These pdf study materials are concluded by our professional IT trainers who have a good knowledge of 1z0-1066-25 Exam Questions torrent. They check the updating of vce braindumps every day to ensure the accuracy of 1z0-1066-25 test questions and answers.

## Oracle Planning and Collaboration Cloud 2025 Implementation Professional Sample Questions (Q18-Q23):

### NEW QUESTION # 18

As the planner, you have made some changes to a few of the specifications for items in your simulation sets.

You would like to run one of your existing Demand and Supply Plans that contains this simulation set to see how these changes impact the plan.

Which option shows the steps you must complete in order to ensure that when you run your existing Demand and Supply plan, it contains your changes to the simulation set?

- A. When the Demand and Supply Plan is run, verify that 'Recalculate Safety Stock' is selected in the Details section.
- B. You are only able to update one item attribute at a time. Since you have changed multiple attributes, you will be unable to update and run this plan.
- C. When the Demand and Supply Plan is run, verify that 'Refresh with current data' is selected in the Details section.
- D. No additional steps are necessary. Any plans that contain your simulation set will automatically be updated with the changes.

**Answer: C**

### NEW QUESTION # 19

When duplicating a supply plan, which parameters can you modify if Copy Type is "copy plan options only"?

- A. Name, Description, Access, Owner, Include Archive, and Notes
- **B. Name, Access, Owner, and Notes**
- C. Name, Description, Access (but if the original plan was private, you can't edit the Users list), and Notes
- D. Name, Description, Access, Supply Planning Mode, and Owner

**Answer: B**

#### NEW QUESTION # 20

You plan to fulfill customer demand from internal organizations or from a contract manufacturer. Which are the four types of planned orders that can be generated?

- **A. Buy orders for components purchased at internal organizations and contract manufacturer organizations.**
- B. Return orders for items being manufactured in the contract manufacturer organization.
- **C. Make orders for items being manufactured in the contract manufacturer organization.**
- **D. Transfer orders for internally owned components being transferred from internal organizations to contract manufacturer organizations.**
- E. Transfer orders for internally owned components being transferred from contract manufacturer to internal organizations.
- **F. Transfer orders for finished goods being transferred from contract manufacturer organizations to internal organizations.**

**Answer: A,C,D,F**

Explanation:

For fulfilling customer demand through both internal and contract manufacturing, planned orders can include buy orders for components, make orders at contract manufacturers, and transfer orders to move components or finished goods between internal and contract manufacturing locations. Return orders are not applicable as they are typically used for returns rather than regular supply chain activities MY ORACLE SUPPORT

#### NEW QUESTION # 21

You are setting up the plan page layout for your customer. In which of these requirements would you use an Infotile?

- **A. Showing inventory value across time**
- B. Showing a breakdown of exception in a pie chart
- C. Showing on-hand value compared to targets
- D. Showing customer demand trend over a specific time period
- E. Showing inventory values by product category

**Answer: A**

#### NEW QUESTION # 22

How does the Demand Fulfillment view prioritize at-risk demands?

- A. Based on order value weighted by the number of compression days required to make the demand no longer at risk
- **B. Based on order value weighted by the number of associated recommendations required to make the demand no longer at risk**
- C. Based on the order value per customer weighted by the number of associated recommendations required to make the demand no longer at risk
- D. Based on the number of associated recommendations required to make the demand no longer at risk

**Answer: B**

Explanation:

Review and Improve Your Demand Fulfillment

To improve the demand fulfillment of your plan, use the Demand Fulfillment table to review the at-risk demands in your plan and their related recommendations. You can take actions to accept recommendations from this page.

In the Demand Fulfillment UI, you can:

- \* View prioritized at-risk demands based on order values weighted by the number of associated recommendations.
- \* Take actions to accept or mark recommendations as complete.

\* Review summary information provided for the current demand fulfillment position of your plan to analyze the potential for improvement based on selected at-risk demands. The information also provides an understanding of the expected demand fulfillment position based on accepted and completed recommendations.

To review and improve your demand fulfillment:

\* In a Supply Planning, Planning Central, or Demand and Supply work area, select the Manage Plans task.

\* On the Manage Plans page, search for and open your plan.

\* In the Page Layout list, select Plan Summary.

Note that the tiles in the Plan Summary layout include a Demand at Risk in thousands tile.

\* In the Demand at Risk in thousands tile, click the Select Tile bar to review the Demand at Risk Summary data.

You can review the demand at risk data through a treemap view or a table view, the treemap view is the default. To switch to the table view, click the Show Table icon.

\* To review the demand at risk data:

\* Using the treemap: Click an area in the treemap. Typically, you want to start with the area that has the highest demand at risk value. From the Drill To actions, click Demand Fulfillment.

\* Using the table: Click the Show Table icon. In the Demand at Risk Summary table, click a cell.

Typically, you want to start with the cell that has the highest demand at risk value. From the Drill To actions, click Demand Fulfillment.

\* The Demand Fulfillment UI shows the individual orders that are at-risk and their related recommendations.

Tip: You can open the Demand Fulfillment table directly without drilling from the Plan Summary. After you open a plan, click the Open button at the page level. In the Open Table, Graph, or Tile Set dialog box, search for and select the Demand Fulfillment table. In the Demand Fulfillment UI, you can search for at-risk demands by using the filter fields in the search panel.
