

# Workday-Prism-Analytics Pass Test & Leading Offer in Qualification Exams & Training Workday-Prism-Analytics Materials

## What is Workday Prism Analytics?

P.S. Free 2026 Workday Workday-Prism-Analytics dumps are available on Google Drive shared by PassTestking: [https://drive.google.com/open?id=167wUXdwNZ\\_P\\_NoQPYoQ8v4DTetFPa4WZ](https://drive.google.com/open?id=167wUXdwNZ_P_NoQPYoQ8v4DTetFPa4WZ)

You do not require an active internet connection after installation of the Workday Workday-Prism-Analytics practice exam software. Repetitive attempts of Workday Workday-Prism-Analytics exam dumps boosts confidence and provide familiarity with the Workday-Prism-Analytics Actual Exam format. A free demo version is also available for satisfaction. This Workday-Prism-Analytics software provides a real Workday Pro Prism Analytics Exam (Workday-Prism-Analytics) exam environment to help ease exam anxiety.

Almost those who work in the IT industry know that it is very difficult to prepare for Workday-Prism-Analytics. Although our PassTestking cannot reduce the difficulty of Workday-Prism-Analytics exam, what we can do is to help you reduce the difficulty of the exam preparation. Once you have tried our technical team carefully prepared for you after the test, you will not fear of Workday-Prism-Analytics Exam. What we have done is to make you more confident in Workday-Prism-Analytics exam.

## Free PDF 2026 Workday Workday-Prism-Analytics Fantastic Pass Test

Our Workday-Prism-Analytics exam torrent is available in different versions. Whether you like to study on a computer or enjoy reading paper materials, our test prep can meet your needs. Our PDF version of the Workday-Prism-Analytics quiz guide is available for customers to print. You can print it out, so you can practice it repeatedly conveniently. And our Workday-Prism-Analytics exam torrent make it easy for you to take notes on it so that your free time can be well utilized and you can often consolidate your knowledge. Everything you do will help you successfully pass the exam and get the card. The version of APP and PC of our Workday-Prism-Analytics Exam Torrent is also popular. They can simulate real operation of test environment and users

can test Workday-Prism-Analytics test prep in mock exam in limited time. They are very practical and they have online error correction and other functions. The characteristic that three versions of Workday-Prism-Analytics exam torrent all have is that they have no limit of the number of users, so you don't encounter failures anytime you want to learn our Workday-Prism-Analytics quiz guide. The three different versions can help customers solve any questions and meet their all needs.

## Workday Pro Prism Analytics Exam Sample Questions (Q14-Q19):

### NEW QUESTION # 14

What security domain enables the ability to create a dataset?

- A. Prism: Tables Create
- **B. Prism Datasets: Create**
- C. Prism Datasets: Publish
- D. Prism: Manage Data Source

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, the ability to create a dataset is governed by specific security domains within the Prism Analytics functional area. According to the official Workday Prism Analytics study path documents, the security domain that explicitly enables users to create datasets is the "Prism Datasets: Create" domain.

This domain grants users the necessary permissions to initiate the creation of both base and derived datasets within the Prism Analytics Data Catalog.

The process of creating a dataset involves defining the metadata and processing logic to manipulate data, which can include Workday or external (non-Workday) data sources. The "Prism Datasets: Create" domain ensures that only authorized users, such as Prism data analysts or administrators, can perform this task, aligning with Workday's configurable security framework. Other domains, such as "Prism Datasets: Publish," are responsible for publishing datasets to make them available as Prism Data Sources for reporting, while

"Prism: Manage Data Source" pertains to managing the data sources themselves, not creating datasets.

Similarly, "Prism: Tables Create" is related to creating tables, which is a distinct entity from datasets in Prism Analytics.

This distinction is critical, as datasets and tables serve different purposes in the data management workflow.

Datasets include metadata and a subset of example rows, while tables contain metadata and all data rows. The

"Prism Datasets: Create" domain is specifically designed to control access to dataset creation, ensuring secure and governed data preparation.

### NEW QUESTION # 15

You want your derived dataset to only show rows that meet the following criteria: Agent ID is not null AND Location is Dallas OR Location is Montreal. How can you achieve this?

- **A. By using Advanced Filter conditions.**
- B. By using Simple Filter conditions.
- C. By creating a Custom Example.
- D. By adding a Manage Fields stage.

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, filtering a derived dataset to meet specific criteria involving multiple conditions with mixed logical operators (AND, OR) requires careful configuration. The criteria here are: Agent ID is not null AND (Location is Dallas OR Location is Montreal). According to the official Workday Prism Analytics study path documents, this can be achieved by using Advanced Filter conditions (option C).

A Simple Filter in Prism Analytics allows for basic conditions with a single operator ("If All" for AND, "If Any" for OR), but it cannot handle nested logic like AND combined with OR in a single filter. For example, a Simple Filter with "If All" would require all conditions to be true (Agent ID is not null AND Location is Dallas AND Location is Montreal), which is too restrictive. A Simple

Filter with "If Any" would include rows where any condition is true (Agent ID is not null OR Location is Dallas OR Location is Montreal), which is too broad. The Advanced Filter, however, allows for complex expressions with nested logic, such as ISNOTNULL(Agent\_ID) AND (Location = "Dallas" OR Location = "Montreal"), ensuring the correct rows are included. The other options are incorrect:

- \* A. By adding a Manage Fields stage: The Manage Fields stage modifies field properties (e.g., type, visibility) but does not filter rows based on conditions.
- \* B. By using Simple Filter conditions: As explained, a Simple Filter cannot handle the combination of AND and OR logic required for this criteria.
- \* D. By creating a Custom Example: Custom Examples are used to provide sample data for testing, not to filter rows in a dataset. Using Advanced Filter conditions allows for the precise application of the required logic to filter the dataset accurately.

### NEW QUESTION # 16

What report can you run to edit and maintain your Prism import and publish schedules?

- A. Prism Management Console
- **B. Scheduled Future Processes**
- C. Prism Activities Monitor
- D. Prism Usage

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, managing schedules for importing data into tables or publishing datasets as Prism data sources is a key administrative task. According to the official Workday Prism Analytics study path documents, the Scheduled Future Processes report (option A) is the tool used to edit and maintain Prism import and publish schedules. This report provides a centralized view of all scheduled processes in Workday, including Prism-related tasks such as Data Change tasks (for imports) and dataset publish schedules. Users can access this report to view, edit, or cancel scheduled processes, ensuring that data imports and publishes occur at the desired frequency and time.

The other options are incorrect:

- \* B. Prism Management Console: The Prism Management Console provides an overview of Prism activities and resources but does not allow for editing or maintaining schedules.
- \* C. Prism Activities Monitor: This report monitors the status of Prism activities (e.g., running or completed tasks) but does not manage schedules.
- \* D. Prism Usage: The Prism Usage report tracks usage metrics for Prism Analytics but does not handle scheduling tasks.

The Scheduled Future Processes report is the correct tool for managing Prism import and publish schedules, ensuring efficient data updates.

### NEW QUESTION # 17

You had to change the imported pipeline in a Join stage and your View Dataset Lineage report shows a Stage Alert regarding the disconnected pipeline. How can you fix this and make the alert disappear?

- A. Change the imported pipeline to a different one.
- B. Publish the derived dataset.
- C. Add a Manage Fields stage and re-attach the pipeline.
- **D. Delete the disconnected pipeline.**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, a Stage Alert in the View Dataset Lineage report indicates an issue with the dataset's transformation pipeline, such as a disconnected pipeline resulting from changing the imported pipeline in a Join stage. According to the official Workday Prism Analytics study path documents, a disconnected pipeline occurs when a pipeline (e.g., a table or dataset) is no longer referenced by any transformation stage, often after modifying the Join stage to use a different imported pipeline. To resolve this alert, the recommended action is to delete the disconnected pipeline (option D). By removing the disconnected pipeline from the dataset, the lineage is updated to reflect only the active pipelines, and the Stage Alert will disappear, indicating that the dataset's configuration is now valid.

The other options are not appropriate:

- \* A. Add a Manage Fields stage and re-attach the pipeline: A Manage Fields stage modifies field properties and cannot re-attach a disconnected pipeline to the Join stage.

- \* B. Publish the derived dataset: Publishing the dataset does not resolve the issue of a disconnected pipeline; the alert will persist until the pipeline is addressed.

- \* C. Change the imported pipeline to a different one: This does not address the disconnected pipeline; it only changes the Join stage's configuration again, potentially causing further issues.

