QUESTION 1

An engineer configured a Cisco AireOS controller with two TACACS+ servers. The engineer notices that when the primary TACACS+ server fails, the WLC starts using the secondary server as expected, but the WLC does not use the primary server again until the secondary server fails or the controller is rebooted.

Which cause of this issue is true?

- A. Fallback is enabled
- B. Fallback is disabled
- C. DNS query is disabled
- D. DNS query is enabled

Correct Answer: B

If Fallback Mode is enabled, the WLC will use the primary server as the backup server.

QUESTION 2

A corporation is spread across different countries and uses MPLS to connect the offices. The senior management wants to utilize the wireless network for all the employees. To ensure strong connectivity and minimize delays, an engineer needs to control the amount of traffic that is traversing between the APs and the central WLC.

Which configuration should be used to accomplish this goal?

- A. FlexConnect mode with OfficeExtend enabled
- B. FlexConnect mode with local authentication
- C. FlexConnect mode with central switching enabled
- D. FlexConnect mode with central authentication

Correct Answer: A

A Cisco OfficeExtend access point (Cisco OEAP) provides secure communications from a Cisco WLC to a Cisco AP at a remote location, seamlessly extending the corporate WLAN over the Internet to an employee's residence. The user's experience at the home office is exactly the same as it would be at the corporate office. Datagram Transport Layer Security (DTLS) encryption between the access point and the controller ensures that all communications have the highest level of security. Cisco OEAPs are designed to work behind a router or other gateway device that is using network address translation (NAT). NAT allows a device, such as a router, to act as an agent between the Internet (public) and a personal network (private), enabling an entire group of computers to be represented by a single IP address. There is no limit to the number of Cisco OEAPs that you can deploy behind a NAT device.

2026 Latest iPassleader 300-430 PDF Dumps and 300-430 Exam Engine Free Share: https://drive.google.com/open?id=1WAkBbBQkYIZtBiB_GLITi72c0G7AttYO

And you can also use the Cisco 300-430 PDF on smart devices like smartphones, laptops, and tablets. The second one is the web-based Cisco 300-430 practice exam which can be accessed through the browsers like Firefox, Safari, and Cisco Chrome. The customers don't need to download or install excessive plugins or software to get the full advantage from web-based 300-430 Practice Tests.

We provide 300-430 Exam Torrent which are of high quality and can boost high passing rate and hit rate. Our passing rate is 99% and thus you can reassure yourself to buy our product and enjoy the benefits brought by our 300-430 exam materials. Our product is efficient and can help you master the Implementing Cisco Enterprise Wireless Networks guide torrent in a short time and save your energy. The product we provide is compiled by experts and approved by the professionals who boost profound experiences. It is revised and updated according to the change of the syllabus and the latest development situation in the theory and the practice.

100% Pass Quiz 2026 Cisco 300-430: Implementing Cisco Enterprise

Wireless Networks Marvelous Vce Files

Are you aware of the importance of the 300-430 certification? If your answer is not, you may place yourself at the risk of be eliminated by the labor market. Because more and more companies start to pay high attention to the ability of their workers, and the 300-430 Certification is the main reflection of your ability. And our 300-430 exam question are the right tool to help you get the certification with the least time and efforts. Just have a try, then you will love them!

Cisco Implementing Cisco Enterprise Wireless Networks Sample Questions (Q23-Q28):

NEW QUESTION # 23

A corporation has recently implemented a BYOD policy at their HQ. Which two risks should the security director be concerned about? (Choose two.)

- A. malware
- B. network analyzers
- C. keyloggers
- D. unauthorized users
- E. lost and stolen devices

Answer: A,E

Explanation:

<https://ccbtechnology.com/byod-5-biggest-security-risks/>
<https://blogs.cisco.com/security/byod-many-call-it-bring-your-own-malware-byom>

NEW QUESTION # 24

An engineer is managing a wireless network for a shopping center. The network includes a Cisco WLC, a Cisco MSE, and a Cisco Prime Infrastructure. What is required to use Cisco CMX Location Analytics?

- A. Set history parameters in Cisco MSE.
- B. Enable Context Aware and CMX Browser Engage.
- C. **Enable tracking parameters in Cisco MSE.**
- D. Install Cisco Prime Infrastructure with floor maps.

Answer: C

Explanation:

Cisco Connected Mobile Experiences (CMX) Location Analytics requires accurate tracking of devices within the wireless network's coverage area. To utilize CMX Location Analytics effectively, it is essential to enable tracking parameters in Cisco Mobility Services Engine (MSE). This allows MSE to collect data on device locations and movements within the environment, which can then be analyzed by CMX for insights into customer behavior, asset tracking, or other analytical purposes. NEW QUESTION # 25

An engineer completed the basic installation for two Cisco CMX servers and is in the process of configuring high availability, but it fails. Which two statements about the root of the issue are true? (Choose two.)

- A. **The types of the primary and secondary Cisco CMX installations differ.**
- B. The delay between the primary and secondary instance is 200 ms.
- C. The Cisco CMX instances are installed in the same subnet.
- D. **The sizes of the primary and secondary Cisco CMX installations differ.**
- E. Both Cisco CMX installations are virtual.

Answer: A,D

Explanation:

For high availability configuration in Cisco CMX servers to work correctly, both primary and secondary servers must be identical in

terms of installation type (physical or virtual) and size (resources allocated like CPU, RAM). If there is a mismatch in these aspects, it can lead to failure in setting up high availability as they need to synchronize data between them seamlessly. NEW QUESTION # 26

A FlexConnect remote office deployment is using five 2702i APs indoors and two 1532i APs outdoors. When a code upgrade is performed and FlexConnect Smart AP Image Upgrade is leveraged, but no FlexConnect Master AP has been configured, how many image transfers between the WLC and APs will occur?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

NEW QUESTION # 27

Which AP model of the Cisco Aironet Active Sensor is used with Cisco DNA Center?

- A. 4800i
- **B. 1800s**
- C. 3800s
- D. 3600e

Answer: B

NEW QUESTION # 28

.....

We try to offer the best 300-430 exam braindumps to our customers. First of all, in order to give users a better experience, we have been updating the system of 300-430 simulating exam to meet the needs of more users. After the new version appears, we will also notify the user at the first time. Second, in terms of content, we guarantee that the content provided by our 300-430 Study Materials is the most comprehensive.
