## 最新的 Strategy Planning Professional SPP 免費考試真題 (Q43-Q48):

問題 #43

Innovation and creativity come from

- A. eliminating all but one of your company's traditional products/services.
- B. asking a single research consultant how people use our products or services.
- C. absorbing the strategic best practices of other organizations to identify a metric for judging strategic needs.
- **D. encouraging our own cross-functional teams to develop original ideas and strategies.**

**答案： D**

解題說明：

Innovation and creativity are best fostered by encouraging internal cross-functional teams to develop original ideas and strategies. This approach leverages diverse perspectives and expertise, promotes ownership, and aligns innovation with organizational context. The IASP SPP curriculum underscores that internal collaboration is more sustainable and relevant than relying solely on external consultants or benchmarking. While best practices are informative, original ideas tailored to organizational capabilities and market needs drive true innovation. Product elimination may reduce complexity but does not inherently foster creativity. #IASP SPP Study Guide - Innovation Management##Pralhad & Ramaswamy, Co-creation of Value#

**問題 #44**

Which of the following differentiates vision from strategy?

- A. Vision is "why we are in business"; strategy is "who we are"
- B. Vision is "who we are"; strategy is "what products and services we are selling"
- C. Vision is "our purpose"; strategy is "our core values and principles"
- **D. Vision is "our picture of the organization's future"; strategy is "how we plan to go about accomplishing our vision"**

**答案： D**

解題說明：

Vision defines the organization's aspirational future state or "picture of the future", while strategy outlines the approach or plan for achieving that vision. The IASP SPP curriculum clarifies that vision inspires and guides, while strategy operationalizes vision through concrete actions and resource allocation.

This distinction is fundamental for effective strategic planning and communication. #IASP SPP Study Guide - Vision and Strategy##Drucker, The Practice of Management#

**問題 #45**

Which of the following steps is included when conducting an end of project review?

- A. Developing a mission statement
- B. Holding a town hall meeting with employees
- C. Developing a customer satisfaction survey
- **D. Capturing lessons learned**

**答案： D**

解題說明：

An end of project review should include capturing lessons learned to document insights, successes, and challenges, providing valuable knowledge for future projects. The IASP SPP curriculum underscores lessons learned as critical for continuous improvement and organizational learning. Mission statements and surveys, while important, are typically separate processes. #IASP SPP Study Guide - Project Closure##PML, PMBOK Guide#

**問題 #46**

When multiple changes are already occurring in an organization, which of the following is the best way to initiate another change?

- **A. Phase in the project in small segments with a few employees**
- B. Provide stress management training first
- C. Implement the total project all at once
- D. Survey employees on impact of change at this point in time

答案： A

解題說明：

Phasing in a new project in small segments with a few employees helps manage change fatigue and resistance. This incremental approach allows learning, adjustment, and reduced disruption, which is critical when multiple changes are ongoing. The IASP SPP curriculum supports this method as best practice for managing complex organizational transitions, fostering acceptance, and ensuring more successful adoption.

Large-scale or immediate implementation increases stress and risk, while stress management training, although helpful, is not the initial step. #IASP SPP Study Guide - Change Management##Kotter, Leading Change#

問題 #47

Which of the following is MOST responsible for changing organization culture to better align it with a new strategy?

- A. Planning team
- B. Human resources department
- C. Consultant retained to lead the effort
- D. Chief executive officer and the senior management team

答案： D

解題說明：

The chief executive officer (CEO) and senior management team hold primary responsibility for changing organizational culture to align with new strategic directions. Their leadership behaviors, decisions, and communications set the tone and expectations that influence culture. The IASP SPP framework emphasizes that cultural transformation requires visible and sustained commitment from top leaders who model desired values and allocate resources accordingly. While HR and consultants can facilitate initiatives, the authority and influence of senior leadership are essential to embed cultural change and ensure organizational-wide adoption. #IASP SPP Study Guide - Culture Change##Kotter, Leading Change#
