1. Question

Select the meaning of the underlined word:

The x-ray revealed vision that a fracture across the forehead.

☐ A. Fracture

☐ B. Bruising

☐ C. Burn

☒ D. Cut

2. Question

Select the meaning of the underlined word:

The food in the hospital was very high in nutrients for the patients.

☐ A. Good flavors

☒ B. Substances that provide nourishment

☐ C. Salt

☐ D. Fats and sugars

3. Question

Select the meaning of the underlined word:

Her nausea symptoms of nausea and a headache were concerning to the nurses.

☒ A. Sign of illness; Discomfort

☐ B. Side effect of medication

☐ C. Emotional state

☐ D. Fetus

P.S. Free 2026 NLN NEX dumps are available on Google Drive shared by BraindumpsVCE: [https://drive.google.com/open?id=1j\\_EMH\\_XvGyP79RZG87LlLwT1I9dYqMkb](https://drive.google.com/open?id=1j_EMH_XvGyP79RZG87LlLwT1I9dYqMkb)

BraindumpsVCE NLN NEX exam training materials are provided in PDF format and software format. It contains NLN NEX exam questions and answers. These issues are perfect, Which can help you to be successful in the NLN NEX Exam. BraindumpsVCE

NLN NEX exam comprehensively covers all syllabus and complex issues. The BraindumpsVCE NLN NEX exam questions and answers is the real exam challenges, and help you change your mindset.

Will you feel that the product you have brought is not suitable for you? One trait of our NEX exam prepare is that you can freely download a demo to have a try. Because there are excellent free trial services provided by our NEX exam guides, our products will provide three demos that specially designed to help you pick the one you are satisfied. On the one hand, by the free trial services you can get close contact with our products, learn about the detailed information of our NEX Study Materials, and know how to choose the different versions before you buy our products. On the other hand, using free trial downloading before purchasing, I can promise that you will have a good command of the function of our NEX exam prepare. According to free trial downloading, you will know which version is more suitable for you in advance and have a better user experience.

## NEX Discount Code | Online NEX Tests

There are several pages we have set a special module to answer the normal question on our NEX exam braindumps that most candidates may pay great attention to. If you come across questions about our NEX training materials, you can browser the module. Also, we have a chat window below the web page. You can write down your questions on the NEX Study Guide and send to our online workers. You will soon get a feedback and we will give you the most professional guidance.

## NLN Nursing Entrance Exam (Math, Science and Verbal) Sample Questions (Q99-Q104):

### NEW QUESTION # 99

\* Infant A was born premature and weighed 5 pounds at birth.

\* Infant B was full term and weighed 11 pounds at birth.

If Infant A gains 4 lb every week and Infant B gains 2 lb every week, how many weeks will it take until they are the same weight?

- A. 4 weeks
- B. 2 weeks
- C. 1 week
- D. 3 weeks

**Answer: D**

Explanation:

This is a linear growth problem involving rates. Let  $t$  represent the number of weeks. Infant A's weight is represented by  $5 + 4t$ , and Infant B's weight is represented by  $11 + 2t$ . Set the expressions equal to find when their weights match:

$$5 + 4t = 11 + 2t$$

Subtract  $2t$  from both sides:

$$5 + 2t = 11$$

Subtract 5 from both sides:

$$2t = 6$$

Divide by 2:

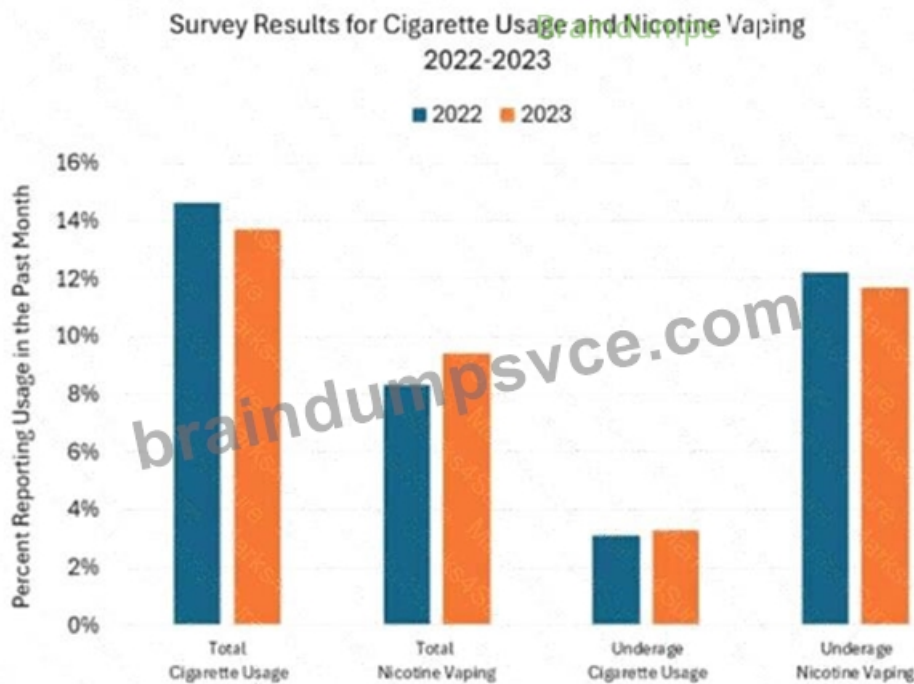

$$t = 3 \text{ weeks}$$

Therefore, option C is correct. NEX word problems often involve setting up equations from real-life healthcare scenarios, so identifying starting values and growth rates is essential.

