AD0-E117 Study Materials - Accurate AD0-E117 Prep Material

Now on the Internet, a lot of online learning platform management is not standard, some web information may include some viruses, cause far-reaching influence to pay end users and adverse effect. If you purchase our AD0-E117 test torrent this issue is impossible. We hire experienced staff to handle this issue perfectly. We are sure that our products and payment process are surely safe and anti-virus. If you have any question about downloading and using our AD0-E117 Study Tool, we have professional staff to remotely handle for you immediately, let users to use the Adobe Experience Manager Architect Master guide torrent in a safe environment, bring more comfortable experience for the user.

Adobe Experience Manager Architect Master Sample Questions (Q84-Q89):

NEW QUESTION # 84

A customer has a requirement to allow authors to access AEM with single sign-on. To achieve this an Architect needs to integrate AEM with the customer's identity management system.

Which two actions could an Architect take to meet this requirement? (Choose two.)

- A. Configure the generic SSO Authentication Handler
- B. Configure the SAML Authentication Handler
- C. Implement a custom JAAS Login Module
- D. Configure the Sling Authentication Requirements for the OSGi HTTP Service
- E. Implement the generic SSO Authentication Handler interface

Answer: A,E

NEW QUESTION # 85

A client using AEM 6.5 on-premise is experiencing an unsustainable repository growth of 100Gb a day. After investigation, an Architect finds out that the DAM is causing this issue. Each image uploaded to the DAM triggers the creation of approximately 100 renditions, necessary by business to consume in different channels and systems. The client also complains about stale content reported by site visitors happening randomly in pages where article-related components are present.

How should the Architect address these issues?

- A. Split WCM and DAM in separate instances, set up Connected Assets, and implement a workflow to purge all pages affected by an article change in Dispatcher
- B. Leverage AEM Adaptive Image Servlet, cache image variations in Dispatcher, and reimplement article-related components to use AJAX to load the content
- C. Leverage AEM Adaptive Image Servlet cache image variations in Dispatcher, and implement a cache TTL in Dispatcher
- D. Split WCM and DAM in separate instances, set up Connected Assets, and re-implement article-related components to use AJAX to load the content

Answer: B

Explanation:

According to Adobe Experience Manager documentation¹, the Adaptive Image Servlet is a feature that automatically selects the most appropriate rendition of an image asset based on the size of the container in which it is displayed. This can reduce the number of renditions needed and improve performance and scalability of AEM DAM. Caching image variations in Dispatcher can also help reduce repository growth and network traffic. Reimplementing article-related components to use AJAX can prevent stale content issues by dynamically loading fresh content from AEM without refreshing the whole page.

NEW QUESTION # 86

A client publishes content by a tree activation, which frequently invalidates the page cache in short succession. This causes the visitors to almost always hit an empty cache. The implementation uses a .stat file for invalidation. The client wants to delay the invalidation of cached pages while the publishing is in progress, so that the cached files are served until the invalidation completes. Which AEM dispatcher's feature can the architect propose to delay cache invalidation?

- A. Use ServeStaleOnError dispatcher configuration to render the cache in case of error
- B. Set the Dispatcher to use /invalidate property of dispatcher.any for auto-invalidation
- C. Set the Dispatcher to use /gracePeriod property of dispatcher.any for auto-invalidation
- D. Set the Dispatcher to adjust /statfileslevel property of dispatcher.any

Answer: C

NEW QUESTION # 87

AEM as a cloud service introduces major changes in the architecture by using containers. Which key architectural change was necessary to allow this to occur?

- A. Using MongoDB for Author environment
- B. Isolating /app and /libs from the content, configurations and state mgmt.
- C. Using Adobe 10 for asset ingestion and processing, storing it on a separate blob and providing AEM with metadata
- D. Using sling content distribution as the replication mechanism

Answer: B

Explanation:

"isolating /app and /libs from the content, configurations and state management allows AEM as a Cloud Service to use containers for scalability and resilience".

NEW QUESTION # 88

An architect is leading a cross-functional team in a retail organization tasked with enhancing the online shopping experience. The goal is to render product pages and catalog pages using Adobe Experience Manager (AEM), while keeping the checkout process within the commerce engine. The team is considering different architecture options to achieve this. Given the complexity of the project and the need for seamless integration, which architecture would provide the most suitable solution?

- A. Headless Architecture
- B. Centralized Architecture
- C. Monolithic Architecture

Answer: A

NEW QUESTION # 89

.....

ActualTorrent has formulated AD0-E117 PDF questions for the convenience of Adobe AD0-E117 test takers. This format follows the content of the Adobe AD0-E117 examination. You can read Adobe AD0-E117 Exam Questions without the limitations of time and place. There is also a feature to print out Adobe AD0-E117 exam questions.
