AgilePM-Foundation exam is the first step in building a career in Agile project management, and it enables professionals to apply Agile principles and practices to their day-to-day work.

APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q99-Q104):

NEW QUESTION # 99

Which of the following is NOT an interest into which each DSDM role is grouped?

- A. Management
- **B. Maintenance**
- C. Solution/Technical
- D. Business

Answer: B

Explanation:

Maintenance is not one of the interest groups into which each DSDM role is grouped. The recognized interest groups are Business, Solution/Technical, and Management. These groups represent the different areas of focus within a DSDM project.

In DSDM, each role is grouped into interests such as Business, Solution/Technical, and Management.

Maintenance is not one of the interests into which DSDM roles are grouped. The primary focus of DSDM roles is to ensure that the project is delivered successfully by balancing business needs, technical feasibility, and effective management practices.

* "Agile Project Management: Best Practices and Methodologies" by Eric Brechner

NEW QUESTION # 100

What is the MoSCoW technical used for?

- A. As an opportunity to share information across the team and to do any day.to.day re-planning and reorganizing as necessary when issues occur.
- B. Creating a visual representation of a problem or a solution.
- **C. Understanding and managing priorities.**
- D. Ensuring a team-based approach through visual and verbal communication and collaboration.

Answer: C

NEW QUESTION # 101

According to Tuckman, in what stage of the team development model can everyone move on to new things, feeling good about what has been achieved?

- **A. Adjourning**
- B. Forming
- C. Performing
- D. Storming

Answer: A

Explanation:

* Adjourning: This stage occurs when a team disbands after achieving its objectives. Members reflect on their accomplishments and prepare to move on, often with a sense of closure and satisfaction.

* Other Stages:

* Forming: Initial stage where the team is being established.

* Storming: Involves conflict as roles and expectations are clarified.

* Performing: High-functioning stage focused on productivity.

Key AgilePM Concepts Referenced:

* Team Development Stages: AgilePM Handbook, Chapter 5, Section 5.4.

NEW QUESTION # 102

Which of the phases in the AgilePM project lifecycle is optional?

- A. Realization
- B. Foundations
- C. None
- D. Feasibility

Answer: D

Explanation:

The AgilePM lifecycle typically includes Pre-Project, Feasibility, Foundations, Evolutionary Development/Realization, Deployment, and Post-Project (benefits). Feasibility is designed as a lightweight, optional phase to confirm there is a sensible case to proceed before deeper investment. In some contexts-when viability is already established, or scope and constraints are straightforward-Feasibility may be skipped or greatly abbreviated, moving directly to Foundations, where the approach, governance, and baselines are established. By contrast, Foundations is expected for alignment and control, and Realization (timeboxed delivery) is where the solution is built; these are not optional if you are proceeding with delivery. Thus, Feasibility is the optional phase.

NEW QUESTION # 103

Which of the common Agile concepts, behaviors, and techniques delivers a version of a product with just enough features to be usable by early customers who can then provide feedback for future product development?

- A. Minimum viable product.
- B. Full transparency.
- C. Empowerment.
- D. Self-organized teams.

Answer: A

Explanation:

* Minimum Viable Product (MVP): An MVP allows early customers to use a product and provide valuable feedback, which is then incorporated into subsequent iterations. This is central to Agile practices, emphasizing incremental delivery and responsiveness to user needs.

* Other Options:

* B: Full transparency relates to visibility into processes and progress, not product development.

* C and D: These refer to team dynamics, not product delivery.

Key AgilePM Concepts Referenced:

* Incremental Delivery: AgilePM Handbook, Chapter 3, Section 3.7.

NEW QUESTION # 104
