Abstrak—Pengembangan Wisata bahari lebih efektif apabila memanfaatkan potensi yang dimiliki sebagai basis pengembangan. Kecamatan Tanggunggunung memiliki potensi potensi wisata yang perlu didukung, sehingga memberikan pengaruh eksternal dalam mendukung kegiatan wisata di kawasan Pantai Sanggar. Salah satu bentuk dukungan yaitu penyediaan infrastruktur yang masih perlu untuk dilakukan pengembangan maupun peningkatan dalam mencapai tujuan yaitu memberikan dukungan terhadap kegiatan wisata. Oleh sebab itu, di perlukan pengembangan infrastruktur pendukung wisata. Penelitian ini menggunakan metode analisis deskriptif untuk mencari karakteristik infrastruktur pendukung wisata pantai sanggar. Peneliti ini menghasilkan karakteristik infrastruktur yang ada di pantai Sanggar. Kondisi infrastruktur bermacam macam mulai dari kondisi tidak ada sampai sampai ada, seperti infrastruktur yang sudah ada adalah kondisi Jalan yang masih berupa macadam sepanjang kurang lebih 2 Km, tempat makan yang kondisinya masih sederhanya yang terdapat di desa Jelungharjo dan pantai Sanggar, tempat parkir yang menggunakan halaman rumah warga, penyediaan air bersih dan rambu rambu petunjuk jalan dan arah sudah tersedia yang ada di pintu masuk desa jenglungharjo dan di pantai, yang terakhir yaitu fasilitas amenitas yang berupa gazebo. Sedangkan untuk yang belum ada seperti pusat souvenir, kantor pusat informasi dan pelayanan, pos keamanan.

Kata Kunci—Pengembangan Infrastruktur wisata, wisata pantai.

I. PENDAHULUAN

PERANAN pariwisata di Indonesia sangat dirasakan manfaatnya karena pembangunan dalam sektor pariwisata serta pendayagunaan sumber potensi kepariwisataan menjadi kegiatan ekonomi yang yang diandalkan untuk penerimaan negara, memperluas lapangan pekerjaan dan kesempatan berusaha bagi masyarakat setempat, mendorong pembangunan daerah Ayu, 2011. [1] Dengan gencarnya pasar pariwisata Indonesia, sebaiknya perlu di imbanginya dengan pengembangan potensi yang ada didaerah atau kawasan pariwisata. di dalam pengembangan suatu wilayah, infrastruktur merupakan suatu strategi dalam penyediaan sarana dan prasarana. Peran infrastruktur tidak hanya berpengaruh pada pengembangan wilayah saja, tetapi juga pada bidang kepariwisataan. Infrastruktur berperan sangat penting dalam mendorong kualitas wisata itu sendiri, serta pada lingkungan sekitarnya Dwi, 2005. [2]. Saat ini Kabupaten Tulungagung telah memiliki berbagai ragam obyek wisata pantai. Salah satunya adalah obyek wisata Pantai Sanggar yang

terletak Desa Jenglungharjo Kecamatan Tanggunggunung RIPPDA Tulungagung, 2016. [3]. Fakta empiri Pantai Sanggar memiliki Ciri Khas dari Pemandanganya yaitu Tebing Jengger, dan Tebing Jalu, memiliki pasir pantai berwarna putih dengan ombak yang cukup besar. Kombinasi antara gelombang pasang surut dan angin lokal bertiup kencang menimbulkan ombak besar yang dapat menjadi salah satu daya tarik wisatawan untuk mengunjungi. Namun dari kelebihan yang dimiliki obyek wisata pantai sanggar, masih belum ditunjang oleh sarana dan prasarana yang memadahi, terutama dalam hal aksesibilitas dan infrastruktur menuju kawasan Pantai Sanggar Kabupaten Tulungagung. Selain itu, pantai sanggar ini belum didukung aksebilitas yang baik. Jalan menuju Pantai Sanggar rusak dan sempit, jalan masih berupa makadam, tanah liat PKS, 2016. [4].

Oleh sebab itu, dalam melakukan pengembangan wisata pantai Sanggar, di perlukan pengembangan infrastruktur pendukung wisata berdasarkan karakteristik yang ada di pantai Sanggar.

II. TINJAUAN PUSTAKA.

1) Definisi pariwisata

Pengertian pariwisata adalah proses bepergian sementara dari seseorang atau lebih menuju tempat lain di luar tempat tinggalnya. Dalam hal ini teori-teori yang digunakan ialah yang dikemukakan oleh suwantoro, Menurut Richard Sihite dalam Marpaung dan Bahar.

Subjects are required to enrich their learner profiles by regularly making plans and setting goals according to their own situation, monitoring and evaluating your study. Because it can help you prepare for the JN0-481 exam. If you want to succeed in your exam and get the related exam, you have to set a suitable study program. If you decide to buy the JN0-481 Study Materials from our company, we will have special people to advise and support you. Our staff will also help you to devise a study plan to achieve your goal.

These Data Center, Specialist (JNCIS-DC) (JN0-481) exam questions are available at an affordable cost and cover current sections of the actual Data Center, Specialist (JNCIS-DC) (JN0-481) Exam Questions. Therefore, relying on ValidDumps Juniper JN0-481 exam dumps will ensure that you crack the actual JN0-481 certification exam on the first attempt. For the trouble-less Data Center, Specialist (JNCIS-DC) (JN0-481) exam preparation of customers, we have designed these three formats of the Data Center, Specialist (JNCIS-DC) (JN0-481) exam prep material: PDF, desktop practice test software, and web-based practice exam software. You can read the characteristics of these three versions of the Data Center, Specialist (JNCIS-DC) (JN0-481) practice test material below.

JN0-481 Interactive Practice Exam, Latest JN0-481 Study Notes

We have left some space for you to make notes on the PDF version of the JN0-481 study materials. In a word, you need not to spend time on adjusting the PDF version of the JN0-481 exam questions. You can directly print it on papers. It is easy to carry. Whenever and wherever you go, you can take out and memorize some questions. There will be detailed explanation for the difficult questions of the JN0-481 Preparation quiz. So you do not need to worry about that you cannot understand them.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q53-Q58):

NEW QUESTION # 53
You have a virtual network that needs controlled access to other virtual networks in the same routing zone. Using the Juniper Apstra Ul. which feature would be used to accomplish this task?

- A. routing policy
- B. anti-affinity policy
- C. security policy
- D. interface policy

Answer: C

Explanation:
A security policy is the feature that would be used to accomplish the task of controlling access to other virtual networks in the same routing zone using the Juniper Apstra UI. A security policy allows you to define rules that specify which traffic is allowed or denied between different virtual networks, IP endpoints, or routing zones. A security policy can be applied to one or more virtual networks in the same routing zone, and it can use various criteria to match the traffic, such as source and destination IP addresses, protocols, ports, or tags. A security policy can also support DHCP relay, which enables the forwarding of DHCP requests from one virtual network to another.

NEW QUESTION # 54
The 10.100.0.0/16 route is being advertised into your BGP IP fabric. ECMP load balancing has been properly enabled on all devices.
In this scenario, how many routes will the leaf device in AS 65000 receive for the 10.100.0.0/16 prefix?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:
The leaf device in AS 65000 will receive three routes for the 10.100.0.0/16 prefix, one from each spine device in AS 65001, AS 65002, and AS 65003. Since ECMP load balancing is enabled, the leaf device will install all three routes in its routing table and distribute the traffic among them.

NEW QUESTION # 55
You want to apply a configlet to a specific device using Juniper Apstra. Which two parameters would be used to accomplish this task? (Choose two.)

- A. port group
- B. tags
- C. form factor
- D. hostname

Answer: B,D

Explanation:
To apply a configlet to a specific device using Juniper Apstra, you need to specify the device's hostname and tags. The hostname is the unique identifier of the device in the Apstra system, and the tags are the labels that you can assign to the device to group it with other devices that share the same characteristics. You can use the hostname and tags to filter the devices that you want to apply the configlet to in the blueprint catalog.

