P.S. Free 2025 HP HPE7-A08 dumps are available on Google Drive shared by DumpExam: <https://drive.google.com/open?id=1BLWUXMcOqpK0zZOwwxGfd3YRzADGjdlx>

The questions and answers of our HPE7-A08 study tool have simplified the important information and seized the focus and are updated frequently by experts to follow the popular trend in the industry. Because of these wonderful merits the client can pass the exam successfully with high probability. It is easy for you to pass the exam because you only need 20-30 hours to learn and prepare for the exam. You may worry there is little time for you to learn the HPE7-A08 Study Tool and prepare the exam because you have spent your main time and energy on your most important thing such as the job and the learning and can't spare too much time to learn.

### HP HPE7-A08 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Create the Implementation Plan for the Wired Network Solution: This section measures the skills of Network Designers who focus on understanding the HPE switching portfolio and selecting the right products to match various customer requirements. Candidates must also demonstrate the ability to create detailed and effective implementation plans based on given designs or customer scenarios to ensure successful wired network deployments.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• Troubleshoot the Wired Network Solution: Candidates in this section, typically Network Support Specialists, are tested on identifying common wired network failures such as IP or VLAN mismatches, hardware issues, or port misconfigurations. It also involves analyzing performance problems caused by QoS or configuration errors and formulating effective remediation plans to restore correct network operations.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Install and Configure the Wired Network Solution: This domain evaluates the abilities of Network Engineers to provision and configure HPE Aruba Networking switches both via Aruba Networking Central and command-line interface. It covers physical switch setup, Layer 2 and Layer 3 configuration and validation, multicast features, security implementations, quality of service (QoS) settings, and integration of Aruba Networking solutions into existing environments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Manage, Maintain, Optimize, and Monitor the Wired Network Solution: This part measures the skills of Network Operations Engineers in managing and maintaining wired network infrastructures. It includes developing configuration management strategies, interpreting network operational data to make informed decisions, and programmatically auditing or configuring Aruba Networking switches to optimize performance and reliability.</li> </ul>

## Get Success In HP HPE7-A08 Exam With DumpExam Quickly

The HPE7-A08 certification exam is one of the top-rated career advancement certifications in the market. This HPE Aruba Networking Switching Professional Exam (HPE7-A08) exam dumps have been inspiring beginners and experienced professionals since its beginning. There are several personal and professional benefits that you can gain after passing the HP HPE7-A08 Exam. The validation of expertise, more career opportunities, salary enhancement, instant promotion, and membership of HP certified professional community.

## HPE Aruba Networking Switching Professional Exam Sample Questions (Q309-Q314):

### NEW QUESTION # 309

A user reports slow access to a cloud application. The switch shows normal CPU utilization. What should be checked next?

- A. VLAN assignments
- B. QoS policies
- C. End-to-end latency
- D. STP configuration

**Answer: C**

### NEW QUESTION # 310

A multicast configuration on an HPE Aruba Networking CX 6300 VSF is used for a group address 239.0.0.1.

The configuration is having issues, and the video streaming clients are not receiving the stream.

What would be a possible root cause for the problems experienced?

- A. The selected multicast address will overlay with PIM-SM discovery address.
- B. The IGMP is enabled on the VLANs without any multicast traffic.
- C. The IGMP-snooping is using version 2 configured for the SVI.
- D. The selected multicast address will overlay with Link-Local Multicast address scope.

**Answer: D**

Explanation:

The multicast group address 239.0.0.1 falls within the administratively scoped multicast addresses but overlaps with the Link-Local Multicast address scope (224.0.0.0/24), which is reserved for protocol control traffic and should not be used for application

multicast groups. Using an address that overlaps with the Link-Local scope can cause multicast routing and forwarding issues, leading to video streaming clients not receiving the stream.

IGMP snooping version or enabling IGMP without multicast traffic do not cause this issue.

PIM-SM discovery addresses are different multicast addresses.

#### NEW QUESTION # 311

Which CLI command verifies the number of MAC addresses learned on a specific port?

- A. show mac-learned 1/1/1
- B. show mac-table interface 1/1/1
- C. show interface mac
- D. show port-security interface 1/1/1

**Answer: D**

Explanation:

The show port-security interface 1/1/1 command displays MAC addresses associated with a port, helping administrators enforce and troubleshoot security policies.

#### NEW QUESTION # 312

Which CLI command configures an Aruba CX switch to use a specific source IP address for BGP updates?

- A. neighbor 192.168.1.2 update-source loopback 0
- B. set bgp update-source
- C. bgp source-address 0
- D. update-source loopback 0

**Answer: A**

Explanation:

The neighbor 192.168.1.2 update-source loopback 0 command forces BGP updates to use the loopback interface, ensuring resilient and stable peer connectivity.

#### NEW QUESTION # 313

A company has a few servers in a secure, remote location storing highly-confidential documents connected to two AOS-CX 6400 switches configured in a VSX pair. The AOS-CX switches perform access control with 802.1X and will be implementing user-based tunneling (UBT) so that Aruba gateway application inspection and stateful firewall policies can be applied to the traffic.

The gateways are running version 84 and implement the AP, PEF, and RFP licenses. Which licensing is needed for the two AOS-CX switches?

- A. 1 AP license only
- B. 1 AP, 1 PEF, and 1 RFP licenses only
- C. 2 AP, 2 PEF, and 2 RFP licenses only
- D. 2 AP and 2 PEF licenses only

**Answer: B**

#### NEW QUESTION # 314

.....

Our HPE7-A08 study materials are regarded as the most excellent practice materials by authority. Our company is dedicated to researching, manufacturing, selling and service of the HPE7-A08 study materials. Also, we have our own research center and

experts team. So our products can quickly meet the new demands of customers. That is why our HPE7-A08 Study Materials are popular among candidates. We really take their requirements into account. Perhaps you know nothing about our HPE7-A08 study materials. Our free demo will help you know our study materials comprehensively.
