The HCL Software Academy HCL-DOM-AADM-12 certification exam will provide you with many personal and professional benefits such as more career opportunities, updated and in demands expertise, an increase in salary, instant promotion, and recognition of skills across the world.

## HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q13-Q18):

### NEW QUESTION # 13

The AdminP task processes its queue from the \_\_\_\_ database.

- A. mail.box
- B. certlog.nsf
- C. admin4.nsf
- D. names.nsf

**Answer: C**

Explanation:

The Administration Process (AdminP) is an automated system for updating the Domino Directory and managing various server and database tasks throughout a domain. All administrative requests-such as user renames, deletions, or moves-are submitted as "request notes" to the Administration Requests database (admin4.nsf). The AdminP task on each server monitors this database, identifies tasks it needs to perform, and records the results of those actions back into the same database for the administrator to

review.

---

#### NEW QUESTION # 14

Where are DAOS objects physically stored on the server?

- A. In the designated DAOS base path directory
- B. In the ddm.nsf file
- C. Inside the mail.box file
- D. In the Domino Directory

**Answer: A**

Explanation:

The Domino Attachment and Object Service (DAOS) works by extracting file attachments from standard NSF databases and storing them as separate objects. These objects (files with a .NLO extension) are physically stored in a designated DAOS base path directory on the server's file system. This path is defined in the Server document, and within it, DAOS creates a series of subdirectories to organize the objects efficiently and prevent any single folder from containing too many files.

---

#### NEW QUESTION # 15

What happens when an administrator uses the Domino Administrator Client to register a new user?

- A. An LDAP record is created in the Domino Directory
- B. A Person document and Notes ID file are created
- C. Only an internet password is generated
- D. Only a mail file is created

**Answer: B**

Explanation:

The registration process automates the creation of the user's digital identity in the Domino domain. This includes adding a Person document to the Domino Directory (names.nsf) to store the user's configuration and public key, and generating a Notes ID file, which is the secure file containing the user's private key used for authentication.

---

#### NEW QUESTION # 16

Which database is used by Domino to store DDM event data?

- A. events4.nsf
- B. admin4.nsf
- C. ddm.nsf
- D. names.nsf

**Answer: C**

Explanation:

Domino Domain Monitoring (DDM) is a feature that centralizes the monitoring of multiple servers within a domain. All event data generated by DDM—such as probes that check server health or security—is stored in the ddm.nsf (Domino Domain Monitoring) database. Administrators use this database to view reports, track trends, and identify specific issues that require attention across their entire server infrastructure.

---

#### NEW QUESTION # 17

Which tab in the Domino Administrator Client provides tools to manage database replication?

- A. Messaging
- B. People & Groups
- C. Configuration
- **D. Files**

**Answer: D**

Explanation:

The Files tab in the HCL Domino Administrator client is the primary location for managing physical database files and their replicas. Within this tab, an administrator can select one or more databases and use the Tools pane to access Replication utilities. This allows them to create new replicas, manage existing ones, and manually trigger replication between the local server and a destination server.

## NEW QUESTION # 18

.....

Whatever your professional, working towards a HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 HCL-DOM-AADM-12 certification or designation takes a significant amount of effort and time. Once you have put all your effort, and investment and prepared well then you will be in a position to pass the HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 HCL-DOM-AADM-12 Certification Exam. But once you get success in the HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 HCL-DOM-AADM-12 test you'll be eligible to avail all the personal and professional benefits associated with HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 HCL-DOM-AADM-12 certification.