---

### NEW QUESTION # 100

The graph below displays survey results.

Graph adapted from 2023 Companion Infographic Report:  
Results from the 2021, 2022, and 2023 National Surveys on Drug Use and Health

Data in the graph indicate that

- A. underage nicotine vaping increased in 2023.
- **B. vaping is more prevalent than using cigarettes in the underage population.**
- C. vaping is more prevalent than using cigarettes in the total population.
- D. total cigarette usage increased in 2023.

**Answer: B**

Explanation:

This question tests the ability to analyze and compare data presented in a bar graph. The graph shows both cigarette usage and nicotine vaping for total populations and underage populations in two different years.

When focusing on the underage population, the bars for nicotine vaping are clearly higher than those for cigarette usage in both years shown. This indicates that vaping is more prevalent than cigarette smoking among underage individuals. The graph does not show an increase in total cigarette usage, eliminating option B: While vaping is high overall, the clearest and most directly supported conclusion is specific to the underage population. The NEX Science exam frequently includes questions requiring students to identify the most accurate conclusion supported by data rather than making assumptions beyond what is shown.

Therefore, option A is the best answer.

### NEW QUESTION # 101

Reading Comprehension

Passage:

Public health campaigns often focus on smoking cessation because smoking is a leading cause of preventable disease. Reducing smoking rates can significantly lower the incidence of heart disease, lung cancer, and stroke.

Which outcome is directly associated with reducing smoking rates?

- A. Improved air quality indoors only
- B. Higher infection rates
- C. Increased healthcare costs
- **D. Lower incidence of chronic disease**

**Answer: D**

Explanation:

The passage clearly states that reducing smoking rates lowers the incidence of heart disease, lung cancer, and stroke. These are

chronic diseases, making option C the correct answer. The other options are either not mentioned or incorrect. On the NEX exam, cause-and-effect reading questions require identifying outcomes that are directly linked to actions described in the passage. Choosing the most clearly stated effect is essential.

---

#### NEW QUESTION # 102

Given that 1 foot = 12 inches and 3 feet = 1 yard, how many inches are in 2.5 yards?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: C**

Explanation:

This is a unit-conversion problem involving yards, feet, and inches. First, convert yards to feet. Since 1 yard equals 3 feet, multiply:  $2.5 \times 3 = 7.5$  feet. Next, convert feet to inches using the given conversion of 12 inches per foot. Multiply:  $7.5 \times 12 = 90$  inches. Therefore, the correct answer is C. Option A (72 inches) represents only 6 feet. Option B (45 inches) results from converting yards directly to inches incorrectly. Option D (54 inches) represents 4.5 feet. On the NEX exam, multi-step measurement conversions are common, and accuracy depends on converting one unit at a time rather than skipping steps.

---

#### NEW QUESTION # 103

Review the table of undisturbed sedimentary rock strata below.

|              |
|--------------|
| Soil Surface |
| Fossil D     |
| Fossil C     |
| Fossil B     |
| Fossil A     |

According to the table, which of these fossils is the oldest?

- A. Fossil C
- B. Fossil D
- C. Fossil A
- D. Fossil B

**Answer: C**

Explanation:

This question tests understanding of the law of superposition, a fundamental principle in geology that is frequently tested on the NEX Science exam. The law of superposition states that in undisturbed sedimentary rock layers, the oldest layers are found at the bottom, while the youngest layers are found at the top. In the table shown, the soil surface is at the top, followed by Fossil D, Fossil C, Fossil B, and Fossil A at the bottom.

Because Fossil A is located in the lowest rock layer, it must be the oldest fossil. Fossils found in higher layers were deposited more recently. The key word in the question is "undisturbed," which means the layers have not been mixed or overturned by geological processes. The NEX exam often emphasizes recognizing this clue to correctly apply the law of superposition. Therefore, Fossil A is the correct answer because it represents the earliest life form preserved in the rock strata.

## NEW QUESTION # 104

.....

If you care about your qualification exams and have some queries about NEX preparation materials, we are pleased to serve for you, you can feel free to contact us via email or online service about your doubt. Our company are established more than 10 years, our quality of NEX valid practice test questions are the leading position in this field. We believe our NEX exam guide will help you pass exam easily without too much spirit & time. All our NEX training materials are compiled painstakingly.
