DumpTOP EC-COUNCIL 312-76덤프 구매전 혹은 구매후 의문나는 점이 있으시면 한국어로 온라인서비스 혹은 메일로 상담 받으실수 있습니다. 기술 질문들에 관련된 문제들을 해결 하기 위하여 최선을 다 할것입니다. 고객님의 DumpTOP EC-COUNCIL 312-76덤프와 서비스에 만족 할 수 있도록 저희는 계속 개발해 나갈 것입니다.

EC-COUNCIL 312-76 시험요강:

주제	소개
주제 1	- Understanding Cloud Data And Disaster Recovery - Overview OfInfrastructure Technologies
주제 2	- Overview OfCentralized Backup, Data Consolidation, And Survivable Storage Systems - Understanding Standards Of BIA
주제 3	- Overview OfBusiness Continuity Strategy Design - Data Backup Strategies

주제 4	• Understanding Best Practices And Standards In Virtualization • Understanding Best Practices And Standards In Risk Management
주제 5	• Introduction To Disaster Recovery And Business Continuity • Understanding Best Practices And Standards Of BCM
주제 6	• Understanding Virtualization-Based Disaster Recovery • Overview Of Business Continuity Management (BCM)
주제 7	• Understanding Disaster Recovery Planning Process And Methodology • Business Impact Analysis And Business Continuity Plan
주제 8	• Overview Of Disaster Recovery And Business Continuity • Understanding How To Perform BIA

312-76인기자격증 시험대비 덤프문제 시험공부자료

EC-COUNCIL 312-76시험패스는 어려운 일이 아닙니다. DumpTOP의 EC-COUNCIL 312-76 덤프로 시험을 쉽게 패스한 분이 헤아릴수 없을 만큼 많습니다. EC-COUNCIL 312-76덤프의 데모를 다운받아 보시면 구매결정이 훨씬 쉬워질것입니다. 하루 빨리 덤프를 받아서 시험패스하고 자격증 따보세요.

최신 Certified Ethical Hacker 312-76 무료샘플문제 (Q165-Q170):

질문 # 165

Gloria was auditing the BCP prepared by one of her clients. The BCP audit stage that she was currently examining ascertained whether operational resiliency and continuity was being encouraged, and if the BCP was overfunded or underfunded. Which BCP audit stage was Gloria examining?

- A. Overall Program Governance
- B. Ongoing Program Management
- C. Overall Testing of the Plan
- D. Management of Process Changes

정답: A

설명:

Overall Program Governance in a BCP audit evaluates the plan's alignment with resilience and continuity goals, including funding adequacy, ensuring it supports organizational objectives effectively.

* Option A (Ongoing Program Management): Focuses on day-to-day execution, not funding review.

* Option C (Management of Process Changes): Tracks updates, not resilience or funding.

* Option D (Overall Testing of the Plan): Validates functionality, not governance.

* "Overall Program Governance assesses BCP effectiveness, resilience promotion, and funding balance to ensure sustainable continuity" (Module: Business Continuity Planning, Section: BCP Audit Phases).

질문 # 166

Owing to an impending cyclone, Jonas took certain measures to avoid or minimize the damage the cyclone could cause to his startup's operations. Under which of the following classifications do Jonas' measures fall?

- A. Resumption
- B. Recovery
- C. Backup
- D. Prevention

정답: D

설명:

Prevention involves proactive measures to avoid or reduce the impact of a disaster before it occurs, such as reinforcing infrastructure or moving assets ahead of a cyclone. Jonas' actions align with this category as they aim to minimize damage preemptively.

- * Option B (Backup): Focuses on data duplication, not physical damage prevention.
- * Option C (Recovery): Involves post-disaster restoration, not preemptive action.
- * Option D (Resumption): Refers to restarting operations after a disruption.
- * EDRP v3 classifies prevention as a key phase in disaster management, distinct from recovery or backup (Module: Disaster Recovery Planning).

질문 # 167

Alan wants to start backing up the news articles his team generates every day. Usually, his team churns out three or four articles daily. Since the time taken to back up the articles is essentially a downtime for the team, he does not want the backing up process to be too time-consuming. Which of the following backups would suit Alan's needs?

- A. Online Data Backup
- B. Differential Backup
- **C. Incremental Backup**
- D. Full System Backup

정답: C

설명:

An Incremental Backup only backs up files changed or added since the last backup (full or incremental), making it faster and less disruptive, ideal for Alan's daily, small-volume needs.

- * Option B (Differential Backup): Backs up all changes since the last full backup, growing larger and slower over time.
- * Option C (Full System Backup): Copies everything, time-consuming and unnecessary here.
- * Option D (Online Data Backup): A method, not a type; could be any backup, but not specific.
- * "Incremental Backups minimize downtime by capturing only changes since the last backup, suitable for frequent, low-volume data updates" (Module: Data Backup and Recovery, Section: Backup Types).

질문 # 168

Which of the following terms refers to the process of repairing the old site affected by a disaster or setting up a completely new alternate site to resume business operations after a disaster?

- A. Resumption
- B. Response
- **C. Restoration**
- D. Business Continuity

정답: C

설명:

Restoration involves repairing a damaged site or establishing a new one to enable operations, focusing on infrastructure recovery.

- * Option B (Resumption): Refers to restarting operations, not site repair/setup.
- * Option C (Response): Immediate actions during a disaster, not post-disaster site work.
- * Option D (Business Continuity): A broader strategy, not specific to site restoration.
- * EDRP v3 defines restoration as rebuilding or replacing physical infrastructure post-disaster (Module: Disaster Recovery Planning).

질문 # 169

Due to the occurrence of a disaster, the data and applications at Phil's organization were lost. Fortunately, Phil had invested in a disaster recovery tier. This disaster recovery tier provided Phil with automated recovery of data and applications. Which disaster recovery tier did Phil invest in?

- **A. Tier 6**
- B. Tier 4
- C. Tier 2
