## 156-315.82 Exam Duration, 156-315.82 Mock Test

If you are considering to get help from the exam braindumps for you to pass the exam, you need to get a reliable and authentic valid 156-315.82 study material, which will help you to pass exams with an ease. But, this is also a must have updated 156-315.82 exam questions to save you from the tedious task of collecting resources from multiple sources. And at the same time, the 156-315.82 learning guide must stand the test of the market and can make the customers understood by all over the world. And these are exactly the advantages of our 156-315.82 practice engine has. Just come and have a try!

## CheckPoint Check Point Certified Security Expert - R82 Sample Questions (Q10-Q15):

### NEW QUESTION # 10

SmartEvent general settings and event policy is configured using this interface / tool.

- A. SmartConsole -> Logs and Monitor
- B. SmartView in Web Browser
- C. SmartLog
- D. SmartEvent GUI Client

**Answer: A**

Explanation:

SmartEvent general settings and event correlation policies are configured through the Logs & Monitor section in SmartConsole, allowing administrators to define event handling, correlation rules, and severity levels.

### NEW QUESTION # 11

Choose the right command to export management database with logs and log indexes.

- A. `$FWDIR/scripts/migrate_server export -v <target version> -x <file>`
- B. `$FWDIR/bin/upgrade_tools/migrate export -l <file>`
- C. `$FWDIR/scripts/migrate_server export -v <target version> -n <file>`
- D. `$FWDIR/bin/upgrade_tools/migrate export -x <file>`

**Answer: A**

Explanation:

The command `$FWDIR/scripts/migrate_server export -v <target version> -x <file>` exports the management database along with logs and log indexes, creating a comprehensive package for migration or backup purposes.

### NEW QUESTION # 12

From where can you open SmartEvent Settings & Policy App?

- A. Logs & Events > Logs > External Apps
- B. **Logs & Events > New tab > External Apps**
- C. Menu > Global properties > Log and Alert
- D. Security Policies > Manage Policies > External Apps

**Answer: B**

Explanation:

SmartEvent Settings & Policy App is accessed from SmartConsole under Logs & Events by opening a new tab and selecting External Apps, allowing administrators to configure event correlation and SmartEvent policies.

### NEW QUESTION # 13

As part of the SmartEvent Initial Settings which option is not automatically configured initially and needs to be configured manually during the deployment?

- A. SmartEvent Servers
- B. **Internal Networks**
- C. Offline Jobs
- D. Correlation Units

**Answer: B**

Explanation:

Internal Networks must be defined manually during SmartEvent deployment because the system cannot automatically determine which networks are considered internal, and this information is required for accurate event correlation and traffic direction analysis.

### NEW QUESTION # 14

In what way is Secure Network Distributor (SND) a relevant feature of the Security Gateway?

- A. SND is an alternative to IPSec Main Mode, using only 3 packets.
- B. **SND is used to distribute packets among Firewall instances**
- C. SND is a feature to accelerate multiple SSL VPN connections
- D. SND is a feature of fw monitor to capture accelerated packets

**Answer: B**

### NEW QUESTION # 15
