We have installed the most advanced operation system in our company which can assure you the fastest delivery speed on our C-S4PM-2504 learning guide, you can get immediately our C-S4PM-2504 training materials only within five to ten minutes after purchase after payment. At the same time, there is really no need for you to worry about your personal information if you choose to buy the C-S4PM-2504 Exam Practice from our company.

SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q10-Q15):

NEW QUESTION # 10

Why does SAP recommend to document alternative processes when implementing SAP S/4HANA Cloud Public Edition?

- A. To ensure alternative processes are permanently used instead of standard features
- B. To allow the system to be fully customized for the customer
- C. To suggest new feature alternative business processes for SAP inclusion in future upgrades
- **D. To allow for future deprecation of alternative processes when standard solutions become available**

Answer: D

Explanation:

Documenting alternative processes during SAP S/4HANA Cloud Public Edition implementation is a best practice to manage deviations from SAP Best Practices while maintaining a cloud-compliant approach.

* Option A: To allow for future deprecation of alternative processes when standard solutions become available Correct.

Documenting alternative processes enables customers to transition to standard processes in future releases, reducing customizations. The SAP S/4HANA Cloud Implementation Guide states, "SAP recommends documenting alternative processes to facilitate their deprecation when standard solutions become available in future upgrades, aligning with the cloud mindset."

* Option B: To suggest new feature alternative business processes for SAP inclusion in future upgrades Incorrect. Alternative processes are for customer-specific needs, not for suggesting features to SAP. The SAP Activate Methodology Guide notes, "Alternative processes are documented for customer use, not for proposing new features, which is handled through SAP's innovation feedback process."

* Option C: To ensure alternative processes are permanently used instead of standard features Incorrect. The goal is to minimize deviations, not make alternative processes permanent. The SAP S/4HANA Cloud Study Guide clarifies, "Alternative processes are temporary solutions, with the aim of adopting standard processes as they become available."

* Option D: To allow the system to be fully customized for the customer Incorrect. Full customization contradicts the cloud mindset of standardization. The SAP S/4HANA Cloud Implementation Guide explains, "Documenting alternative processes supports limited deviations, not full customization, to maintain cloud compliance." Extract from Official Documentation:

* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "Documenting alternative processes allows customers to track deviations from SAP Best Practices, enabling future deprecation when standard solutions are introduced in subsequent releases, ensuring alignment with the cloud strategy."

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "Alternative processes are documented to manage temporary deviations, with the goal of transitioning to standard processes as they become available, reducing long-term customization." Additional Context:

SAP's cloud-first approach emphasizes standardization, and documenting alternative processes ensures transparency and flexibility, allowing customers to adopt standard solutions as they evolve, minimizing technical debt and maintenance costs.

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Explains alternative process management.

SAP Best Practices: Outlines cloud-compliant customization.

NEW QUESTION # 11

What are success factors for the different dimensions of the change management framework? Note: There are 3 correct answers to this question.

- A. Regarding change leadership, it is important to establish stakeholder management as an ongoing activity.
- B. Regarding change realization, it is important to actively support the business units in the development of a new operating model.
- C. Regarding change strategy, it is important to fulfill the expectations towards change management.
- D. Regarding change effectiveness, it is important to use a balanced combination of change effectiveness measures.
- E. Regarding change communication, it is important to develop a compelling, comprehensive change story.

Answer: A,C,E

NEW QUESTION # 12

How do you define the term Organizational Change Management?

- A. It is a comprehensive, cyclic, and structured approach for transitioning individuals, groups, and organizations from a traditional to an agile organizational set-up with focus on the added value for the impacted users.
- B. It is a selective, singular, and intuitive approach for transitioning individuals, groups, and organizations from a current to a future state with focus on the added value for the impacted users.
- C. It is a selective, singular, and intuitive approach for transitioning individuals, groups, and organizations from a traditional to an agile organizational set-up with intended business benefits.
- D. It is a comprehensive, cyclic, and structured approach for transitioning individuals, groups, and organizations from a current to a future state with intended business benefits.

Answer: D

NEW QUESTION # 13

During a Fit-to-Standard workshop, what can you do with SAP Cloud ALM?

Note: There are 2 correct answers to this question.

- A. Configure the to-be-solution
- B. Test all scoped processes
- C. Capture requirements
- D. Analyze Solution Process Flow diagrams (BPMNs)

Answer: C,D

NEW QUESTION # 14

In the SAP Activate explore phase, the project team conducts fit-to-standard workshops to identify gaps between business requirements and the SAP best practice standard. Which change management challenge is typical for this phase?

- A. Some business departments do not feel well prepared for the go-live.
- B. Some project team members have never heard of organizational change management.
- C. Some managers show resistance towards the cloud standard.
- D. Some business users do not adopt the new cloud solution.

Answer: C

Explanation:

The Explore phase of the SAP Activate methodology involves Fit-to-Standard workshops to align customer requirements with SAP Best Practices, often revealing change management challenges related to acceptance of the cloud-standard approach.

* Option A: Some business users do not adopt the new cloud solution. Incorrect. User adoption issues typically arise in the Run phase post-go-live, not during the Explore phase. The SAP S/4HANA Cloud OCM Guidestates, "User adoption challenges are addressed in the Run phase, while the Explore phase focuses on process alignment."

* Option B: Some project team members have never heard of organizational change management.

Incorrect. Lack of OCM awareness is more likely in the Prepare phase, where change management is introduced. The SAP Activate Methodology Guidenotes, "OCM awareness is established in the Prepare phase, with the Explore phase focusing on process validation."

* Option C: Some business departments do not feel well prepared for the go-live. Incorrect. Go-live preparedness concerns emerge in the Deploy phase, not Explore. The SAP S/4HANA Cloud Study Guide clarifies, "Business readiness is assessed in the Deploy phase, while the Explore phase addresses process fit."

* Option D: Some managers show resistance towards the cloud standard. Correct. Resistance to the cloud-standard approach, driven by SAP Best Practices, is a common challenge during Fit-to-Standard workshops, as managers may prefer customizations. The SAP S/4HANA Cloud OCM Guide explains, "In the Explore phase, a typical change management challenge is managerial resistance to the cloud-standard approach, as Fit-to-Standard workshops emphasize standard processes over custom solutions." Extract from Official Documentation:

* SAP S/4HANA Cloud OCM Guide (SAP Help Portal, <https://help.sap.com>): "During the Explore phase, resistance from managers to the cloud-standard approach is a common change management challenge, as Fit-to-Standard workshops highlight the need to adopt SAP Best Practices."

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "The Explore phase's Fit-to-Standard workshops often encounter managerial resistance to cloud standards, requiring change management to address concerns and promote acceptance of SAP Best Practices." Additional Context:

The cloud mindset of SAP S/4HANA Cloud Public Edition prioritizes standard processes, which can challenge managers accustomed to on-premise customizations. Effective change management in the Explore phase involves communication and stakeholder engagement to overcome this resistance, ensuring alignment with the project's goals.
