

AI-102 Latest Real Exam | AI-102 Certification Exam Dumps

P.S. Free 2025 Microsoft AI-102 dumps are available on Google Drive shared by TestBraindump: https://drive.google.com/open?id=1pJw5YbNuZaJd7dr_X09B4FPXlgRHUoda

Our company abides by the industry norm all the time. By virtue of the help from professional experts, who are conversant with the regular exam questions of our latest AI-102 exam torrent we are dependable just like our AI-102 test prep. They can satisfy your knowledge-thirsty minds. And our AI-102 quiz torrent is quality guaranteed. By devoting ourselves to providing high-quality practice materials to our customers all these years we can guarantee all content is of the essential part to practice and remember. To sum up, our latest AI-102 Exam Torrent are perfect paragon in this industry full of elucidating content for exam candidates of various degree to use. Our results of latest AI-102 exam torrent are startlingly amazing, which is more than 98 percent of exam candidates achieved their goal successfully.

How to study the AI-102: Designing and Implementing an Azure AI Solution Exam

Preparation of certification exams could be covered with two resource types . The first one are the study guides, reference books and study forums that are elaborated and appropriate for building information from ground up. Apart from them video tutorials and lectures are a good option to ease the pain of through study and are relatively make the study process more interesting nonetheless these demand time and concentration from the learner. Smart candidates who wish to create a solid foundation altogether examination topics and connected technologies typically mix video lectures with study guides to reap the advantages of each but practice exams or practice exam engines is one important study tool which goes typically unnoted by most candidates. Practice exams are designed with our experts to make exam prospects test their knowledge on skills attained in course, as well as prospects

become comfortable and familiar with the real exam environment. Statistics have indicated exam anxiety plays much bigger role of students failure in exam than the fear of the unknown. TestBraindump expert team recommends preparing some notes on these topics along with it don't forget to practice **AI-102 exam dumps** which had been written by our expert team, each of these can assist you loads to clear this exam with excellent marks.

Another important objective of the Microsoft AI-102 Exam is to test candidates' knowledge of natural language processing (NLP) and computer vision. This includes understanding how to build custom models for tasks such as sentiment analysis, language translation, and image recognition. Candidates will also be tested on their ability to deploy these models using Azure Cognitive Services.

Microsoft AI-102 exam is designed to test the candidate's ability to design and implement AI solutions using Azure technologies. AI-102 exam covers a range of concepts, such as data pre-processing, model training and evaluation, deployment, and monitoring. Additionally, the exam assesses the candidate's ability to work with different Azure services and tools, including Azure Machine Learning, Cognitive Services, and Bot Services. Furthermore, the exam evaluates the candidate's ability to design and implement secure and scalable AI solutions that meet business requirements.

AI-102 Certification Exam Dumps & AI-102 Test Practice

Since it is obvious that different people have different preferences, we have prepared three kinds of different versions of our AI-102 practice test, namely, PDF version, Online App version and software version. Last but not least, our customers can accumulate exam experience as well as improving their exam skills in the mock exam. There is no limitation on our software version of AI-102 practice materials about how many computers our customers used to download it, but it can only be operated under the Windows operation system. I strongly believe that you can find the version you want in multiple choices of our AI-102 practice test.

Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q266-Q271):

NEW QUESTION # 266

You have a monitoring solution that uses the Azure AI Anomaly Detector service.

You provision a server named Server1 that has intermittent internet access.

You need to deploy the Azure AI Anomaly Detector to Server1.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- From Server1, run the docker push command.
- Query the prediction endpoint of the Azure AI Anomaly Detector in Azure.
- Install the Docker Engine on Server1.
- From Server1, run the docker pull command.
- From Server1, run the docker run command.
- Query the prediction endpoint on Server1.

Answer Area

api-nam.cognitive.microsofttranslator.com

/

translate

?api-version=3.0&to=es

- api-nam.cognitive.microsofttranslator.com
- translate

<https://learn.microsoft.com/en-us/azure/cognitive-services/Translator/reference/v3-0-reference#base-urls> Requests to Translator are, in most cases, handled by the datacenter that is closest to where the request originated. If there's a datacenter failure when using the global endpoint, the request may be routed outside of the geography.

To force the request to be handled within a specific geography, use the desired geographical endpoint. All requests are processed among the datacenters within the geography.

- United States

api-nam.cognitive.microsofttranslator.com

<https://learn.microsoft.com/en-us/azure/cognitive-services/translator/reference/rest-api-guide>

- translate

Translate specified source language text into the target language text.

NEW QUESTION # 268

You are building a customer support chatbot.

You need to configure the bot to identify the following:

- * Code names for internal product development
- * Messages that include credit card numbers

The solution must minimize development effort.

Which Azure Cognitive Service for Language feature should you use for each requirement? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content NOTE: Each correct selection is worth one point.

Features

- Custom named entity recognition (NER)
- Key phrase extraction
- Language detection
- Named Entity Recognition (NER)
- Personally Identifiable Information (PII) detection
- Sentiment analysis

Answer Area

Identify code names for internal product development:

Identify messages that include credit card numbers:

Answer:

Explanation:

Features

- Custom named entity recognition (NER)
- Key phrase extraction
- Language detection
- Named Entity Recognition (NER)
- Personally Identifiable Information (PII) detection
- Sentiment analysis

Answer Area

Identify code names for internal product development:

Identify messages that include credit card numbers:

Explanation

D:\mudassar\Untitled.jpg

Features

- Custom named entity recognition (NER)
- Key phrase extraction
- Language detection
- Named Entity Recognition (NER)
- Personally Identifiable Information (PII) detection
- Sentiment analysis

Answer Area

Identify code names for internal product development:

Identify messages that include credit card numbers:

NEW QUESTION # 269

You have an Azure subscription that has the following configurations:

* Subscription ID: 8d3591aa-96b8-4737-ad09-00f9b1ed35ad

* Tenant ID: 3edfe572-cb54-3ced-ae12-c5c177f39a12

You plan to create a resource that will perform sentiment analysis and optical character recognition (OCR).

You need to use an HTTP request to create the resource in the subscription. The solution must use a single key and endpoint.

How should you complete the request? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

NEW QUESTION # 270

You are developing a text processing solution.
You have the function shown below.

```
static void GetKeyWordsFromTextAnalyticsClient(textAnalyticsClient textAnalyticsClient, string text)
{
    var response = textAnalyticsClient.RecognizeEntities(text);
    Console.WriteLine("Key words:");

    foreach (CategorizedEntity entity in response.Value)
    {
        Console.WriteLine($"{entity.Text}");
    }
}
```

Answer Area Microsoft

Statements	Yes	No
The output will include the following words: our and included.	<input type="radio"/>	<input type="radio"/>
The output will include the following words: Paris, Eiffel, and Tower.	<input type="radio"/>	<input type="radio"/>
The function will output all the key phrases from the input string to the console.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:
