Cyber AB CMMC-CCP Prüfungsplan:

Thema	Einzelheiten
Thema 1	• CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.
Thema 2	• Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments
Thema 3	• CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.

Prüfungsfragen mit Lösungen (Q164-Q169):

164. Frage

Who is responsible for identifying and verifying Assessment Team Member qualifications?

- A. CMMC Marketplace
- B. CMMC-AB
- C. C3PAO
- **D. Lead Assessor**

Antwort: D

Begründung:

Understanding the Role of the Lead Assessor in CMMC Assessments
The Lead Assessor is responsible for managing the Assessment Team and ensuring that all team members meet the required qualifications as defined by the CMMC Accreditation Body (CMMC-AB) and the Cybersecurity Maturity Model Certification (CMMC) Assessment Process (CAP) Guide.

* Lead Assessor's Key Responsibilities (Per CAP Guide)

* Verify team member qualifications to ensure compliance with CMMC-AB guidelines.

* Assign appropriate assessment tasks based on team members' expertise.

* Ensure that the assessment is conducted in accordance with CMMC procedures.

* Why Not the Other Options?

* A. C3PAO (Certified Third-Party Assessor Organization) #Incorrect

* A C3PAO is responsible for organizing assessments and ensuring their execution, but it does not verify individual team member qualifications—that responsibility belongs to the Lead Assessor.

* B. CMMC-AB (CMMC Accreditation Body) #Incorrect

* The CMMC-AB establishes training and certification requirements, but it does not verify individual assessment team members—that responsibility is given to the Lead Assessor.

* D. CMMC Marketplace #Incorrect

* The CMMC Marketplace lists authorized C3PAOs, Registered Practitioners (RPs), and Certified Professionals (CCPs) but does not verify assessment team qualifications.

* CMMC Assessment Process (CAP) Guide- Defines the Lead Assessor's responsibility for verifying assessment team qualifications.

* CMMC-AB Certification Guide- Specifies that the Lead Assessor must ensure all assessment team members meet CMMC-AB qualification standards.

Why the Correct Answer is "C. Lead Assessor"? Relevant CMMC 2.0 References: Final Justification:

Since the Lead Assessor is responsible for verifying assessment team member qualifications, the correct answer is C. Lead Assessor.

165. Frage

An organization that manufactures night vision cameras is looking for help to address the gaps identified in physical access control systems. Which certified individual should they approach for implementation support?

- A. CCA of the C3PAO performing the assessment
- B. RP of an organization not part of the assessment
- **C. Practitioner of the organization performing the assessment LTP**
- D. DoD Contract Official of the organization performing the assessment

Antwort: C

166. Frage

In CMMC High-Level scoping, which definition BEST describes an HQ organization?

- A. The unit to which a CMMC Level is applied for each contract
- B. The teams, services, and technologies that provide support to a Host Unit
- **C. The entity legally responsible for the delivery of products or services under a contract**
- D. The entity that carries out the tasks under a contract

Antwort: C

Begründung:

In CMMC scoping terminology, an HQ Organization is the entity legally responsible for contract performance and delivery of

products or services.

Supporting Extracts from Official Content:

* CMMC Scoping Guide: "HQ Organization is the legal entity responsible for the performance and delivery of contract requirements." Why Option D is Correct:

* The HQ Org is legally accountable, while Host Units (option A/B) are subordinate entities.

* Option C refers to shared services, not the HQ.

References (Official CMMC v2.0 Content):

* CMMC Scoping Guide, High-Level Scoping Definitions.

167. Frage

Before submitting the assessment package to the Lead Assessor for final review, a CCP decides to review the Media Protection (MP) Level 1 practice evidence to ensure that all media containing FCI are sanitized or destroyed before disposal or release for reuse. After a thorough review, the CCP tells the Lead Assessor that all supporting documents fully reflect the performance of the practice and should be accepted because the evidence is:

- A. official.
- B. compliant.
- C. adequate.
- D. subjective.

Antwort: C

Begründung:

CMMC Level 1 includes 17 practices derived from FAR 52.204-21. Among them, the Media Protection (MP) practice requires organizations to ensure that media containing FCI is sanitized or destroyed before disposal or release for reuse to prevent unauthorized access.

* This requirement ensures that any storage devices, hard drives, USBs, or physical documents containing Federal Contract Information (FCI) are properly disposed of or sanitized to prevent data leakage.

* The evidence collected for this practice should demonstrate that an organization has established and followed proper media sanitization or destruction procedures.

Why the Correct Answer is "B. Adequate"? The CMMC Assessment Process (CAP) Guide outlines that for an assessment to be considered complete, all submitted evidence must meet the standard of adequacy before it is accepted by the Lead Assessor.

* Definition of "Adequate" Evidence in CMMC:

* Evidence is adequate when it fully demonstrates that a practice has been performed as required by CMMC guidelines.

* The Lead Assessor evaluates whether the submitted documentation meets the CMMC 2.0 Level 1 requirements.

* If the evidence accurately and completely demonstrates the sanitization or destruction of media containing FCI, then it meets the standard of adequacy.

* Why Not the Other Options?

* A. Official- While the evidence may come from an official source, the CMMC does not require evidence to be "official", only that it be adequate to confirm compliance.

* C. Compliant- Compliance is the final result of an assessment, but before compliance is determined, the evidence must first be adequate for evaluation.

* D. Subjective- CMMC evidence is objective, meaning it should be based on verifiable documents, policies, logs, and procedures- not opinions or interpretations.

* CMMC 2.0 Scoping Guide (Nov 2021)- Specifies that Media Protection (MP) at Level 1 applies only to assets that process, store, or transmit FCI.

* CMMC Assessment Process (CAP) Guide- Defines adequate evidence as documentation that completely and clearly supports the implementation of a required security practice.

* FAR 52.204-21- The source of the Level 1 requirements, which includes sanitization and destruction of media containing FCI.

Relevant CMMC 2.0 References: Final Justification: The CCP's statement that the evidence "fully reflects the performance of the practice" aligns with the definition of adequate evidence under CMMC. Since adequacy is the key standard used before final compliance decisions are made, the correct answer is B. Adequate.

168. Frage

An OSC lead has provided company information, identified that they are seeking CMMC Level 2, stated that they handle FCI, identified stakeholders, and provided assessment logistics. The OSC has provided the company's cyber hygiene practices that are posted on every workstation, visitor logs, and screenshots of the configuration of their FedRAMP-approved applications. The OSC has not won any DoD government contracts yet but is working on two proposals Based on this information, which statement BEST

describes the CMMC Level 2 Assessment requirements?

- A. Ready because there is no need to certify this company until after they win a DoD contract.
- B. Ready because all DoD contractors are required to achieve CMMC Level 2; therefore, they are being proactive in seeking certification.
- C. Not ready because the OSC is not on contract because they do not know the scope of FCI protection required by the contract.
- D. Not ready because the OSC still lacks artifacts that prove they have implemented all the CMMC Level 2 Assessment requirements.
