

AIGP Exam Certification Cost - AIGP Valid Exam Pass4sure

2025 Latest ActualVCE AIGP PDF Dumps and AIGP Exam Engine Free Share: https://drive.google.com/open?id=1_9Gb-mdlRn6rdQR-5sRe7BhFozlrJ5MN

All kinds of exams are changing with dynamic society because the requirements are changing all the time. To keep up with the newest regulations of the AIGP exam, our experts keep their eyes focusing on it. Our AIGP practice materials are updating according to the precise of the real exam. Our test prep can help you to conquer all difficulties you may encounter. In other words, we will be your best helper.

If you don't want to waste much time on preparing for your exam, IAPP AIGP exam braindumps files will be a shortcut for you. Good exam materials make you twice the result with half the effort. Our IAPP AIGP exam braindumps cover many questions and answers of the real test so that you can be familiar with the real test question. When you attend IAPP AIGP Exam, it is easy for you to keep good mood and control your finishing time.

AIGP Valid Exam Pass4sure, AIGP Practice Test Fee

You need to do something immediately to change the situation. For instance, the first step for you is to choose the most suitable AIGP actual guide materials for your coming exam. so the AIGP study materials is very important for you exam, because the AIGP study materials will determine whether you can pass the AIGP Exam successfully or not. We would like to introduce you our AIGP exam questions, which is popular and praised as the most suitable and helpful AIGP study materials in the market.

IAPP Certified Artificial Intelligence Governance Professional Sample Questions (Q41-Q46):

NEW QUESTION # 41

What is the most important reason for documenting risks when developing an AI system?

- A. To provide transparency to stakeholders.

- B. To mitigate potential liability.
- C. To promote knowledge sharing.
- D. To align with industry standards.

Answer: B

Explanation:

The most critical reason for documenting AI-related risks is to reduce exposure to legal, regulatory, and reputational liabilities. Clear documentation demonstrates that risks were identified, assessed, and addressed, which is essential for accountability and defensibility in the face of audits, litigation, or enforcement actions.

From the AI Governance in Practice Report 2024:

"An effective AI governance model is about collective responsibility... which should encompass oversight mechanisms such as privacy, accountability, compliance." (p. 13)

"Accountability... is based on the idea that there should be a person or entity that is ultimately responsible for any harm resulting from the use of the data, algorithm and AI system's underlying processes." (p. 28) While transparency, alignment with standards, and knowledge sharing are all secondary benefits, risk documentation's primary role is liability mitigation.

NEW QUESTION # 42

CASE STUDY

Please use the following answer the next question:

A mid-size US healthcare network has decided to develop an AI solution to detect a type of cancer that is most likely arise in adults. Specifically, the healthcare network intends to create a recognition algorithm that will perform an initial review of all imaging and then route records a radiologist for secondary review pursuant Agreed-upon criteria (e.g., a confidence score below a threshold).

To date, the healthcare network has taken the following steps: defined its AI ethical principles; conducted discovery to identify the intended uses and success criteria for the system; established an AI governance committee; assembled a broad, crossfunctional team with clear roles and responsibilities; and created policies and procedures to document standards, workflows, timelines and risk thresholds during the project.

The healthcare network intends to retain a cloud provider to host the solution and a consulting firm to help develop the algorithm using the healthcare network's existing data and de-identified data that is licensed from a large US clinical research partner.

Which of the following steps can best mitigate the possibility of discrimination prior to training and testing the AI solution?

- A. Create a bias bounty program.
- B. Perform an impact assessment.
- C. Procure more data from clinical research partners.
- D. Engage a third party to perform an audit.

Answer: B

Explanation:

Performing an impact assessment is the best step to mitigate the possibility of discrimination before training and testing the AI solution. An impact assessment, such as a Data Protection Impact Assessment (DPIA) or Algorithmic Impact Assessment (AIA), helps identify potential biases and discriminatory outcomes that could arise from the AI system. This process involves evaluating the data and the algorithm for fairness, accountability, and transparency. It ensures that any biases in the data are detected and addressed, thus preventing discriminatory practices and promoting ethical AI deployment. Reference: AIGP Body of Knowledge on Ethical AI and Impact Assessments.

NEW QUESTION # 43

CASE STUDY

Please use the following answer the next question:

A local police department in the United States procured an AI system to monitor and analyze social media feeds, online marketplaces and other sources of public information to detect evidence of illegal activities (e.g., sale of drugs or stolen goods). The AI system works by surveilling the public sites in order to identify individuals that are likely to have committed a crime. It cross-references the individuals against data maintained by law enforcement and then assigns a percentage score of the likelihood of criminal activity based on certain factors like previous criminal history, location, time, race and gender.

The police department retained a third-party consultant assist in the procurement process, specifically to evaluate two finalists. Each of the vendors provided information about their system's accuracy rates, the diversity of their training data and how their system works. The consultant determined that the first vendor's system has a higher accuracy rate and based on this information, recommended this vendor to the police department.

The police department chose the first vendor and implemented its AI system. As part of the implementation, the department and

consultant created a usage policy for the system, which includes training police officers on how the system works and how to incorporate it into their investigation process.

