Case Study 3: ADatum Corporation

Overview

Company Information

ADatum Corporation is an energy company that has offices across North America and 3,000 employees.

Physical Locations

ADatum has the offices shown in the following table.

Location	Type
Calgary	Main office
San Diego	Branch office
New York	Branch office
Edmonton	Field site

Existing Environment

Network Infrastructure

The office in Calgary has a 1-Gbps internet circuit. The offices in San Diego and New York have 100-Mbps internet circuits. The field site in Edmonton has a 3-Mbps internet circuit.

Departments

ADatum has the following departments:

- Information technology (IT)
- Project management
- Marketing

Microsoft 365 and Tenants Environment

ADatum recently purchased a Microsoft 365 E5 subscription that has the Microsoft Teams Domestic Calling Plan add-on. All users are assigned Microsoft 365 E5 and Microsoft Teams Domestic Calling Plan licenses and Calling Plans is deployed.

Azure AD has the default Cross-tenant access settings configured.

The Teams policies settings are configured as shown in the following exhibit.

Teams policies

Teams policies are used to control what settings or features are available to users when they are using teams and channels. You can use the Global (Org-wide default) policy and customize it or create one or more custom policies for those people that are members of a team or a channel within your organization. [Learn more](#)

Teams policies summary

1

Default policy

1

Custom policy

Manage policies		Group policy assignment					
+ Add		Edit	Duplicate	Delete	Reset Global policy	Manage users	2 items
Name	Description	Custom policy	Assigned to users	Create private channels	Create shared channels	Invite external users	Join external channels
Global (Org-wide default)	Default policy for users...	No		On	On	On	On
Marketing	Marketing users policy	Yes	View users	On	On	Off	Off

The Teams client is deployed to a non-persistent Virtual Desktop Infrastructure (VDI) used by the project management department. Allow guest access in Teams is set to Off.

The Microsoft Viva Connections app is deployed to all users.

Problem Statements

ADatum identifies the following issues:

- An executive at the San Diego office reports that video drops during Teams meetings.
- The Edmonton field site has limited bandwidth, and users report poor audio during Teams calls and meetings.
- Users in the project management department report that they cannot give or take control during Teams calls and meetings while sharing their VDI desktop.

Planned Changes

ADatum plans to implement the following changes:

- Configure the media bit rate settings for the users at the Edmonton field site. The settings must apply only to the user while they are at the site, but NOT when they are at a different office.
- Create a Teams channel to enable the project management department to collaborate with the IT department on a device upgrade project.
- Implement a pilot rollout of Operator Connect for the users in the New York office. A port re-quest was accepted already.

- Create a Teams channel for the marketing department for external collaboration.
- Rename the Viva Connections icon as Start portal.

Technical Requirements

ADatum identifies the following technical requirements:

- The marketing department requires that all the files shared by using Teams remain available for at least three years after deletion.
- The marketing department must be able to apply a watermark to content and video shared during Teams meetings.
- All users require indefinite access to training videos recorded in Teams by the IT department.
- All access to Teams and shared resources must use the principle of least privilege.
- Guest access must remain disabled.

Hotspot Question

You need to configure a policy for the IT department to meet the technical requirements for training videos.

How should you complete the PowerShell cmdlet? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

NEW QUESTION # 152

Task 1

You need to ensure that all unused teams expire and are deleted automatically. The solution must meet the following requirements.

- * The teams must expire 365 days from their creation date.
- * Notifications for the expiration of orphaned teams must be sent to adminLODSe551723.onnmicrosoft.com

Answer:

Explanation:

See the solution in the explanation below:

Explanation:

To ensure that all unused teams expire and are deleted automatically, you need to configure a Microsoft 365 group expiration policy.

This policy applies to teams because they are backed by groups. Here are the steps to follow:

- * Sign in to the Microsoft 365 admin center with your admin credentials.
- * Go to Groups > Expiration.
- * Turn on the Enable expiration toggle.
- * In the Group lifetime box, enter 365 days or select it from the drop-down list. This means that the teams will expire 365 days from their creation date.
- * In the Select group types to apply the policy section, check the Teams box. You can also select other group types if you want.
- * In the Choose how to handle owners of groups without owners section, enter adminLOD-Se551723.onnmicrosoft.com as the email address to receive notifications for the expiration of orphaned teams.
- * Click Save to apply the policy.

That's it. You have successfully configured a group expiration policy for teams. This policy will automatically delete the teams that are not renewed by their owners before the expiration date. You can also view and restore the deleted teams within 30 days from the Deleted groups page in the admin center.

NEW QUESTION # 153

Your company has a Microsoft 365 subscription.

You need to configure Microsoft Teams to meet the requirements shown in the following table.

Requirement name	Requirement
Requirement1	Presenters must be able to record large meetings that contain 1,000 participants or more.
Requirement2	Anonymous users must be able to join Microsoft Teams meetings.
Requirement3	Presenters must be prevented from sharing an entire screen during Microsoft Teams meeting.

Requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement1:	▼ Live event policies Live events settings Meeting policies Meeting settings
Requirement2:	▼ Live event policies Live events settings Meeting policies Meeting settings
Requirement3:	▼ Live event policies Live events settings Meeting policies Meeting settings

Answer:

Explanation:
