## Information-Technology-Management Valid Test Camp - Information-Technology-Management Materials

The best investment for the future is improving your professional ability and obtaining Information-Technology-Management certification exam will bring you great benefits for you. For most IT candidates, passing Information-Technology-Management actual test will make you stand out from the other people in the interview and offer you more opportunity. The matter now is how to prepare the Information-Technology-Management Questions and answers in a short time, our Information-Technology-Management study guide is the best effective way to get through the exam and obtain the certification.

## WGU Information Technology Management QGC1 Sample Questions (Q85-Q90):

### NEW QUESTION # 85

Which type of software saves information if there is a system error?

- A. Disk optimization
- B. Data encryption
- C. Crash-proof
- D. Uninstaller

**Answer: C**

Explanation:

Crash-proof software prevents data loss during system failures by automatically saving information or maintaining system stability. Examples include backup solutions and automatic recovery features in operating systems.

References:

\* Stallings, W. (2018). Operating Systems: Internals and Design Principles. Pearson.

### NEW QUESTION # 86

What is a method for confirming users' identities?

- **A. Authentication**
- B. Public key encryption
- C. Information secrecy
- D. Authorization

**Answer: A**

### NEW QUESTION # 87

What is the meaning of scope creep?

- A. Making minor changes to improve team efficiency
- B. Managing new requests through change control
- **C. Adding unapproved changes**
- D. Updating the project schedule

**Answer: C**

Explanation:

Scope creep refers to the uncontrolled expansion of project scope without formal approval, often caused by adding features or changes that were not originally planned. Scope creep can lead to missed deadlines, budget overruns, and reduced project quality if not managed properly.

Option A: Change control is the correct process for managing approved changes, not scope creep.

Option B: Updating schedules is part of project time management, not scope creep.

Option C: Process improvements are beneficial, not unauthorized scope increases.

Thus, scope creep means adding unapproved changes.

WGU Information Technology Management - Project Management, section on Scope Creep.

### NEW QUESTION # 88

Which storage device provides quick access to data and uses flash memory technology?

- A. Magnetic tape drive
- B. Hard disk drive
- C. Optical disc drive
- **D. Solid-state drive**

**Answer: D**

Explanation:

A Solid-State Drive (SSD) uses flash memory technology to store data electronically, allowing faster data access, lower latency, and improved reliability compared to mechanical storage devices. SSDs have no moving parts, making them more durable and efficient for high-speed computing tasks.

Option A (Hard disk drive): Uses spinning magnetic disks and is slower.

Option B (Optical disc drive): Reads/writes data using lasers on discs (CDs, DVDs).

Option D (Magnetic tape drive): Stores large volumes of data sequentially, primarily for backups.

Thus, the correct answer is Solid-state drive.

WGU Information Technology Management - Data Storage Technologies, section on Primary and Secondary Storage Devices.

### NEW QUESTION # 89

What is a reason an organization would implement unified communications?

- A. To increase paper-based documentation
- B. To maintain legacy systems
- C. To reduce reliance on mobile devices

- **D. To expand employee connectivity**

**Answer: D**

Explanation:

Unified communications (UC) integrates multiple communication tools (voice, video, instant messaging, conferencing, and email) into a single system, enabling employees to connect more easily across locations, devices, and platforms. The main reason organizations implement UC is to expand employee connectivity and collaboration, thereby improving efficiency and productivity.

Option A: Incorrect-UC increases, not reduces, the use of modern mobile tools.

Option B: Incorrect-UC minimizes paper-based communication, not increases it.

Option D: Incorrect-UC replaces or modernizes legacy systems, not maintains them.

Thus, the reason is to expand employee connectivity.