Deleting the disconnected pipeline ensures the dataset's lineage is clean and free of errors, resolving the Stage Alert in the View Dataset Lineage report.

### NEW QUESTION # 18

You have two tables. One with employee data from Workday and another with learner data from an external system. Both tables have an Employee ID field.

In the Employee Data TBL, Employee ID is text.

In the Learner Data TBL, Employee ID is numeric.

How can you prepare to join these tables, without the potential loss of data?

- A. Change the field type of Employee ID directly on the Employee Data TBL from text to numeric.
- B. Change the field type of Employee ID directly on the Learner Data TBL from Numeric to Text.
- C. Import the Employee Data TBL into a DDS and change the field type of Employee ID from text to numeric using a Manage Fields stage.
- **D. Import the Learner Data TBL into a DDS and change the field type of Employee ID from numeric to text using a Manage Fields stage.**

**Answer: D**

Explanation:

In Workday Prism Analytics, joining two tables requires that the fields used in the join condition have compatible data types to avoid data mismatches or loss. The Employee Data TBL has an Employee ID field as text, while the Learner Data TBL has an Employee ID field as numeric. According to the official Workday Prism Analytics study path documents, to join these tables without potential data loss, the best approach is to convert the numeric Employee ID in the Learner Data TBL to text, as text fields can safely store numeric values as strings, but converting text to numeric risks data loss if the text field contains non-numeric characters (e.g., leading zeros or special characters).

The correct method is to import the Learner Data TBL into a Derived Dataset (DDS) and use a Manage Fields stage to change the field type of Employee ID from numeric to text (option D). This ensures that the Employee ID field in both tables is text, enabling a safe and accurate join without losing data. The Manage Fields stage in a DDS allows for field type transformations, which is the recommended approach for preparing data for joins in Prism Analytics.

The other options are less suitable:

- \* A. Import the Employee Data TBL into a DDS and change the field type of Employee ID from text to numeric using a Manage Fields stage: Converting text to numeric risks data loss if the text field contains non-numeric values, which could lead to errors or missing records during the join.

- \* B. Change the field type of Employee ID directly on the Employee Data TBL from text to numeric:

Direct field type changes on tables are not supported in Prism Analytics, and even if possible, this approach risks data loss for the same reason as option A.

- \* C. Change the field type of Employee ID directly on the Learner Data TBL from Numeric to Text:

Direct field type changes on tables are not supported; field type transformations must be done in a DDS using a Manage Fields stage.

By converting the numeric Employee ID to text in a DDS, the join can be performed safely, preserving all data from both tables.

## NEW QUESTION # 19

.....

PassTestking provides you with the best preparation material. What makes PassTestking Workday-Prism-Analytics brain dumps the first choice for their exam preparation is obviously its superior content that beats its competitors in quality and usefulness. PassTestking currently has a clientele of more than 60,000 satisfied customers all over the world. This is factual proof of the incomparable quality of our products. The way our brain dumps introduce you the syllabus contents of Workday-Prism-Analytics Exam increases your confidence to perform well in the actual exam paper.

**Training Workday-Prism-Analytics Materials:** <https://www.passtestking.com/Workday/Workday-Prism-Analytics-practice-exam-dumps.html>

Besides, we have 7/24 customer service, if you have any questions or other doubts about our Workday-Prism-Analytics easy learning material, please feel free to contact us, we are always here to reply you, Workday Workday-Prism-Analytics Pass Test You need compellent certification to highlight yourself, Workday Workday-Prism-Analytics Pass Test We make a solemn promise that our best questions are free of virus, The hit rate of Workday-Prism-Analytics training pdf is up to 100%.

Best Personnel Practices for Outsourced Software, Those Workday-Prism-Analytics different parts can use various means of wired and wireless communication, Besides, we have 7/24 customer service, if you have any questions or other doubts about our Workday-Prism-Analytics easy learning material, please feel free to contact us, we are always here to reply you.

## Quiz Workday - Workday-Prism-Analytics –Reliable Pass Test

You need compellent certification to highlight yourself, We make a solemn promise that our best questions are free of virus, The hit rate of Workday-Prism-Analytics training pdf is up to 100%.

Of course, we also attach great importance on the quality of our Workday-Prism-Analytics real exam.
