## Prepare for the SPLK-2003 Exam with Actual4Dumps Test Engine

In order to give the best SPLK-2003 study braindumps to our worthy customers, we also focus on the customer's user experience. Our staff provides you with the smoothest system. If you have encountered some problems while using SPLK-2003 Practice Guide, you can also get our timely help as our service is working 24/7 online. Of course, our SPLK-2003 exam questions are advancing with the times and you will get the latest information.

## Splunk Phantom Certified Admin Sample Questions (Q71-Q76):

### NEW QUESTION # 71

Which is the primary system requirement that should be increased with heavy usage of the file vault?

- A. Number of processors.
- B. Amount of storage.
- C. Bandwidth of network.
- D. Amount of memory.

**Answer: B**

Explanation:

The primary system requirement that should be increased with heavy usage of the file vault is the amount of storage. The file vault is a secure repository for storing files on Phantom. The more files are stored, the more storage space is needed. The other options are not directly related to the file vault usage. See [File vault] for more information.

Heavy usage of the file vault in Splunk SOAR necessitates an increase in the amount of storage available.

The file vault is used to securely store files associated with cases, such as malware samples, logs, and other artifacts relevant to an investigation. As the volume of files and the size of stored data grow, ensuring sufficient storage capacity becomes critical to maintain performance and ensure that all necessary data is retained for analysis and evidence.

#### NEW QUESTION # 72

Is it possible to import external Python libraries such as the time module?

- A. No, but this can be changed by setting the proper permissions.
- B. Yes. from a drop-down menu.
- C. No.
- **D. Yes, in the global block.**

**Answer: D**

Explanation:

Explanation

External Python libraries can be imported in the global block of a playbook. The global block is executed once when the playbook is loaded and can be used to define global variables and import modules. The time module is one of the standard Python modules that can be imported in the global block. See Global block for more details.

#### NEW QUESTION # 73

When the Splunk App for SOAR Export executes a Splunk search, which activities are completed?

- A. CIM fields are mapped to CEF and a container is created on the Splunk server.
- **B. CIM fields are mapped to CEF fields and a container is created on the SOAR server.**
- C. CEF fields are mapped to CIM and a container is created on the Splunk server.
- D. CEF fields are mapped to CIM fields and a container is created on the SOAR server.

**Answer: B**

Explanation:

When the Splunk App for SOAR Export executes a Splunk search, it typically involves mapping Common Information Model (CIM) fields from Splunk to the Common Event Format (CEF) used by SOAR, after which a container is created on the SOAR server to house the related artifacts and information. This process allows for the integration of data between Splunk, which uses CIM for data normalization, and Splunk SOAR, which uses CEF as its data format for incidents and events.

Splunk App for SOAR Export is responsible for sending data from your Splunk Enterprise or Splunk Cloud instances to Splunk SOAR. The Splunk App for SOAR Export acts as a translation service between the Splunk platform and Splunk SOAR by performing the following tasks:

- Mapping fields from Splunk platform alerts, such as saved searches and data models, to CEF fields.
- Translating CIM fields from Splunk Enterprise Security (ES) notable events to CEF fields.
- Forwarding events in CEF format to Splunk SOAR, which are stored as artifacts.

#### NEW QUESTION # 74

Which of the following can the format block be used for?

- A. To generate arrays for input into other functions.
- B. To generate HTML or CSS content for output in email messages, user prompts, or comments.
- C. To generate string parameters for automated action blocks.
- **D. To create text strings that merge state text with dynamic values for input or output.**

**Answer: D**

#### NEW QUESTION # 75

To limit the impact of custom code on the VPE, where should the custom code be placed?

- A. A separate code repository.

- B. A custom container or a separate KV store.
- **C. A custom function block.**
- D. A separate container.

**Answer: C**

Explanation:

To limit the impact of custom code on the Visual Playbook Editor (VPE) in Splunk SOAR, custom code should be placed within a custom function block. Custom function blocks are designed to encapsulate code within a playbook, allowing users to input their own Python code and execute it as part of the playbook run.

By confining custom code to these blocks, it maintains the VPE's performance and stability by isolating the custom code from the core functions of the playbook.

A custom function block is a way of adding custom Python code to your playbook, which can expand the functionality and processing of your playbook logic. Custom functions can also interact with the REST API in a customizable way. You can share custom functions across your team and across multiple playbooks to increase collaboration and efficiency. To create custom functions, you must have Edit Code permissions, which can be configured by an Administrator in Administration > User Management > Roles and Permissions. Therefore, option C is the correct answer, as it is the recommended way of placing custom code on the VPE, which limits the impact of custom code on the VPE performance and security. Option A is incorrect, because a custom container or a separate KV store are not valid ways of placing custom code on the VPE, but rather ways of storing data or artifacts. Option B is incorrect, because a separate code repository is not a way of placing custom code on the VPE, but rather a way of managing and versioning your code outside of Splunk SOAR. Option D is incorrect, because a separate container is not a way of placing custom code on the VPE, but rather a way of creating a new event or case.

1: Add custom code to your Splunk SOAR (Cloud) playbook with the custom function block using the classic playbook editor

## NEW QUESTION # 76

.....

why you need the SPLK-2003 exam questions to help you pass the exam more smoothly and easily? There are a lot of the benefits of the SPLK-2003 study guide. Firstly, a little practice can perfect you to answer all SPLK-2003 new questions in the real exam scenario. Secondly, another amazing benefit of doing the SPLK-2003 Practice Tests is that you can easily come to know the real exam format and develop your skills to answer all questions without any confusion. Hence, you can develop your pass percentage.

**SPLK-2003 Examinations Actual Questions:** <https://www.actual4dumps.com/SPLK-2003-study-material.html>

As our SPLK-2003 exam preparation materials are in electronic form, you can use it whenever you want to study and wherever you are, The questions of our SPLK-2003 guide questions are related to the latest and basic knowledge, Yet, preparing for the SPLK-2003 exam can be challenging, and many working applicants struggle to find SPLK-2003 practice test questions they require to be successful in their pursuit, Till now, we have over tens of thousands of customers around the world supporting our SPLK-2003 exam torrent.

Uploading Files and Creating Folders, And we finally got into SPLK-2003 our third house in Chappaqua, which was bigger still, a big old castle, and we did pretty well on each of these.

As our SPLK-2003 Exam Preparation materials are in electronic form, you can use it whenever you want to study and wherever you are, The questions of our SPLK-2003 guide questions are related to the latest and basic knowledge.

## New Test SPLK-2003 Preparation | Reliable SPLK-2003 Examinations Actual Questions: Splunk Phantom Certified Admin 100% Pass

Yet, preparing for the SPLK-2003 exam can be challenging, and many working applicants struggle to find SPLK-2003 practice test questions they require to be successful in their pursuit.

Till now, we have over tens of thousands of customers around the world supporting our SPLK-2003 exam torrent, Actual4Dumps is committed to offering the best value for your investment.
