insecure code automatically

- D. It only works for open-source projects.

Answer: B

Explanation:

CodeQL differs from traditional static analysis tools by ingesting your code into a queryable database and letting you write QL queries - its own database-style language - to express semantic checks and find patterns across the codebase.

NEW QUESTION # 22

You want to ensure a secret is automatically available to only workflows in internal and private repositories in the organization. Where do you configure the required access policy?

- A. Rulesets
- B. Runner groups
- **C. Organization secret**
- D. Actions policies

Answer: C

Explanation:

You set the access policy on the Organization Secret itself - configuring its visibility so it's scoped automatically to only internal and private repositories.

NEW QUESTION # 23

A GitHub Enterprise administrator is planning to implement SAML SSO across their company. Which of the following correctly distinguishes enterprise-wide SAML SSO from organization-level SAML SSO?

- **A. Enterprise-wide SAML SSO ensures users authenticate through the same IdP across all organizations.**
- B. Enterprise-wide SAML SSO allows different organizations to use different authentication methods.
- C. Enterprise-wide SAML SSO requires less initial administrative overhead than organization-level implementation.
- D. Enterprise-wide SAML SSO immediately removes users who fail to authenticate via the IdP.

Answer: A

Explanation:

Enterprise-wide SAML SSO enforces a single IdP across all member organizations - its configuration overrides any per-organization SAML settings, so everyone must authenticate through the same provider.

NEW QUESTION # 24

.....

Now our GH-100 practice materials have won customers' strong support. Our sales volume is increasing every year. The great achievements benefit from our enormous input. First of all, we have done good job on researching the new version of the GH-100 exam question. So you will enjoy the best learning experience every once in a while. Also, the quality of our GH-100 Real Dump is going through the official inspection every year. So you can fully trust us.
