

# Die seit kurzem aktuellsten Salesforce Plat-Dev-210 Prüfungsunterlagen, 100% Garantie für Ihen Erfolg in der Prüfungen!

SAP C\_IBP\_2305 SAP Certified Application Associate - SAP IBP for Supply Chain (2305)

**Die seit kurzem aktuellsten SAP C\_IBP\_2305 Prüfungsunterlagen, 100% Garantie für Ihen Erfolg in der Prüfungen!**

Seit langem bieten wir DeutschPrüfung vielfältige neueste Prüfungsunterlagen zur SAP C\_IBP\_2305 Zertifizierungsprüfung. Zum Beispiel sind SAP C\_IBP\_2305 Dumps von DeutschPrüfung laut der neuesten IT-Zertifizierungsprüfung geschaffen. Wir können Ihnen die neusten Informationen über die SAP C\_IBP\_2305 Prüfungen anbieten. Die Unterlagen beinhalten die veränderten Informationen und die neue Prüfungsfragensformen. So wenn Sie IT-Zertifizierungsprüfung ablegen wollen, sollen Sie am besten die Unterlagen von DeutschPrüfung. Damit können Sie sich besser auf die SAP C\_IBP\_2305 Prüfungen vorbereiten.

Wenn Sie die Ziertifizierungsprüfung für SAP C\_IBP\_2305 einmalig bestehen oder Ihre IT-Fähigkeiten erhöhen wollen, ist DeutschPrüfung Ihre beste Wahl. Nach langjährigen Bemühungen beträgt die Bestehensrate derSAP C\_IBP\_2305 Prüfung bereits 100%. Unsere Schulungsunterlagen zur SAP C\_IBP\_2305 Prüfung enthalten vollständige und grenzlose Dumps, mit den Sie ganz einfach die C\_IBP\_2305 Prüfung bestehen können.

**C\_IBP\_2305 Online Praxisprüfung - C\_IBP\_2305 Prüfungs**

Wenn Sie die neuesten und genauesten Prüfungsfragen zur SAP C\_IBP\_2305 Zertifizierungsprüfung von DeutschPrüfung wählen, ist der Erfolg nicht weit entfernt.

**SAP Certified Application Associate - SAP IBP for Supply Chain (2305) C\_IBP\_2305 Prüfungsfragen mit Lösungen (Q74-Q79):**

**74. Frage**  
Time profiles are made out of levels, and levels are made out of periods.Which ways can SAP IBP identify profiles and periods?Note: There are 2 correct answers to this question.

*Die seit kurzem aktuellsten SAP C\_IBP\_2305 Prüfungsunterlagen, 100% Garantie für Ihen Erfolg in der Prüfungen!*

Wenn Sie Dumps zur Salesforce Plat-Dev-210 Zertifizierungsprüfung von It-Pruefung kaufen, versprechen wir Ihnen, dass Sie 100% die Salesforce Plat-Dev-210 Zertifizierungsprüfung bestehen können. Sonst zahlen wir Ihnen die gesamte Summe zurück.

## Salesforce Plat-Dev-210 Prüfungsplan:

| Thema   | Einzelheiten                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Thema 1 | <ul style="list-style-type: none"><li>• Omnistudio Data Mappers: This part of the exam measures the skills of a Data Engineer and focuses on the use of Omnistudio Data Mappers for extracting, transforming, and loading data. It includes identifying the appropriate Data Mapper for a given requirement, as well as determining the necessary Extract, Load, Transform, and Turbo Extract functionalities based on specific use cases. This section ensures the candidate can effectively map and manipulate data to support business processes.</li></ul> |
|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Thema 2 | <ul style="list-style-type: none"> <li>• Flexcards: This section of the exam measures the skills of a Solution Architect and covers the ability to design and configure FlexCards based on specific business requirements. It evaluates the candidate's knowledge in selecting appropriate card styles, defining data sources and fields, and implementing user actions across different card states. Additionally, this domain tests the understanding of constructing the underlying JSON data structure that powers the FlexCards framework, ensuring that the configured cards meet both functional and technical specifications.</li> </ul> |
| Thema 3 | <ul style="list-style-type: none"> <li>• Integration Procedures: This section measures the skills of an Integration Architect and involves designing and configuring Integration Procedures to automate processes and integrate systems. It requires comparing and contrasting different elements and configurations within Integration Procedures to meet specific use cases. Candidates are also tested on selecting the correct elements and properties to satisfy functional requirements, ensuring seamless data flow and process automation.</li> </ul>                                                                                    |
| Thema 4 | <ul style="list-style-type: none"> <li>• Expression Sets &amp; Decision Matrices: This section measures the skills of a Logic Designer and covers the configuration and application of Expression Sets and Decision Matrices within Omnistudio tools. It requires demonstrating an understanding of how Expression Sets evaluate conditions and how Decision Matrices use rule-based logic to determine outcomes. This knowledge is essential for automating decisions and streamlining complex business processes.</li> </ul>                                                                                                                   |
| Thema 5 | <ul style="list-style-type: none"> <li>• Omniscripts: This portion of the exam measures the skills of a Business Analyst and focuses on the use of OmniScripts to create dynamic, guided user experiences. It includes comparing and contrasting various OmniScript elements and their configurations to fulfill given use cases. The section also examines the candidate's understanding of the JSON structure that supports OmniScripts, as well as the ability to select appropriate elements and properties to address functional requirements effectively.</li> </ul>                                                                       |

