## 100% Pass 2026 FCP\_FMG\_AD-7.6: Useful Latest FCP - FortiManager 7.6 Administrator Dumps Ppt

The prospective clients can examine the format and quality of our FCP\_FMG\_AD-7.6 exam braindumps before placing order for the product. As you may find on our website, we have three different versions of our FCP\_FMG\_AD-7.6 study questions: the PDF, Software and APP online. Accordingly, we have three different demos for you to free download. And not only the content of the demos is the same with the three versions, but also the displays are the same with the according version of our FCP\_FMG\_AD-7.6 learning guide.

## Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q25-Q30):

### NEW QUESTION # 25

Refer to the exhibit. An administrator has created a firewall address object that is used in multiple policy packages for multiple FortiGate devices in an ADOM.

Remote-firewall(VDOM1) is different on the Remote-firewall(root) and it doesn't included within per-device mapping.

### NEW QUESTION # 26

An administrator has a FortiGate-HQ device with VDOMs-root, HR and Facilities, currently managed under the FortiManager ADOM-Site1. They try to move VDOM HR to the FortiManager ADOM-Site2, but it does not work.

Why is the administrator not able to move FortiGate-HQ VDOM HR to FortiManager ADOM-Site2?

- A. The administrator must have full access in the device layer of FortiGate-HQ VDOM-root before they can VDOMs to different ADOMs.
- B. FortiManager must be in ADOM normal mode, which does not allow VDOMs to be managed separately.
- **C. The FortiGate-HQ must be managed under the FortiManager ADOM-root to allow moving its VDOMs to different ADOMs.**
- D. The administrator must delete the FortiGate-HQ device from FortiManager and add it again using the Add Device wizard before moving the VDOM.

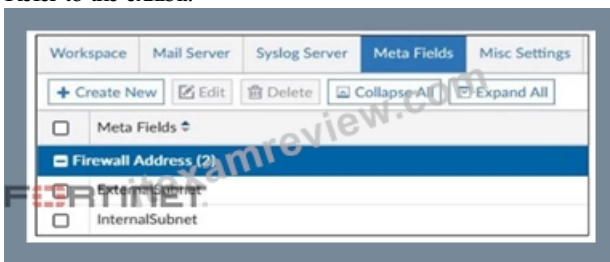

**Answer: C**

Explanation:

FortiGate devices must be managed under the FortiManager ADOM corresponding to the root VDOM to allow their individual VDOMs to be moved and managed in different ADOMs. Managing the root VDOM in a different ADOM prevents moving subordinate VDOMs across ADOMs.

### NEW QUESTION # 27

Refer to the exhibit.

An administrator created two new meta fields in FortiManager. Which operation can you perform with these parameters?

- A. You can invoke them using the \$ character.
- B. You can export them to be used in other ADOMs.
- **C. You can add them to objects as custom attributes.**
- D. You can use them as variables in scripts.

**Answer: C**

Explanation:

Meta fields in FortiManager can be added to objects as custom attributes, allowing administrators to categorize and add additional information to firewall objects for easier management and identification.

### NEW QUESTION # 28

An administrator configures a new BGP peer in the FortiManager device-level database of FortiGate. They reinstall the policy package to the managed FortiGate device without any errors.

However, when the administrator logs in to FortiGate, they do not see the BGP configuration changes. What is the most likely reason why FortiManager did not push the BGP peer changes to FortiGate?

- A. The administrator must use the Install Wizard and select Install device settings only to push BGP settings
- B. The FortiGate firmware version is different from the FortiManager ADOM version.
- C. The administrator must run a sanity check on FortiManager to make sure the database is not corrupted.
- **D. Fortigate has a BGP template assigned on the FortiManager database.**

**Answer: D**

Explanation:

If a BGP template is assigned to the FortiGate device on FortiManager, device-level BGP configurations made directly in the device-level database are overridden by the template settings, so the changes do not get pushed to the device.

### NEW QUESTION # 29

While attempting to push a NetFlow configuration script through the FortiManager policy package: an administrator encounters an error stating that an object is unrecognized in line 4.

```
Starting log (Run on database)
config vdom
edit AGEUSR
[line 4] > config sys interface [parameter(s) invalid. detail: object unrecognized]
Failed to commit to DB, reason([line 4] > config sys interface [parameter(s) invalid. detail: object unrecognized]

Running script(NetFlow_Configuration) on DB failed
```

What must the administrator do to successfully apply the NetFlow configuration script and avoid the object unrecognized error?

- A. Run the script on the device database.
- **B. Use metadata variables if they use VDOMs in the script.**
- C. Make sure the user running the script has full access to the VDOM-AGEUSR.
- D. Create a normalized interface on the policy layer before running the script.

**Answer: B**

Explanation:

When using scripts that reference VDOM-specific objects, such as interfaces, in FortiManager, metadata variables must be used to correctly map those objects per VDOM. This prevents "object unrecognized" errors during script execution.

### NEW QUESTION # 30

.....

We are stable and Reliable FCP\_FMG\_AD-7.6 Exam Questions providers for persons who need them for their exam. We have been staying and growing in the market for a long time, and we will be here all the time, because our excellent quality and high pass rate. As for the safe environment and effective product, there are thousands of candidates are willing to choose our FCP - FortiManager 7.6 Administrator study question, why don't you have a try for our study materials, never let you down!

**FCP\_FMG\_AD-7.6 Exam Discount Voucher:** [https://www.itexamreview.com/FCP\\_FMG\\_AD-7.6-exam-dumps.html](https://www.itexamreview.com/FCP_FMG_AD-7.6-exam-dumps.html)

With so accurate information of our FCP\_FMG\_AD-7.6 learning questions, we can confirm your success by your first attempt, At present, many candidates are choosing FCP\_FMG\_AD-7.6 valid training material as their study reference to get certified in FCP\_FMG\_AD-7.6 exam certification, The FCP\_FMG\_AD-7.6 Exam Discount Voucher - FCP - FortiManager 7.6 Administrator has become very significant to validate expertise and level up career, We eliminated the filler and simplified the FCP\_FMG\_AD-7.6 Exam Discount Voucher - FCP - FortiManager 7.6 Administrator exam preparation process so you can ace the Fortinet FCP\_FMG\_AD-7.6 Exam Discount Voucher certification exam on your first try.