The police department has now been using the AI system for a year. An internal review has found that every time the system scored a likelihood of criminal activity at or above 90%, the police investigation subsequently confirmed that the individual had, in fact, committed a crime. Based on these results, the police department wants to forego investigations for cases where the AI system gives a score of at least 90% and proceed directly with an arrest.

What is the best reason the police department should continue to perform investigations even if the AI system scores an individual's likelihood of criminal activity at or above 90%?

- A. Because the department did not perform an impact assessment for this intended use.
- **B. Because AI systems that affect fundamental civil rights should not be fully automated.**
- C. Because investigations may uncover information relevant to sentencing.
- D. Because investigations may identify additional individuals involved in the crime.

Answer: B

Explanation:

The best reason for the police department to continue performing investigations even if the AI system scores an individual's likelihood of criminal activity at or above 90% is that AI systems affecting fundamental civil rights should not be fully automated. Human oversight is essential to ensure that decisions impacting civil liberties are made with due consideration of context and mitigating factors that an AI might not fully appreciate. This approach ensures fairness, accountability, and adherence to legal standards.

Reference: AIGP Body of Knowledge on AI Ethics and Human Oversight.

NEW QUESTION # 44

To maintain fairness in a deployed system, it is most important to?

- **A. Monitor for data drift that may affect performance and accuracy.**
- B. Protect against loss of personal data in the model.
- C. Detect anomalies outside established metrics that require new training data.
- D. Optimize computational resources and data to ensure efficiency and scalability.

Answer: A

NEW QUESTION # 45

CASE STUDY

Please use the following answer the next question:

XYZ Corp., a premier payroll services company that employs thousands of people globally, is embarking on a new hiring campaign and wants to implement policies and procedures to identify and retain the best talent.

The new talent will help the company's product team expand its payroll offerings to companies in the healthcare and transportation sectors, including in Asia.

It has become time consuming and expensive for HR to review all resumes, and they are concerned that human reviewers might be susceptible to bias.

Address these concerns, the company is considering using a third-party AI tool to screen resumes and assist with hiring. They have been talking to several vendors about possibly obtaining a third-party AI-enabled hiring solution, as long as it would achieve its goals and comply with all applicable laws.

The organization has a large procurement team that is responsible for the contracting of technology solutions.

One of the procurement team's goals is to reduce costs, and it often prefers lower-cost solutions. Others within the company are responsible for integrating and deploying technology solutions into the organization's operations in a responsible, cost-effective manner.

The organization is aware of the risks presented by AI hiring tools and wants to mitigate them. It also questions how best to organize and train its existing personnel to use the AI hiring tool responsibly. Their concerns are heightened by the fact that relevant laws vary across jurisdictions and continue to change.

The frameworks that would be most appropriate for XYZ's governance needs would be the NIST AI Risk Management Framework and?

- A. NIST Information Security Risk (NIST SP 800-39).
- B. Human Rights, Democracy, and Rule of Law Impact Assessment (HUDERIA).
- C. NIST Cyber Security Risk Management Framework (CSF 2.0).
- **D. IEEE Ethical System Design Risk Management Framework (IEEE 7000-21).**

Answer: D

Explanation:

The IEEE Ethical System Design Risk Management Framework (IEEE 7000-21) would be most appropriate for XYZ Corp's governance needs in addition to the NIST AI Risk Management Framework. The IEEE framework specifically addresses ethical concerns during system design, which is crucial for ensuring the responsible use of AI in hiring. It complements the NIST framework by focusing on ethical risk management, aligning well with XYZ Corp's goals of deploying AI responsibly and mitigating associated risks.

NEW QUESTION # 46

.....

When you grasp the key points to attend the AIGP exam, nothing will be difficult for you anymore. Our professional experts are good at compiling the AIGP training guide with the most important information. They have been in this career for over ten years, and they know every detail about the AIGP Exam no matter on the content but also on the displays. Believe in our AIGP practice braindumps, and your success is 100% guaranteed!

AIGP Valid Exam Pass4sure: <https://www.actualvce.com/IAPP/AIGP-valid-vce-dumps.html>

IAPP AIGP Exam Certification Cost So that our materials help hundreds of candidates pass exam and obtain this certification, IAPP AIGP Exam Certification Cost Under the circumstances, we must find ways to prove our abilities, AIGP valid exam question is a good training material, which can guarantee you can pass the exam, Details are researched and produced by AIGP dumps Experts who are constantly using industry experience to produce precise, logical verify for the test.

That knowledge will be invaluable whether AIGP you implement a game by using a framework or not, Others are dealing with divorce and looking to start a new life, So that AIGP Practice Test Fee our materials help hundreds of candidates pass exam and obtain this certification.

100% Pass Quiz IAPP - AIGP - Updated IAPP Certified Artificial Intelligence Governance Professional Exam Certification Cost

Under the circumstances, we must find ways to prove our abilities, AIGP Valid Exam Question is a good training material, which can guarantee you can pass the exam.

Details are researched and produced by AIGP dumps Experts who are constantly using industry experience to produce precise, logical verify for the test, And some after-sales services behave indifferently towards exam candidates who eager to get success, our AIGP guide materials are on the opposite of it.