## Plat-Dev-210 Lernhilfe - Plat-Dev-210 Deutsche

It-Pruefung bietet Ihnen die neuesten Schulungsunterlagen zur Salesforce Plat-Dev-210 Zertifizierungsprüfung. Die fleißigen IT-Experten von It-Pruefung aktualisieren ständig Schulungsunterlagen durch ihre eigene Kompetenz und Erfahrung, so dass die IT-Fachleute die Prüfung mühlos bestehen können. Das Salesforce Plat-Dev-210 Zertifikat stellt eine immer wichtigere Stelle in der IT-Branche dar. Und immer mehr Leute haben sich an dieser Prüfung beteiligt. Und viele davon benutzen unsere Produkte von It-Pruefung und haben die Salesforce Plat-Dev-210 Zertifizierungsprüfung bestanden. Die Feedbacks von diesen Leute haben bewiesen, dass unsere Produkte von It-Pruefung eher zuverlässig sind.

## Salesforce Certified Omnistudio Developer Plat-Dev-210 Prüfungsfragen mit Lösungen (Q83-Q88):

### 83. Frage

Refer to the exhibit below. A developer has configured an integration Procedure element with Additional input. Alternatively, how could the developer configure SEND/RESPONSE TRANSFORMATION to send exactly the same data? Assume the developer has un-checked Send Only Additional input.

- A. ☐
- B. ☐
- C. ☒
- D. ☐

**Antwort: C**

**Begründung:**

The Send JSON Path syntax for accessing an element from an Integration Procedure structure is BlockName.ElementName. In this case, the BlockName is BlockX and the ElementName is ActionZ. The colon (:) is used to separate the input and output parameters, not the block and element names. The order of the block and element names should follow the hierarchy of the structure, from top to bottom. The Additional input parameter is not needed in this case, as it is already included in the Send JSON Path.

#### 84. Frage

Refer to the exhibit.

What JSON from the DRGetAccountDetails action would display all six values correctly in the OmniScript structure shown? BlkContacts is a Repeat Block.

- A. ☐
- B. ☐
- C. ☐
- D. ☒

**Antwort: D**

Begründung:

According to the OmniScript Data JSON page, the OmniScript structure JSON defines the data elements and their properties that are used in an OmniScript. The exhibit shows an OmniScript structure JSON with six elements: AccountName, AccountNumber, AccountType, AccountOwner, ContactName, and ContactPhone.

The DRGetAccountDetails action is a DataRaptor Extract action that retrieves data from the Account and Contact objects in Salesforce. The BlkContacts element is a Repeat Block that displays a list of contacts related to the account. Therefore, the JSON from the DRGetAccountDetails action that would display all six values correctly in the OmniScript structure shown is option C, which has the following structure:

{The other options have different structures that do not match the OmniScript structure shown. Therefore, the correct answer is C.

#### 85. Frage

Refer to the exhibit.

A developer has configured an integration Procedure element with SEND/RESPONSE TRANSFORMATIONS as shown. Alternatively, how could the developer configure Additional input to send exactly the same data? Assume that the developer checked Send Only Additional input.

- A. ☐
- B. ☒
- C. ☐

**Antwort: B**

Begründung:

Option C is the correct way to configure Additional input to send exactly the same data as Input Data. The Additional input should have a key/value pair for each field in Input Data, and the value should be set to {{InputData.field}} for each field. This will pass the value of Input Data for each field to Additional input.

#### 86. Frage

A developer needs to create DataRaptor to retrieve the name of an account for a contact. Following best practices, how should a developer configure the extraction steps?

- A. Define an extraction step for the Contact object and set the Extract JSON Path to Contact.Account.Name
- B. Define extraction steps for the Contact and the Account objects, and set the Extract JSON Path to Account.Name
- C. Define extraction steps for the Contact and the Account objects, and set the Extract JSON Path to Contact.Account.Name
- D. Define an extraction step for the Account object, and set the Extract JSON Path to Account.Contact.Name

**Antwort: A**

Begründung:

A DataRaptor Extract can retrieve data from multiple objects using extraction steps and JSON paths.

However, if the data is from a single object, only one extraction step is needed. The Extract JSON Path can use dot notation to access related fields from that object, such as Contact.Account.Name.

### 87. Frage

A healthcare company wants to enable its subscribers to add, edit, or delete dependents related to their policy Community portal. The developer on the project decides to use an MiniScript.

How should the developer configure the OmniScript to provide this functionality?

- A. Use an Input Block element and a DataRaptor Post Action element.
- **B. Use an Edit Block element configured with Remote Actions.**
- C. Use a Text Block element and a Remote Action element.
- D. Use an Edit Block element configured with SOQL statements.

**Antwort: B**

Begründung:

An Edit Block element configured with Remote Actions allows the developer to create a dynamic table that can display, add, edit, or delete records from a Salesforce object. The Remote Actions can be configured to perform CRUD operations on the object using SOQL or Apex.

### 88. Frage
