So high quality materials can help you to pass your exam effectively, make you feel easy, to achieve your goal.

Salesforce Certified Advanced Administrator Sample Questions (Q176-Q181):

NEW QUESTION # 176

A user at Ursa Major Solar is experiencing a flow error while trying to process a record to the next status. The users with the same access can process records without any errors.

What should the administrator do to troubleshoot the issue?

- A. Change the flow to run as System Context Without Sharing - Access All Data.
- B. Grant the user the Modify All permission to ensure they have full system access.
- C. Grant the user more data access by moving them higher in the role hierarchy.
- **D. Use the flow debug option and set the selection to Run as another user.**

Answer: D

Explanation:

The flow debug option is a tool that allows you to test and troubleshoot your flow by running it in debug mode and inspecting the values of variables and resources at each step. You can also set the debug mode to run as another user and see how the flow behaves for different users with different permissions and settings.

In this case, using the flow debug option and setting the selection to run as another user can help identify why one user is experiencing a flow error while others are not. References: https://help.salesforce.com/s/articleView?id=sf.flow_debug.htm&type=5

NEW QUESTION # 177

The administrator at Ursa Major Solar has set up IT policies for all user passwords to be a minimum length of 3 characters and have an expiration period of 90 days. The security team recently decided that administrators of any system should have a 15-character minimum password with a 30-day expiration period.

Where should the administrator make this change?

- A. Password complexity requirements on the permission set
- B. Organization-wide password policies
- **C. Password Policies on the System Administrator profile .**
- D. Session Settings on the User record

Answer: C

Explanation:

Password Policies on the System Administrator profile is a feature that allows administrators to set different password requirements for users with different profiles. Password Policies can specify the minimum length, complexity, expiration period, history enforcement, lockout interval, and warning message for passwords.

Password Policies can be used to enforce stricter password requirements for system administrators than for other users

NEW QUESTION # 178

The Sales Manager at Universal Containers would like a dashboard to view each of the sales representative's opportunities, accounts, and related cases. What is a recommended solution ?

Discuss

- A. Create an individual dashboard for each sales representative with opportunity, account, and case components.
- **B. Create a dynamic dashboard and add filters for opportunities, accounts and cases.**
- C. Create a dynamic dashboard and insure the sales manager has the "View My Team's Dashboard" permission.
- D. Create a dashboard and add filters for users, opportunities, accounts, and cases.

Answer: B

NEW QUESTION # 179

The administrator at Universal Containers wants to improve data quality by ensuring that all accounts have a Billing State/Province based upon the Billing Postal Code for that account. How can this be achieved? Choose

2 answers

- A. Use a trigger that populates Billing State/Province based on a custom object that maps postal codes to states/provinces
- **B. Use validation rule to do a VLOOKUP of the Billing Postal Code to a custom object that maps postal codes to states/provinces**
- C. Use validation rule to do an HLOOKUP of the Billing Postal Code to a custom object that maps postal codes to states/provinces
- **D. Use a workflow that populates Billing State/Province based on a custom object that maps postal codes to states/provinces**

Answer: B,D

NEW QUESTION # 180

An administrator is using the Dev Console Log Inspector to troubleshoot a Process Builder. What event type should the administrator look for in the event column?

- A. Event types beginning with PROCESS
- B. Event types beginning with AUTOMATED.
- **C. Event types beginning with FLOW**
- D. Event types beginning with WORKFLOW

Answer: C

NEW QUESTION # 181
