- A. As needed, while taking into account a short term reduction in productivity.
- B. As needed, with no special allowance for changes in productivity.
- C. Every Sprint to promote shared learning.
- D. Never, because it reduces productivity.

**Answer: A**

**Explanation:**

The correct answer is A, because Development Team membership should change as needed, while taking into account a short term reduction in productivity. The Scrum Guide states that "development Teams are cross-functional, with all of the skills as a team

necessary to create a product Increment; development Teams are self-organizing. No one (not even the Scrum Master) tells the Development Team how to turn Product Backlog into Increments of potentially releasable functionality."