NEW QUESTION # 56
Which three statements describe intent-based analytics? (Choose three.)

- A. It is used to establish network performance baselines.
- B. It is a real-time information processing pipeline.
- C. It collects information from vendor websites.
- D. It indicates when device operating versions require updating.
- E. It alerts the network operator when network performance moves away from the baseline.

Answer: A,B,E

Explanation:
Intent-based analytics (IBA) is a feature of Juniper Apstra that allows you to combine intent from the network design with current and historic data from devices to reason about the network at- large.
IBA has the following characteristics:
It is a real-time information processing pipeline. This means that IBA can ingest, process, and analyze large amounts of data from devices in real time, using agents and probes.
Agents are software components that collect data from devices and send them to the Apstra server.
Probes are user-defined queries that aggregate data across devices and generate advanced data that can be more easily reasoned about.
It is used to establish network performance baselines. This means that IBA can use the advanced data to measure and monitor the network performance against the expected outcomes and service levels.
IBA can also use the historic data to create baselines that represent the normal behavior and state of the network.
It alerts the network operator when network performance moves away from the baseline. This means that IBA can detect and report any anomalies or deviations from the baseline or the intent in the network.
IBA can also provide insights and recommendations for troubleshooting and resolving the issues.

NEW QUESTION # 57
Multilenancy for applications is achieved by creating virtual networks (VNs) within which construct?

- A. connectivity template
- B. routing zone
- C. security policy
- D. routing table

Answer: B

Explanation:
A routing zone is an L3 domain, the unit of tenancy in multi-tenant networks. You create routing zones for tenants to isolate their IP traffic from one another, thus enabling tenants to re-use IP subnets. In addition to being in its own VRF, each routing zone can be assigned its own DHCP relay server and external system connections. You can create one or more virtual networks within a routing zone, which means a tenant can stretch its L2 applications across multiple racks within its routing zone.

NEW QUESTION # 58

......

With all types of JN0-481 test guide selling in the market, lots of people might be confused about which one to choose. Many people can't tell what kind of JN0-481 study dumps and software are the most suitable for them. Our company can guarantee that our JN0-481 actual questions are the most reliable. Having gone through about 10 years' development, we still pay effort to develop high quality JN0-481 study dumps and be patient with all of our customers, therefore you can trust us completely. In addition, you may wonder if our JN0-481 Study Dumps become outdated. We here tell you that there is no need to worry about. Our JN0-481 actual questions are updated in a high speed. Since the date you pay successfully, you will enjoy the JN0-481 test guide freely for one year, which can save your time and money. We will send you the latest JN0-481 study dumps through your email, so please check your email then.

JN0-481 Interactive Practice Exam: https://www.validdumps.top/JN0-481-exam-torrent.html

The Juniper JN0-481 certification exam syllabus is changing with the passage of time, With so many years' development, we can keep stable high passing rate for Juniper JN0-481 exam, Besides, we try to keep our services brief, specific and courteous with reasonable prices of JN0-481 practice materials, That's why ValidDumps is offering real JN0-481 Questions that are real and can save you from wasting time and money.

The if else Statement, These are: The Income Decline The Wealth Decline The Home Latest JN0-481 Study Notes Ownership Decline The Marriage Decline The Birth Decline The Life Expectancy Decline The Economic Mobility Decline Just two of trends showed increases.

Remarkable JN0-481 Exam Materials: Data Center, Specialist (JNCIS-DC) Demonstrate the Most Helpful Learning Dumps - ValidDumps

The Juniper JN0-481 Certification Exam syllabus is changing with the passage of time, With so many years' development, we can keep stable high passing rate for Juniper JN0-481 exam.

Besides, we try to keep our services brief, specific and courteous with reasonable prices of JN0-481 practice materials, That's why ValidDumps is offering real JN0-481 Questions that are real and can save you from wasting time and money.

All questions and answers have passed the test of time and JN0-481 are approved by experienced professionals who recommend them as the easiest route to certification testing.
