## Providing You Professional AB-730 Exam Reference with 100% Passing Guarantee

The AI Business Professional (AB-730) Desktop-based practice Exam is ideal for applicants who don't have access to the internet all the time. You can use this AI Business Professional (AB-730) simulation software without an active internet connection. This AB-730 software runs only on Windows computers. Both practice tests of Pass4guide i.e. web-based and desktop are customizable, mimic Microsoft AB-730 real exam scenarios, provide results instantly, and help to overcome mistakes.

## Microsoft AI Business Professional Sample Questions (Q55-Q60):

### NEW QUESTION # 55

You have a Microsoft 365 subscription.

You do NOT have a Microsoft 365 Copilot license.

When you send a prompt in Microsoft 365 Copilot Chat, which three sources does Copilot Chat use to respond? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. your organization's databases
- B. the conversation history
- C. internet search data
- D. organizational data in Microsoft 365
- E. chat data in Microsoft Teams
- F. the prompt context

**Answer: B,C,F**

Explanation:

When you use Microsoft 365 Copilot Chat without a Microsoft 365 Copilot license, Copilot Chat operates in a "general" mode rather than a Microsoft Graph-grounded work mode. In this configuration, Copilot does not have the entitlement to access and reason over your organization's protected Microsoft 365 content (such as SharePoint sites, OneDrive files, Outlook mail, Teams messages, or other tenant resources). It also does not connect directly to your organization's internal databases unless separate, explicitly configured integrations exist.

Instead, Copilot relies on three primary sources to generate a response: (1) the prompt context you provide in the current request (what you ask, plus any text you paste), (2) the conversation history within the current chat thread to maintain continuity, and (3) internet search data (when web grounding is available) to supplement general knowledge with up-to-date public information.

Therefore, the correct selections are C (prompt context), E (internet search data), and F (conversation history), while organizational Microsoft 365 data and Teams chat data are not used without the Copilot license.

### NEW QUESTION # 56

You have an open Microsoft 365 Copilot conversation.

You need to chat with an agent named Agent1 during the conversation.

What should you enter to call Agent1?

- A. @Agent1
- B. #Agent1
- C. /Agent1
- D. [Agent1]

**Answer: A**

Explanation:

In a Microsoft 365 Copilot conversation, you can use the @ symbol to mention and add a specific agent to your chat. However, the command is typically @ followed by the actual name of the agent (e.g., @Salesforce or @CRM agent).

### NEW QUESTION # 57

Select the answer that correctly completes the sentence.

**Answer:**

Explanation:

Explanation:

Microsoft Purview is the correct choice because it is Microsoft's unified compliance and data governance solution that helps organizations apply and enforce policies across Microsoft 365 content- including Copilot- related interactions where those interactions are captured in services such as Microsoft 365 audit, eDiscovery, and Purview compliance experiences. Purview supports capabilities such as data loss prevention (DLP), retention, eDiscovery, audit, and sensitivity labeling so organizations can manage and govern data and AI- assisted content in line with regulatory and internal requirements. In contrast, Microsoft Entra ID

focuses on identity and access management, Intune focuses on device and application management, and Defender for Cloud focuses on cloud security posture management. Governance policies for Copilot-generated conversations and associated compliance controls align most directly with Purview, which is designed to manage information protection and compliance across the Microsoft 365 environment.

### NEW QUESTION # 58

You are using Microsoft 365 Copilot to enhance your productivity in Microsoft Teams.

Which two tasks can you achieve by using Copilot in Teams? Each correct answer presents a complete the solution.

NOTE: Each correct selection is worth one point.

- A. Mute and unmute participants in a meeting based on their location.
- B. Draft a response to a channel message based on the context of the conversation.
- C. Create a meeting summary, including key decisions and action items.
- D. Create a custom background and add the background to your video calls.

**Answer: B,C**

Explanation:

Copilot in Microsoft Teams is designed to help users work faster by summarizing meeting content and assisting with message composition in chats and channels. Microsoft guidance highlights that Copilot can synthesize what was discussed in a meeting by generating a structured recap that includes key points, decisions, and action items. This directly matches option C. Copilot can also help you respond more quickly in Teams conversations by drafting replies grounded in the context of the existing chat or channel thread, which matches option D.

Options A and B are not Copilot capabilities. Muting and unmuting participants is a meeting control function handled by Teams meeting roles and settings, and it is not automatically driven by Copilot based on participant location. Creating custom backgrounds is a Teams visual feature (and can involve Designer or image tools), but it is not a Copilot-in-Teams productivity function for summarization or drafting based on conversation context.

Therefore, the two tasks you can achieve using Copilot in Teams are generating meeting summaries with decisions and action items, and drafting responses to channel messages based on conversation context.

### NEW QUESTION # 59

Select the answer that correctly completes the sentence.

**Answer:**

Explanation:

### NEW QUESTION # 60

.....

Learning at electronic devices does go against touching the actual study. Although our AB-730 exam dumps have been known as one of the world's leading providers of AB-730 exam materials. For your convenience, we especially provide several demos for future reference and we promise not to charge you of any fee for those downloading. Therefore, we welcome you to download to try our AB-730 Exam. Then you will know whether it is suitable for you to use our AB-730 test questions. We are sure to be at your service if you have any downloading problems.
