Many people are afraid of walking out of their comfortable zones. So it is difficult for them to try new things. But you will never grow up if you reject new attempt. Now, our EMEA-Advanced-Support study materials can help you have a positive change. It is important for you to keep a positive mind. Our EMEA-Advanced-Support Study Materials can become your new attempt. It is not difficult for you. We have simplified all difficult knowledge. So you will enjoy learning our EMEA-Advanced-Support study materials. During your practice of our EMEA-Advanced-Support study materials, you will find that it is easy to make changes.

Fortinet EMEA Advanced Support Exam Sample Questions (Q23-Q28):

NEW QUESTION # 23

In Active FTP who sends the PORT command?

- **A. The FTP Client**
- B. There is no PORT command in Active FTP
- C. Both
- D. The FTP Server

Answer: A

Explanation:

In Active FTP, the client sends the PORT command to the server, specifying an ephemeral port for the server to initiate the data connection back to the client. This distinguishes Active FTP from Passive FTP, where the server provides the port. The server does not send PORT, and the command is a key part of Active FTP. Exact extract: "In Active FTP, the client sends a PORT command to the server, specifying the IP address and port number for the data connection... The server then initiates the data connection to the client's specified port."

NEW QUESTION # 24

Which protocol is used by FortiGate to synchronize session tables in an HA cluster?

- A. OSPF
- **B. FGCP**
- C. VRRP
- D. BGP

Answer: B

Explanation:

The FortiGate Cluster Protocol (FGCP) is used to synchronize session tables, configuration, and state information between HA cluster members to ensure seamless failover. VRRP (B) is for router redundancy, OSPF (C) and BGP (D) are routing protocols, not used for HA synchronization. Exact extract: "FGCP synchronizes session tables, configurations, and state information between FortiGate HA cluster members to ensure continuity during failover."

NEW QUESTION # 25

Which FortiGate command displays the current routing table?

- A. show router status
- B. get system route
- **C. get router info routing-table all**
- D. diagnose netlink route list

Answer: C

Explanation:

The 'get router info routing-table all' command displays the FortiGate's current routing table, including all active routes and their details. Options B, C, and D are not valid or specific for this purpose. Exact extract:

"Use 'get router info routing-table all' to display the complete routing table, showing destination, gateway, interface, and metric for all routes."

NEW QUESTION # 26

Which of the following protocols operates at Layer 4

- A. OSPF
- **B. IPSEC**
- C. BGP
- D. ARP

Answer: B

Explanation:

IPsec operates at Layer 4 (Transport Layer) in the OSI model, providing secure communication via protocols like ESP and AH, which work with TCP or UDP. BGP and OSPF are Layer 3 (Network Layer) routing protocols, and ARP operates at Layer 2 (Data Link Layer). Fortinet's FortiGate uses IPsec for VPNs at Layer

4. Exact extract: "IPsec operates at the Transport Layer (Layer 4) to secure communications, encapsulating TCP or UDP packets... BGP and OSPF function at the Network Layer, while ARP resolves IP to MAC addresses at the Data Link Layer."

NEW QUESTION # 27

What happens when a FortiGate detects a SYN flood attack?

- A. It redirects traffic to a backup gateway
- B. It enables proxy-based inspection
- **C. It applies rate limiting to SYN packets**
- D. It drops all incoming packets

Answer: C

Explanation:

When FortiGate detects a SYN flood attack, it applies rate limiting to SYN packets via a DoS policy, dropping excessive packets to mitigate the attack. It does not drop all packets (A), enable proxy inspection (B), or redirect traffic (D). Exact extract: "FortiGate mitigates SYN flood attacks using DoS policies, which apply rate limiting to SYN packets to prevent overwhelming the system."

NEW QUESTION # 28

.....

We take so much pride in the high pass rate of our EMEA-Advanced-Support study questions because according to the statistics from the feedbacks of all of our customers, under the guidance of our EMEA-Advanced-Support exam materials the pass rate has reached as high as 98% to 100%, which marks the highest pass rate in the field. So if you really want to pass the EMEA-Advanced-Support Exam as well as getting the certification with no danger of anything going wrong, just feel rest assured to buy our EMEA-Advanced-Support learning guide.
